Lupine 'Gallery Pink'

Greetings 2012 Plant Lovers

The new year is sneaking up on us with lightning speed. This will be our 17th year. We're very proud and so grateful for our fantastic customers who have made that possible. We're hopeful that it will be a year of exciting economic and personal achievements for you and your business.

We are approaching the year at full tilt and with our usual optimism about our industry. Of course, we have lots of great new plants to add to our list. Please check them out. But a recent workshop presented an idea that really stuck in our minds. We need to begin to communicate to the public that plants and gardening is not just a hobby but a necessity for quality of life. Studies indicate that exposure to nature and gardening enhances our compassion, generosity, physical and psychological well-being and our sense of connection with the local and global world. Although most of us already know this intuitively, it is still pretty powerful information for an industry that has seen itself as one supported by "disposable income." Can we communicate to the coming generations, not gardening as a hobby but gardening as an integral part of a rich, fulfilling lifestyle? Yes, we can. Check out some of the research papers sited at www.Americainbloom.org under the Community Resources tab for empowering information to share with customers and staff.

Edward O. Wilson, a Harvard entomologist coined the term "Biophilia" which refers to humans' love of living things and our innate affinity with nature. We hope to share our biophilia with you this gardening season. As you know, it is contagious.

Thanks again for partnering with us,

Vicky Weis, Suzanne Baker and all the staff (animal and human) at Rush Creek Growers

Ajuga 'Chocolate Dip'

2012 Growing Methods Update

Living Soils: Upon planting into the soilless mix we introduce beneficial organisms to the root zone. The beneficials can be mixed with water and applied with the irrigation water.

Compost Tea: In 2012 we anticipate continuing our compost tea regimen. The Tea is brewed weekly and applied to all new plantings and hopefully to the entire greenhouse range. Locally produced worm castings provide the base of the tea.

Fertility: Daniels soy based fertilizer is still our fertilizer of choice. In 2012 we'll be experimenting with the certified organic version of Daniels.

Insect Control: We have several predatory insects that have taken up residence in our greenhouses. In addition, we use plant extracts and substances that physically harm pests rather than poison them. If needed, we'll resort to insect growth regulators or more conventional products.

Gracie the Lemon Beagle dreams about rabbits

Disease Control: We are using a variety of products to supply the plant roots with beneficial organisms. These organisms take up residence, protect them and produce beneficial substances. Healthy plants resist diseases, are drought resistant and hold better in their pots. Last spring we had great success preventing fungal diseases despite the prolonged cool wet weather.

Containers: We have made a commitment to using compostable pots. We are using attractive, sturdy pots in our 3 ½" herb program. The pots are made from rice hulls, bamboo and straw. The new wheat based pots worked well for the 4" annuals. Samples grown in newly developed coated paper plant wrappers will be ready for your inspection. It will be important to get your feedback. We love that they are plantable and that the material called Mirel is made by bacteria! We hope they will soon be affordable. Imagine- no pots!

Alternative Energy: Well it's not exactly alternative, but we have purchased four new 93% efficient furnaces. These will replace older models.

Dodecatheon

Highlights for 2012

Edibles: The popularity of vegetable gardening is allowing us to sell the things that we have always wanted to. The growers here are really knowledgeable gardeners. Looking around our lunch table there are quite a few who grow virtually all of their own produce. Please take note of the full line and know that each variety has been carefully chosen and haggled over.

Herbs: This continues to be one of finest lines. Our quality is bar none. We've moved some of the Vietnamese vegetables into this program. We have the "real" Mexican Oregano after years of searching. The Basil selection has been honed to the most flavorful varieties.

Large Annuals: Big blooming ready first thing. What's not to love?

Specialty Annuals and Foliage: Lots of breeding improvements this year. You'll see lots of new varieties of popular species.

Baskets: We've refined some of the combinations. Premium (16") combination baskets will no longer be side-planted. This will eliminate the danger of plant loss in those sides. Have you heard about the cool-wave pansies? This vigorous new series will be ready in April in the 10" square baskets. Don't miss them.

Perennials: While perennial sales as a whole have lagged, sales of the less expensive mostly seed varieties have gone up! We have about 200 varieties in this lower priced category.

Annuals & Baskets

Specialty Annuals

Specialty Annuals—4" compostable pots, 10/flat

We hope you were as happy with the 'wheat' pots as we were. This line of plants is really exciting to produce because of the breadth of the plant material. There is something for everyone here. We've added staff to pinch liners well ahead of transplant to produce more flower breaks earlier. You'll see lots of breeding improvements year as well. I never thought I would say this but it was actually hard to pare down the list of petunias that we wanted to grow.

Abutilon Flowering Maple

With blooms resembling small hibiscus flowers and foliage like a maple, these versatile plants can be used in mixed or single species containers, baskets or as blooming houseplants and are easily trained for topiaries.

Abutilon 'Fairy Coral Red'

h 18"

U

Pendulant salmon-pink flowers with a charming bell shape. A unique color and flower shape for mixed containers in part shade. Pleasing large maple-shaped leaves.

Abutilon 'Lucky® Lantern Tangerine' NEW!

h 12"

U

Bushy compact plant with deep coral bell-shaped flowers. Long blooming with abundant blossoms and long retail shelf life. Cold and heat tolerant.

Abutilon 'Lucky® Lantern Yellow' NEW!

h 12"

U

Lovely hibiscus-like blossoms with maple-shaped leaves. Tight rounded habit provides excellent support for soft lemon bell-shaped flowers.

Abutilon megapotamicum 'Chinese Lantern'

h 8-12"

T

Long used in Victorian England as a conservatory plant, 'Chinese Lantern' showcases both foliage and blooms. The blossoms look like small red lanterns with flared yellow tips spilling down from the pointed golden and green variegated leaves. Use in urns, baskets and mixed containers.

Agastache 'Nectar™ Orange' NEW!

h 15"

U

Showy fragrant deep orange spikes of trumpet-shaped blossoms. Compact and dense. A hummingbird favorite.

Specialty Annuals

Agastache 'Nectar™ Raspberry' NEW!	h 15"	U	○
Nectar-filled deep rose trumpet flowers on compact foliage. Heavily blooming spikes.			
Ageratum 'Patina™ Purple'	h 10-12"	U	○
Exceptional garden and container series with brilliant purple blossoms on a medium height plant. No dead heading needed. Compact and well-branched.			
Anagallis 'Wildcat Blue'	h 6-12"	T	○
True blue eye-popping color on nickel-sized blooms. Interesting needle-shaped foliage. Makes a fine groundcover or spills over annual containers. Loves heat and humidity.			
Anagallis 'Wildcat Mandarin'	h 6-12"	T	○
More compact version of 'Wildcat Blue' with a unique shade of burnt orange with a blue center. A color wheel combination to be sure. A vigorous trailing habit.			
Angelonia 'Archangel™ Raspberry' NEW!	h 12-14"	U	○
Upright habit with rich rosy raspberry flowers that the breeders boast are three times larger than other angelonia. Well-branched for a full vibrant pot of color.			
Angelonia 'Serena Purple'	h 10-12"	U	○
Care-free rosy purple variety that shows heavy branching throughout the hottest part of the summer. Extremely heavy bloomer. Habit is a low airy mounding form. The best variety for garden performance.			
Angelonia 'Sungelonia™ Blue' NEW!	h 12-15"	U	○
Angelonias are great in summer but can be challenging to have in color for our May selling season. This new series blooms two weeks earlier, is very well-branched leading to heavier flowering and is nicely compact. Heat and humidity tolerant, of course.			
Arctotis 'Cherry Frost™'	h 10-16"	U	○
Cool weather tolerant daisies with deep red petals and golden eyes rest on frosty grey lobed foliage. Intermittent blooms in hot weather.			
Arctotis 'Hearts and Tarts™'	h 8-12"	U	○
Silver foliage topped with bright reddish orange daisy-like blooms. Compact and versatile plant. Heavy bloomer during cool weather with intermittent blooms in hot weather.			
Arctotis 'Sunspot™'	h 10-14"	U	○
Soft orange daisies over attractive silvery foliage. A plant with lovely contrast. Excellent blooming in spring and fall temps.			
Argyranthemum 'Flutterby Yellow™' NEW!	h 12-24"	U	○●
Spritely 3" yellow daisies top pleasing green mounded foliage. Cool weather hardy but heat tolerant, too, with proven performance at university trial gardens.			

Bacopa 'Scopia Gulliver White' h 6-10" ST ○

A classic! Larger white blossoms over rich green foliage. Trailing habit makes this a must-have for containers and baskets. Requires consistent moisture. Good self-cleaner.

Bacopa 'Atlas White™' NEW! h 4-8" T ○●

Large-flowered classic white variety with self-cleaning properties and improved heat tolerance.

Begonias

Exciting breeding breakthroughs have been happening in the last few years. Both sun and shade varieties in a range of interesting forms and colors are now available to add to our classic favorites.

Begonia 'Dragon Wing Red' h 15" ST ○●

One of the most popular and easy-to-grow begonias. Baskets and containers overflow with glossy foliage and bright red singles. Showy and vigorous! A great choice for the new gardener.

Begonia 'Gryphon' h 14-16" U ●●

An outstanding new foliage begonia with huge serrated green leaves overlaid with white. A striking specimen or centerpiece for shade containers. Easy to grow with low water needs.

Begonia 'Million Kisses Amour' NEW! h 10-12" T ●

They're calling it "the most vigorous trailing begonia on the market." Dark foliage provides a striking contrast with deep red flowers. Better branching and heavier flowering, too.

Begonia 'Sherbet Bon Bon™' NEW! h 10" U ○●

Abundance of double two-toned yellow and blush pink flowers. No fuss self-cleaning habit. Blooms June-Sept. Cooler weather brings deeper colors. A retail favorite at flower trials.

Begonia boliviensis 'Bonfire' h 12-15" ST ○●●

Eye-catching profusion of bright red-orange flowers. The most requested plant from our website. Works well in raised beds where they can cascade over a wall or as a basket or window box addition. Attractive serrated foliage. Low maintenance.

Begonia boliviensis 'Bonfire® Chocolate Pink' h 18-20" ST ○●

A selection of the ever popular 'Bonfire' with dark plum chocolate foliage and pink singles cascading off this semi-upright form. Vigorous and easy to grow for summer long flower power.

Begonia boliviensis 'Bonfire® Chocolate Red' h 18-20" ST ○●

Exotic orange-red blossoms cover this semi-upright plant with plum foliage overlaid with chocolate. The foliage shows a thin red margin. Low maintenance and easy care.

Specialty Annuals

Begonia boliviensis 'Sparkle' series

New in 2009, this is a tough begonia series that will grow in hot sun to part shade. They are compact and well-branched with large blossoms covering the plant. As tough as the 'Bonfires' with slightly larger and more open flowers.

Begonia boliviensis 'Sparkle Salmon'

h 18"

ST

Bright salmon blossoms are pendulant, single petaled beauties that open from a bell shaped beginning. Will thrive in a variety of conditions.

Begonia boliviensis 'Sparkle Scarlet'

h 18"

ST

Orangey scarlet single bell-shaped blooms cover long leafed, arching plant. Perfect for hanging baskets and window boxes. Vigorous in the landscape.

Bidens 'Goldilocks Rocks'

h 12-14"

ST

Bright yellow doubles cover a large mound. Blossoms on top and along stem. Heat, drought and cool weather tolerant.

Brachyscome 'Brasco Blue'

h 6"

U

Early and abundant large blue-violet singles with bright yellow centers and dark green cut-leaved foliage. Loves early spring temperatures.

Bracteantha 'Dreamtime™ Jumbo Red Ember' NEW!

h 10-12"

U.ST

Vivid yellow centers with brilliant red petal tips on a large flowered strawflower. Flowers are held above the foliage. Improved heat tolerance. An award winning variety at the University of Illinois where it is hotter than.....here.

Calceolaria integrifolia 'Kentish Hero™' NEW!

h 18"

U

Called 'Pocketbook Flower', this lovely updated variety sports brilliant burnt orange bubble-like blooms. Blossoms look like a pouty lip. Plant grows well in containers or the garden and makes a long lasting cutflower, too.

Calibrachoa 'Callie Deep Yellow'

h 6-12"

T

Bright saturated yellow blossoms. A very popular variety. Self-cleaning.

Calibrachoa 'Million Bells Crackling Fire'

h 6-12"

T

One of our favorites in orange and gold tones. Colors stay strong with a nice mounding habit and good flower cover.

Calibrachoa 'Minifamous™ Double Lemon' NEW!

h 6-12"

ST

Fully double lemony yellow callies with a semi-trailing form covered in blossoms.

Calibrachoa Superbells™ series

Popular self cleaning series really struts its stuff with vivid color, large flower size and a vigorous growth habit.

Calibrachoa 'Superbells™ Apricot Punch'

h 6-12"

T

Vivid apricot blooms with a red center. Vigorous, self-cleaning form.

Calibrachoa 'Superbells™ Blackberry Punch'

h 6-10"

T

Very trendy, new cultivar featuring a black center surrounded by a rich magenta margin. Large flower size packs a punch!

Calibrachoa 'Superbells™ Blue' NEW!	h 5-8"	T	○
Abundance of cascading purple-blue flowers bloom all season. A stand alone color who also plays very well with others. Do not over water. No deadheading necessary.			
Calibrachoa 'Superbells™ Cherry Blossom' NEW!	h 6-10"	T	○
Cascading growth is covered in soft pink flowers with a deep rose throat. Low maintenance and uniform performance make this a winner.			
Calibrachoa 'Superbells™ Cherry Star' NEW!	h 6-10"	T	○
Beautiful cherry pink flowers with a golden star along the creases. The star remains stable throughout the summer. Blooms all season quickly filling out containers or baskets. Performs well in the heat and is cold tolerant. Slightly more upright than other Superbells.			
Calibrachoa 'Superbells™ Coralberry Punch'	h 6-10"	T	○
Strong new bicolor blossoms feature peachy pink flowers with a really deep red eye. Quite striking and an interesting design element.			
Calibrachoa 'Superbells™ Grape Punch' NEW!	h 8-12"	T	○●
Profusion of purple flowers with deep purple throats bloom all season. Vigorous and low maintenance. Drink it in.			
Calibrachoa 'Superbells™ Plum'	h 6-12"	T	○
Large blossoms in an elegant shade of plum, marked with darker veins and throat with a yellow center.			
Calibrachoa 'Superbells™ Scarlet'	h 6-12"	T	○
One of the largest-flowered calibrachos in a dark rich scarlet. Very trailing.			
Calibrachoa 'Superbells™ Sweet Tart' NEW!	h 6-12"		
Candy pink with a tart yellow eye is a sweet designer's dream. Large blossoms like all the Superbells. Self-cleaning and vigorous. Pucker up!			
Canna 'Tropical Bronze Scarlet' NEW!	h 18-30"	U	○
This dwarf canna is lovely with many rich scarlet blooms above bronze-burgundy foliage.			
Chrysocephalum apiculatum 'Flambe® Yellow'	h 5-8"	U	○
Bright tiny yellow buttons cover touchable soft gray leaves. Well-branched and heat tolerant. A very interesting design element for mixed containers.			
Cleome 'Senorita Rosalita'	h 40-48"	U	○●
No more thorns and sticky foliage on this cultivar. Long blooming with beautiful dark green foliage and heat tolerant pink and white spidery blossoms. Very heavy bloomer and no deadheading necessary.			

Specialty Annuals

Coleus Lots of varieties

See 4" Foliage section.

Cuphea 'Mellow Yellow' NEW!	h 8-12'	ST	<input type="radio"/>
------------------------------------	----------------	-----------	-----------------------

Adorable bright yellow flowers cover compact trailing dark green foliage. Continuous blooming throughout our hot summer weather. Loved by butterflies and hummingbirds.

Cuphea 'Flamenco Samba'	h 10-12"	U	<input type="radio"/> <input checked="" type="radio"/>
--------------------------------	-----------------	----------	--

A fantastic series that is upright in form and covered with large open papery blooms of burgundy with darker centers. Works equally well in the garden or containers and looks really great when mass planted. Loves heat and humidity.

Cuphea 'Cuphoric Pink' NEW!	h 6-8"	ST	<input type="radio"/>
------------------------------------	---------------	-----------	-----------------------

Delightful small fan-shaped pink blossoms on arching stems. Very full and flower-filled plants on a pleasantly mounded, semi-trailing form.

Dahlia Dahlinova Hypnotica series

We've chosen this series for its extremely well-branched form, large flower size and greater height compared to other Dahlinovas. Showy in mass plantings in the landscape and compact enough for a punch of color in containers. Multiple flower flushes throughout the summer and fall.

Dahlia 'Dahlinova Hypnotica™ Coral'	h 12-14"		
--	-----------------	--	--

Bicolor coral with a deeper color center.

Dahlia 'Dahlinova Hypnotica™ Dark Night'	h 12-14"		
---	-----------------	--	--

Merlot decorative with a small yellow center.

Dahlia 'Dahlinova Hypnotica™ Red'	h 12-14"	U	<input type="radio"/>
--	-----------------	----------	-----------------------

Rich true red decorative doubles.

Dahlia 'Dahlinova Hypnotica™ Red Bicolor'	h 12-14"	U	<input type="radio"/>
--	-----------------	----------	-----------------------

Vibrant red with yellow flared from the center. Large flowered decorative.

Dahlia 'Dahlinova Hypnotica™ Yellow'	h 12-14"	U	<input type="radio"/>
---	-----------------	----------	-----------------------

Vibrant yellow decorative doubles.

Dahlia 'Dark Angel Dracula'	h 12"	U	<input type="radio"/>
------------------------------------	--------------	----------	-----------------------

Intensely red-violet single petaled flowers over black-as-night foliage. Not in the least bit scary but you will be transformed.

Dahlia 'Goldalia™ Scarlet' NEW!	h 6-8"	U	<input type="radio"/>
--	---------------	----------	-----------------------

Compact with excellent branching, this dahlia features smaller yellow center petals that seem to dance on the background of large scarlet petals.

Dahlia 'Happy Days Pink' NEW!	h 10"	U	<input type="radio"/>
--------------------------------------	--------------	----------	-----------------------

Profusely blooming anemone-type flowers above bronze colored foliage.

Dahlia 'Lucky Mix™' NEW!	h 18"	U	<input type="radio"/>
---------------------------------	--------------	----------	-----------------------

Bi-color flowers in this mix all have burgundy flashes on backgrounds of yellow, white or hot pink.

Datura m. 'Ballerina Purple'	h 24-36"	U	○
Exotic 6-8" upward-facing blooms. Petals are a swirled mix of deep purple and lavender. Color from early summer until fall weather sets in. Works well in containers and the garden.			
Datura m. 'Ballerina White'	h 24-36"	U	○
Giant 6-8" double white upfacing blossoms on a fast growing annual tropical. Wonderfully fragrant. Spiky round seed pods follow blossoms. Keep deadheaded for best blossoming.			
Datura m. 'Ballerina Yellow'	h 24-36"	U	○
Giant 6-8" double yellow upfacing blossoms on a fast growing annual tropical. Wonderfully fragrant. Spiky round seed pods follow blossoms. Keep deadheaded for best blossoming.			
Diascia 'Genta™ Giant Pink'	h 8-10"	U	○●
Extra large spurred blossoms in a rich rosy shade for more color impact. Very cool weather tolerance makes this a great choice for early spring color.			
Diascia 'Genta™ Orange Improved' NEW!	h 6"	U	○●
Bright apricot spurred blossoms are an early spring and fall favorite. Will take frost and look fabulous with pansies and osteos.			
Diascia 'Genta™ Raspberry' NEW!	h 6"	U	○●
Deep red spurred blossoms are cold weather tolerant and early to bloom. Nice compact form. A great plant for mixing with pansies and osteos for the first blush of color.			
Eritrichium canum-hybrid 'Baby Blues' NEW!	h 6-8"	U	○
Large baby blue blooms on dense flower spikes. Bred from alpine natives and prefers well drained or even gritty soil. A mildew-resistant substitute for Forget-Me-Nots (Mysotis). A tender perennial that blooms the first and will charm your customers.			
Euphorbia 'Breathless Blush'	h 8-12"	U	○
This variety is special due to the lovely mound of reddish foliage that serves as a background for the showy mass of self-cleaning white flowers. Excellent branching and denser flowering.			
Euphorbia 'Diamond Frost'	h 10-14'	U	●
These plants have taken the country by storm. Bright green leaves on small stems give a delicate appearance. Then mounds of airy tiny white flowers create a ball of color that weaves it way through the other plants in your container.			
Fuchsia 'Autumnale'	h 6-18"	T	●
Incredible golden leaves accented with orange and purple. Classified with uprights although it has a somewhat prostrate habit. Blooms later with bright red tubular shaped flowers. This is one of our most popular unusual varieties. It's irresistible!			

Specialty Annuals

Fuchsia 'Billy Green' NEW!	h 24"	U	○●●
Recommended by our friend Mary Maguire-Lerman, here is an upright with an open habit, deep olive green foliage and pendant coral pink blossoms with darker pink centers. It is the perfect height for the center of a container. Sun tolerant. Try this one for sure success.			
Fuchsia 'Firecracker' RENEW!	h 18-24"	U	●●
We missed you 'Firecracker' and are glad you are back on our list. Variegated foliage of cream and green with bright red tubular flowers. Upright form.			
Fuchsia 'Shadow Dancer® Marcia'	h 8-12"	U	●●
Red and purple flowers on a neatly compact mound. Adds vivid colors to shade containers. Blooms all summer.			
Fuchsia 'Shadow Dancers® Yolanda'	h 12"	U	●●
Compact coral-red and white flowers. Tucks easily into a shade basket, container or window box for all summer enjoyment.			
Fuchsia 'Tassel™ Dark Salmon' NEW!	h 18"	U	○●●
Long cylindrical clusters of pendent salmon and coral blossoms that open to pink. Attractive upright form for sun or shade.			
Fuchsia magellanica 'Aurea'	h 24"	T	○●
Lovely golden-hued foliage on this cascading semi-upright plant. The perfect filler in containers and baskets! Develops the tiniest of fuchsia blooms later in the season that might make perfect earrings for that special night out.			
Gaillardia 'Gallo Dark Bicolor™' NEW!	h 10-16"	U	○
Large golden daisies with wide red central markings highlighted with soft silvery foliage. Very bright and showy blossoms all summer. Drought tolerant.			
Gaura 'Belleza™ Dark Pink'	h 26-28"	U	○
Spikes of delicate star-shaped flowers on fine green foliage with an upright form. Customers love gaura in any form. Check out Border Gems for a taller white variety.			
Gazania Sunbathers® series			
A new generation of large-flowered daisies with silvery gray foliage from Australia. Crested semi-double blossoms will tolerate cool and hot temps. Double blossoms stay open better than single varieties. Colorful accent for the annual garden or containers.			
Gazania 'SunBathers® Gold Coast'	h 6-8"	U	○
Large showy flowers in bright gold without the typical dark eye. Semi-double blooms help keep them open at night. Loves hot summers.			
Gazania 'SunBathers® Malibu' NEW!	h 8-12"	U	○
Orangey apricot blossoms with a double center that keeps the blossoms open in lower light. Sharply pointed petals add to the texture. Well-drained soil is a must.			

Gazania 'SunBathers® Moonlight' NEW!	h 8-12"	U	<input type="radio"/>
White petaled daisy-like blossoms with a double pale yellow center. Double center keeps blossoms open all day. Long narrow silvery foliage is a bonus and gives the white blooms an extra shimmer.			
Gazania 'SunBathers® Sunset'	h 12-14"	U	<input type="radio"/>
Large showy rich orange flowers without the typical dark eye around the center. Semi-double blossoms don't close at night.			
Gazania 'SunBathers® Totonaca' NEW!	h	U	<input type="radio"/>
Whoa! If you like bicolors, take a look at the photo of this sparkling beauty. Scarlet petal tips are dipped in gold with a huge gold double center that keeps the blossom open all day and night.			
Geranium 'Angel Eyes Orange'	h 10-12"	U	<input type="radio"/>
Coral-orange colored singles resemble a viola with a darker face. This style has a delicate appearance that is totally charming. Attractive green foliage.			
Geranium 'Bullseye Cherry'	h 13-15"	U	<input type="radio"/>
Chocolate foliage with light green margins highlight this reliable seed-grown variety. Large cherry red doubles. Easy to grow.			
Geranium Caliente series			
We have been so impressed with this interspecific series that blends Zonal & Ivy types to produce large, heat-tolerant, bountiful blooms. The plants stay semi-upright in pots with attractive, full clean foliage.			
Geranium 'Caliente® Fire'	h 6-8"	ST	<input type="radio"/>
Large crimson red blooms with the darkest green leaves. One of our top staff picks!			
Geranium 'Caliente® Hot Coral'	h 6-8"	ST	<input type="radio"/>
"Hot" really describes this coral colored double. The blossoms pop with color.			
Geranium 'Caliente® Lavender'	h 8-12"	ST	<input type="radio"/>
Soft lavender doubles on a softly trailing variety. This is truly a pleasing and unique geranium color.			
Geranium 'Caliente® Orange'	h 6-8"	ST	<input type="radio"/>
Bright orange blossoms over rich green foliage. Flowers are double, large and very pure orange.			
Geranium 'Caliente® Rose'	h 6-8"		
Neon rose double flowers shine from this semi-trailing variety.			
Geranium 'Chocolate'	h 10-12"	U	<input type="radio"/>
Some of our favorites are the maple leaf geranium varieties such as this cultivar that sports dark green leaves coated in dark chocolate. Intensely red flowers pop above the plant.			
Geranium 'Crystal Palace Gem'	h 8-12"	U	<input type="radio"/>
Lime green foliage with a forest green center. Single coral blossoms. One of our best sellers. The foliage is exquisite.			

Specialty Annuals

Geranium 'Indian Dunes'	h 8-10"	U	○
Mounds of scalloped chartreuse leaves with bronze centers are complemented by an orange-red flower. Leaves are almost translucent. Striking in mixed pots.			
Geranium 'Lotusland'	h 6-10"	U	○
The uniqueness of this variety lies in the unusual flower style which looks like a bright pink lotus blossom. Golden maple leaf foliage with a bronze zone complete the perfect contrast.			
Geranium 'Angel Eyes Bicolor™' NEW!	h 12-15"	ST	○
A mini-regal variety with charming small blossoms featuring white upper and deep fuchsia-rose lower petals. Known for many small blossoms through the season on a compact, semi-trailing plant.			
Geranium 'Calliope® Dark Red' NEW!	h 10-14"	U	○●
The deepest dark red on the market with large semi-double flowers. Attractive, clean, green foliage. A favorite red around here.			
Gypsophila 'Gypsy Deep Rose'	h 10-14"	ST	○
Dainty, delicate and airy, this semi-trailing baby's breath is adorable. Deep rosy pink blossoms and petite airy foliage.			
Gypsophila 'Pixie Splash' NEW!	h 3-5"	ST	●●
Delicate white blooms with a pink splash make an adorable accent plant for containers or as border edging. May perennialize.			
Heliopsis 'Tuscan Sun'	h 12-20"	T	○
Butterfly-attracting yellow sunflowers. Well-branched, compact form is ideal for the center of a container. Blooms all summer. Zone 3 hardy.			
Heliotrope 'Fragrant Delight'	h 18"	U	○●
An old fashioned but classic plant. Purple umbels with a lovely anise-like fragrance. The best variety for deep, deep color and strong fragrance.			
Heliotrope 'Simply Scentsational'	h 24-30"	U	○●
A different species of heliotrope characterized by a more woody form with clusters of fragrant pale lavender blossoms and golden throats. These are smaller blooms but in a very unique color. Check out the photo on www.rushcreekgrowers.com .			
Hibiscus 'Snow Queen' NEW!	h 4-6'	U	○
Large red blossoms swirl open over variegated cream and green foliage. Some leaves are almost white with a narrow red margin. Spectacular! Tropical! Can be overwintered indoors.			
Impatiens 'Butterfly Cherry'	h 6-10"	ST	●●
One-of-a-kind interspecific hybrid with a delicate five petaled blooms with a darker center resembling a butterfly. The flowers are small and numerous. A vigorous trailing plant that works well in baskets or containers. Grows best in afternoon shade.			

Impatiens 'Fanfare Fuchsia' h 8-12" ST   
 Deep vivid fuchsia blossoms are almost as large as New Guineas but so much easier to grow. Nicely trailing habit. This is a great plant for the beginning gardener as you have to try pretty hard to kill it. Drought and neglect tolerant.

Impatiens Fusion series

This series of exotic impatiens have been a big hit since 2005. The lovely mounded foliage is covered in nickel-sized flowers in shades from apricot to yellow to coral. These show vigorous growth and are extremely floriferous. Great unusual colors for shade!

Impatiens 'Fusion Glow' h 6-8" U  
 Lemon yellow with orange at the throat.

Impatiens 'Fusion Heat' h 6-8" U  
 Deep coral with a yellow throat.

Impatiens 'Patchwork Peach Prism' h 10-16" ST 
 Large showy peach blossoms with a dark coral central zone. Well-branched and spreading form.

Impatiens 'Patchwork™ Pink Shades' NEW! h U 
 Chosen for the unusual bicolor markings of dark rose centers with lighter pink margins. This is a low maintenance variety with dark green foliage and a pleasing mounded habit. Easy to grow for shady baskets, containers and in the landscape. This variety scored a Perfect 5 Rating from the University of Wisconsin trial gardens in 2010.

Impatiens 'Rockapulco® Coral Reef' NEW! h 10-12" ST  
 Beautiful coral doubles resembling rosebuds cover this tried-and-true series for shade. A stunning choice for mixing with burgundy and pink coleus. Self-cleaning for easy care.

Impatiens 'Spellbound™ Strawberry Star' NEW! h 12-20" T   
 This early season free flowering impatiens thrives in full sun and shade. The blossoms are a rich strawberry red with a well-defined white star in the center. You will be charmed.

Impatiens Sunpatiens™ series

A gigantic breeding breakthrough in the world of impatiens. This series performs vigorously in full hot sun to full shade. They have a similar appearance to a New Guinea, but these fabulous plants are tall and wide (up to 3 feet). Highly recommended plants for containers or the landscape. The spreading group, obviously, has a more trailing habit while the compact group is upright and works well in large containers or mid-border.

Impatiens 'Sunpatiens™ Compact Lilac' h 24-36" U   
 Soft lilac singles

Specialty Annuals

Impatiens 'Sunpatiens™ Compact Magenta'	h 24-36"	U	○●●
Dark magenta blossoms.			
Impatiens 'Sunpatiens™ Compact Orange' NEW!	h 20-24"	U	○●
Vivid orange flowers bloom from spring to frost. Tough plants that thrive in full sun and high heat. Likes it moist and will let you know when it needs a drink. Easy to grow.			
Impatiens 'Sunpatiens™ Variegated Spreading White'	h 36-48"	U	○●●
White blossoms sit atop this lovely cream and green variegated foliage. A vigorous spreading plant. A lovely choice for containers or the border.			
Iochroma 'Purple Queen'	h 24-28"	U	○
Native to Central and South America. Large velvety leaves with spectacular tubular purple blossoms. Check out our website (www.rushcreekgrowers.com) for a photo of this unusual gem. Can become a small shrub-like size in one season.			
Lantana 'Bandana® Cherry Sunrise'	h 4-6"	T	○
Gorgeous four-colored blossoms are cherry, yellow, apricot and pink. Larger flowers than most. Woody, trailing form is ideal for the landscape and containers.			
Lantana 'Bandana® Rose' NEW!	h 18-24"		
Begins the spring with pale lemony umbels that mature to a lovely rose, giving it the appearance of a bicolor. Lantana is great for our hot summers. Pleasing trailing habit works well in basket, mixed containers and the garden.			
Lantana 'Landmark® Citrus'	h 4-6"	U	○
Vibrant orange and yellow flowers thrive in extreme heat, drought and humidity. Free flowering.			
Lantana 'Landmark® Gold'	h 15-20"	U	○
Bright solid gold flowers thrive in extreme heat, drought and humidity. Free flowering. One of the most floriferous varieties we grow.			
Lantana 'Luscious Grape'	h 10-16"	ST	○
Gorgeous ground cover or container plant has rich grape colored blossoms with a white eye. A unique and popular color. Keep deadheaded for best blooming.			
Lantana 'Samantha™' NEW!	h 6-10"	ST	○
Light up the garden with these bright yellow flower clusters over golden and green variegated foliage. This cultivar is sterile so it will keep blooming even if you forget to deadhead. Spreads to 30".			
Laurentia 'Beth's Blue'	h 8-12"	U	○●
Five-petaled steely blue stars cover a globe-shaped plant that will bloom all summer. Deeply cut foliage adds a delicate texture to a tough plant. A great blue for the border or to accent a container. Tender perennial.			
Lobelia 'Hot® Tiger' NEW!	h 8-12"	T	○●
A delightful blue and white bicolor blossom highlights this heat tolerant variety. Soft purple-blue petals surround a white center with cute purple markings.			

Lobelia 'Hot® Waterblue' NEW!	h 8-12"	T	○●
The 'Hot' series is bred for heat tolerance. This variety is a gorgeous mid blue. Well-mounded and floriferous, these are perfect for mixed containers and baskets.			
Lobelia 'Purple Star' NEW!	h 4-8"	ST	○
The 'Star' series is bred for early blooming and delightful colors. 'Purple Star' sports loads of dark rosy purple blossoms.			
Lobularia 'Silverstream™' NEW!	h 8-12"	ST	○●
This vegetative alyssum is packed with blossoms and long lasting staying power through our hot summers. Vigorous grower works well in combos or baskets. Perfumed with a sweet honey fragrance. Pleasing mounded form.			
Lophospermum 'Great Cascade Wine Red'	h 12-36"	T	○●
A lovely vining variety with rich wine tubular flowers spilling from softly silver foliage (similar to some Asarinas but the flowers are larger and seem more open). Use for baskets, window boxes or trailing over the garden wall.			
Lophospermum 'Lophos White™' NEW!	h 36-48"	T	○●
Sophisticated trailer featuring white tubular shaped blossoms glistening against soft green foliage. An elegant sister to the wine red variety that has been so popular for baskets and window boxes. Earlier to bloom than the creamy one we tried several years ago. Vigorous growth with self-cleaning ease.			
Lysimachia 'Sundew Springs™'	h 12-14"	ST	○●
Shiny pointed golden foliage accents containers or the garden. Blooms with yellow blossoms in early summer.			
Lysimachia 'Superstition™'	h 2-4"	T	○●
Beautiful trailing foliage in shades of burgundy with veins of green. Dark hue is maintained through summer's heat. Single petaled yellow blossoms. Easy to grow. Use as a trailing accent for mixed containers.			
Lysimachia 'Walkabout Sunset'	h 6-10"	T	○
Beautiful gold and green foliage with bright yellow blooms. Very easy to grow in the garden or as a beautiful addition to containers, baskets and window boxes. Just fabulous!			
Mecardonia 'GoldDust™' NEW!	h 2-5"	T	○
Small green leaves are covered with yellow flowers throughout the summer. Ground-hugging form works great in containers. Self cleaning. Top rated at the University of Wisconsin Extension trial gardens in Madison.			
Nemesia 'Angelart Orange'	h 8-10"	U	○
A true two toned orange bloom. Well-branched, mounding habit. Looks fabulous with blue pansies. Deliciously fragrant.			
Nemesia 'Angelart Raspberry'	h 8-10"	U	○
A pleasing blend of very deep raspberry to pink tones. Fragrant.			

Specialty Annuals

Nemesia 'Opal Innocence'	h 8-10"	U	<input type="radio"/>
Extremely fragrant blooms that change from iridescent pink to light purple. Truly lovely. This variety appears translucent.			
Origanum 'Amethyst Falls™' NEW!	h 10"	ST	<input type="radio"/>
Beautiful trailing plant has bright lavender pink hop-like bracts with an entirely unique appearance. Blooms throughout the summer and is very cool-weather tolerant for fall color as well. Loves well drained soil.			
Origanum 'Kent Beauty'	h 4-6"	ST	<input type="radio"/>
Hops-like bracts turn rose, cream and chartreuse in late summer. These gorgeous plants spill over the edges of containers beautifully. Hard to find.			
Osteospermum '3D™ series' NEW!		U	<input type="radio"/>
This Osteo blooms with a large, double center that remains open all day and night for greater customer appeal. The centers are made up of many small trumpet shaped flowers for even more fun! Cool weather favorites.			
Osteospermum '3D™ Pink' NEW!	h 12-16"	U	<input type="radio"/>
Soft pink blooms with slightly darker center.			
Osteospermum '3D™ Purple' NEW!	h 12-16"	U	<input type="radio"/>
Deep rosy purple 3" daisies with darker centers.			
Osteospermum '3D™ Silver' NEW!	h 12-16"	U	<input type="radio"/>
Silvery white 3" blossoms have central clusters of tubular blooms with pink margins and throats.			
Osteospermum 'Asti White™' NEW!	h 17-20"	U	<input type="radio"/>
Pure white 2" daisy flower with an indigo center. Very adaptable. Tolerant to heat and cold. Flower stays open in cloudy weather.			
Osteospermum 'Cape Daisy® Fire Burst' NEW!	h 10-12"	U	<input type="radio"/>
Don't settle for a spark when you can have a burst of fire. Coppery gold changes to coppery red as it matures. Traditional osteo habit--well branched and compact.			
Osteospermum 'Margarita series' NEW!			
A reliable Osteo series that has been growing in popularity due to its compact habit, unusual colors and good summer blooming. We have attended several trials where the Margaritas showed excellent summer performance in hot and humid conditions.			
Osteospermum 'Margarita Bronze Bicolor' NEW!	h 8-10"	U	<input type="radio"/>
Chosen for an unusual color combo of rusty bronze orange with a thin yellow ring around a dark center. Nice tight growth habit with lots of branching for easy spring sales.			
Osteospermum 'Margarita Dark Pink Bicolor' NEW!	h 8-10"	U	<input type="radio"/>
Deep rosy pink blossoms with white center that spreads halfway up the petal. Dark centers accent the white.			

Osteospermum 'Margarita Lemon' NEW!	h 8-10"	U	○
Soft yellow centers with sunny yellow petals.			
Osteospermum 'Margarita Purple' NEW!	h	U	○
The richest magenta purple we have found.			
Osteospermum 'Tradewinds Cinnamon' NEW!	h	U	○
Creamy daisies with a cinnamon overlay bloom spring through fall. Good heat tolerance. Heavy flowering.			
Osteospermum 'Voltage Yellow'	h 10-16"	U	○●
This bright clear yellow is the first to flower and the last out of bloom. An osteo that looks good in baskets or the landscape with a semi-trailing style. Good heat tolerance, too.			
Otomeria 'O'premiera™ Ruby' NEW!	h 14-18"	U	○●
This is a charming new introduction from east Africa with dime-sized red blossoms sitting happily atop delicate green foliage. Heavy bloomer. Loves hot, hot weather, plenty of sun and humidity for best growth.			
Oxypetalum 'Heavenborn'	h 12"-20"	U	○
Also called Tweedia, this plant is a definite head turner. The pale tie-dyed blue blossoms are like no other. Blooms all summer if kept deadheaded but the long pointed seed pods are a funky treat, too.			
Pericallis 'Senetti® Mini Blue Bicolor'	h 18-20"	U	○●
Eye-catching 1½" daisy-like blooms with a deep purple blue center, a diffuse white ring and petals tipped with a soft purple blue. Heavy spring bloomer, cut back for reblooming in 3-4 weeks. Upright, very bushy habit and covered in blossoms. Appropriate as an indoor plant.			
Pericallis 'Senetti® Mini Magenta'	h 18-20"	U	○●
Eye-catching 1½" daisy-like blooms with a deep magenta center, a diffuse white ring and petals tipped with a deep vibrant magenta. Heavy spring bloomer. Cut back for reblooming in 3-4 weeks. Upright, very bushy habit and covered in blossoms. Appropriate as an indoor plant.			
Pericallis 'Senetti® Baby True Blue'	h 18-20"	U	○●
Sky blue daisies on a compact plant. The vivid color is the star here. Heavy spring bloomer. Cut back for reblooming in 3-4 weeks. Appropriate as an indoor plant.			
Petchoa Supercal series			
An ideal inter-genetic combination of petunia and calibrachoa traits featuring interesting colors with large flowers, no sticky foliage and outstanding garden and container performance.			
Petchoa 'Supercal® Blue'	h 10-14"	T	○
Purple blue with a darker throat.			
Petchoa 'Supercal® Neon Rose'	h 10-14"	T	○
Rich rose with a small gold throat.			

Specialty Annuals

Petchoa 'Supercal® Terracotta'	h 10-14"	T	<input type="radio"/>
---------------------------------------	-----------------	----------	-----------------------

Popular color goes with everything, soft orange with yellow netting.

Fuchsia 'Supercal® Vanilla Blush'	h 10-14"	T	<input type="radio"/>
--	-----------------	----------	-----------------------

Soft white with a pale yellow throat.

Petchoa 'Supercal® Velvet'	h 10-14"	T	<input type="radio"/>
-----------------------------------	-----------------	----------	-----------------------

Deepest red with slight yellow throat.

Petunia 'Black Velvet'	h 8-12"	U	<input type="radio"/>
-------------------------------	----------------	----------	-----------------------

IT'S THE BLACK PETUNIA! Here is the plant that is getting all the attention at trials and gardens around the country. Besides having a highly unusual color, the plant has an attractive mounded form with a tightly branched habit. Large blossoms are a dark clear black.

Petunia 'Blanket® Double White' NEW!	h 10-12"	T	<input type="radio"/>
---	-----------------	----------	-----------------------

Our staff member Gary has been lobbying for the addition of this beautiful small double petunia. He trialed it in his containers at home and couldn't say enough about the vigor, pure white color and double flower form. Medium vigor so grows well with other varieties.

Petunia 'Fortunia® Blue' NEW!	h 6-10"	U	<input type="radio"/>
--------------------------------------	----------------	----------	-----------------------

Chosen for a lovely mounding habit and the deepest of blue blossoms. This early blooming variety charmed us in the trial gardens at Ohio State. Good vigor but not a thug!

Petunia 'Happy® Copper' NEW!	h	U	<input type="radio"/>
-------------------------------------	----------	----------	-----------------------

The most unusual new color we have seen this year. Large soft coppery salmon blossoms with soft greenish brown throat and veins.

Petunia 'Littletonia™ Bicolour Illusion' NEW!	h 6-8"	ST	<input type="radio"/>
--	---------------	-----------	-----------------------

Chosen for a vivid bicolor combination of pure white and deep rose stripes. Smaller flower size, early to bloom and just darn adorable.

Petunia 'Littletonia™ Blue Vein' NEW!	h 8-10"	ST	<input type="radio"/>
--	----------------	-----------	-----------------------

Delicious light purple petunia with a concord grape center and venation. Smaller sized blossoms peek out charmingly in mixed containers and baskets.

Petunia 'Pinstripe'	h 8-12"	U	<input type="radio"/>
----------------------------	----------------	----------	-----------------------

A very distinctive new variety in the deepest purple adorned with a creamy white star pattern. Sells well with black petunias. Attractive upright, mounding form.

Petunia Potunia series

A rounded form highlights this extremely popular series and helps it look super on the retail bench or in a mixed container. Perfect ball of color. Very floriferous with a medium size bloom that fits the overall plant size. Fun and unique colors, too.

Petunia 'Potunia Pinkalicious' NEW!	h 6-8"	U	<input type="radio"/>
--	---------------	----------	-----------------------

Vivid Bazooka-pink blossoms cover the mounded form.

Petunia 'Potunia Yellow' NEW!	h	U	<input type="radio"/>
--------------------------------------	----------	----------	-----------------------

Sunny soft yellow with a lemon yellow center.

Petunia 'Potunia® Neon'	h 8-10"	U	<input type="radio"/>
Brightest neon pink on a sweetly rounded form. Perfect for containers.			
Petunia 'Potunia® Papaya' NEW!	h 8-10"	U	<input type="radio"/>
Soft papaya orange medium-sized blooms on a rounded, compact plant. Lots of blooms!			
Petunia 'Ray™ Purple Rim' NEW!	h 8-10"	ST	<input type="radio"/>
Large 2½ - 3" grape soda colored blossoms have a thin white margin that sets off the color nicely. More mounding form initially and then becomes trailing. Nicely covered in blossoms all season.			
Petunia 'Shock Wave™ Denim' NEW!	h 7-10"	T	<input type="radio"/>
A patch of this variety looks like a river of blue shades that will please any gardener. Flowers are somewhat smaller than the 'Waves'.			
Petunia 'Sophistica Lime Bicolor'	h 10-15"	U	<input type="radio"/>
Very large blossoms appear painted with wide splashes of lime and rose. Extremely unusual color patterns.			
Petunia 'Suncatcher™ Pink Lemonade' NEW!	h 8-12"	T	<input type="radio"/>
This new Suncatcher caught our eye at the Ohio State Trial gardens in 2011. A large soft pink blossom is overlaid with soft yellow with a yellow center. This is a series with a controlled, friendly habit that stays true to its color. Great in combinations.			
Petunia 'Supertunia® Indigo Charm'	h 8-12"	T	<input type="radio"/>
Bright bluish purple with a softly trailing habit. Blossoms and foliage perform well all summer. Self cleaning. A favorite at trials.			
Petunia 'Supertunia® Sangria Charm'	h 8-12"	T	<input type="radio"/>
Intense rosy pink medium-sized blossoms with a trailing habit. Self cleaning. Chosen for high performance and ease of care. Awarded the "Best of the Year" award at the University of Wisconsin Extension trial gardens in Madison.			
Petunia 'Sweetunia® Hot Rod Red'	h 8-10"	ST	<input type="radio"/>
Hot, hot red small blossoms cover this dense mound that trails softly over the side of baskets or containers.			
Petunia 'Sweetunia® Bordeaux' NEW!	h 6-8"	ST	<input type="radio"/>
Beautiful dark, dark burgundy-black medium-sized blossoms. Rich and royal appearance.			
Petunia 'Sweetunia® Mystery' NEW!	h 6-8"	ST	<input type="radio"/>
Medium in many good ways--flower size, vigor and growth but maximum in unique flower color. Varies from an antique white with a burgundy-black center and veins to a lovely rosy pink color with similar dark markings.			
Petunia 'Vista Bubblegum'	h 5-7"	T	<input type="radio"/>
A favorite of staff member Cheryl who found it caused a gawker slowdown when planted in front of her favorite liquor store. She plans to rename the plant after her most consumed drink, Margarita. Don't tell Proven Winners, please! Strong pink.			

Specialty Annuals

Phygelius 'Cherry Ripe™' NEW!	h 20"	U	😊
Exotic cousin to the fuschia, these cherry red tubular blossoms hang from tall stems on bushy foliage. Long blooming and cold hardy. Zone 5 with mulch. Keep moist.			
Phygelius 'Croftway™ Snow Queen' NEW!	h 15-18"	U	○
Loose clusters of pure white tubular flowers on strong stems above compact dense deep green foliage. Blooms through the summer with minimal maintenance. Classy addition to mid-borders, smaller gardens and containers.			
Portulaca 'Pazazz™ Tangerine'	h 6-8"	ST	○
Brilliant deep orange flowers for easy-to-grow color through the hot summer.			
Portulaca 'Toucan Scarlet Shades™' NEW!	h 4-6"	T	○
Beautiful large scarlet singles with a trailing form make this a great choice for late spring and summer containers, baskets and the garden. Can spread up to 16". Heat and drought tolerant.			
Salvia 'Cathedral Purple™' NEW!	h 16-18"	U	○
We were impressed with the large flower size and vivid purple flower spikes on this vegetative variety. Nice compact form adds to the appeal. Early to bloom.			
Salvia 'Oceana®' 'NEW!'	h 20-26"	U	○
Long lasting deep genietian blue blooms on bushy foliage. Blooms all season. Excellent in containers and landscape.			
Salvia buchani 'Wendy's Wish'	h 30-40"	U	○
Phenomenal fuchsia color flowers with fluted tips on sturdy stems are a hummingbird's dream. Long white stamens add even more charm. From Australia.			
Salvia farinacea Sallyfun series			
This series showed phenomenal performance for us the last few years. We can't say enough about the clean bright flowers and lovely branched foliage. Bound to be a long time container and garden favorite.			
Salvia farinacea 'Sallyfun Blue Tune™'	h 12"	U	○
White stems and bracts with soft blue petals on an upright plant. More compact and floriferous than similar seed-grown varieties. Ideal for containers and landscapes.			
Salvia farinacea 'Sallyfun Blue™'	h 12"	U	○
Brilliant blue-violet spires on bright green foliage. High performance variety. More compact and floriferous than similar seed-grown varieties. Ideal for containers and landscapes.			
Salvia farinacea 'Sallyfun Snowwhite™' NEW!	h 12"	U	○
New for 2012, we have a lovely white in this super series. Erect spires of white blossoms covered in fuzzy hairs. Great clean foliage.			

Salvia guaranitica 'Black and Blue'	h 36-48"	U	<input type="radio"/>
Fabulous late summer/fall display. Unusual dark calyx with brilliant deep blue blooms on a shrub-like form with shiny textured leaves. Use this plant with the yellows of late summer and tall background plants like Hibiscus 'Red Shield' for a sensational display.			
Salvia hybrid Mesa series			
We trialed this series a few years ago and were enchanted with the lovely heavily lipped blossoms and dense, bushy plants. Very heat and drought tolerant. A good addition to your hummingbird garden selection.			
Salvia hybrid 'Mesa Azure'	h 18-24"	U	<input type="radio"/>
Pale lavender blue with white throat			
Salvia hybrid 'Mesa Purple'	h 18-24"	U	<input type="radio"/>
Early season masses of purple blooms on bushy well-branched plants. Adds height and structure to beds or mixed containers. Heat and drought tolerant.			
Salvia hybrid 'Mesa Scarlet'	h 18-24"	U	<input type="radio"/>
True red with well-branched habit of its series mates.			
Salvia x 'Mystic Spires Blue'	h 24-36"	U	<input type="radio"/>
Plant form is exceptional on this compact version of 'Indigo Spires'. True blue spires cover the sturdy dark green foliage. Blooms all season. Excellent as a container plant or for a blue "WOW!" in the garden.			
Scaevola 'Brilliant'	h 6-10"	ST	<input type="radio"/>
A superb variety loaded with purple fan flowers from crown to tip.			
Scaevola 'Suntastic® NEW!	h 6-10"	T	<input type="radio"/> <input checked="" type="radio"/>
First yellow fan flower. Blooms profusely with vigorous growth habit. Perfect for large patio containers and hanging baskets. Keep moist, but don't overwater.			
Snapdragon 'Florini® Amalia Purple' NEW!	h 4-5"	U	<input type="radio"/>
Early flowering, mounding and compact form with royal purple blossoms. Tolerates light frost, so perfect for early spring pots with pansies and osteos. Vegetative vigor.			
Snapdragon 'Peachy Dragon'	h 8-12"	U	<input type="radio"/>
Open style peach blossoms with bright yellow centers. Compact, bushy habit. Very heat tolerant.			
Spilanthes oleracea 'Peek a Boo' RENEW!	h 12-15"	U	<input type="radio"/> <input checked="" type="radio"/>
An old friend that we have missed has returned. Adorable olive-shaped blossoms are golden yellow with deep burgundy-red eyes. (Sometimes called eyeball plant.) Can be grown as a novel indoor plant but foliage takes on an attractive bronze shade in full sun. Use in the annual border or add to a mixed container for a unique and colorful component. Can spread to 18". Chew a leaf and experience the tongue-numbing sensation that gives it the common name "Toothache Plant."			
Sunflower 'Ballad' RENEW!	h 24-30"	U	<input type="radio"/>
We loved this dwarf variety for its large (4-5") pollen free yellow blossoms. Use in containers, the garden, or even as a cheery addition to a sunny window.			
Rush Creek Growers, Inc. • 800-669-2971 • www.rushcreekgrowers.com			

Specialty Annuals

Torenia 'Catalina® Gilded Grape' NEW!	h 10-12"	T	●●
Yellow flower with a grape colored purple throat. Pleasing mounded habit to spill out of containers or baskets. Heavy bloomer.			
Torenia 'Grape-O-licious' NEW!	h 10-12"	T	●●
White flowers with purple centers add a crisp appearance to baskets, landscapes or containers. Profuse blooms and buds continue through the fall. Mounding habit. Water well in summer's heat.			
Torenia 'Summer Wave Large Violet'	h 6-10"	T	●●
Luxurious deep violet flowers with larger, more deeply serrated foliage than the other torenia out there.			
Verbena 'Aztec™ Blue Velvet' NEW!	h 6-8"	ST	○●
Deep luscious purple with a discreet white eye. Elegant color. Semi-trailing form with light textured foliage.			
Verbena 'Aztec™ White'	h 6-10"	ST	○
Large clear white flowers on with attractive light textured foliage.			
Verbena 'Magelena™ Lipstick'	h 4-6"	ST	○●
Large red blossoms on a fine leaved form. Good mildew resistance. Semi-upright form.			
Verbena 'Biloxi Blue' NEW!	h 12"	T	○
Lavender blue flowers are lightly fragrant and perform outstandingly with a monthly shearing and some fertilizer.			
Verbena 'Estrella® Salmon Star' NEW!	h 10"	ST	○●
In the gardens we visited this summer, these new bicolored verbenas really caught our eye. This is a striking salmon with creamy star centers. Vigorous, very early flowering variety has large flowers covering the entire plant.			
Verbena 'Estrella® Voodoo Star' NEW!	h 10"	ST	○●
Large red flowers with white star centers cover this early flowering verbena for a unique and appealing look. Vigorous.			
Verbena 'Estrella™ Voodoo Red'	h 8-10"	ST	○●
Really, really red blossoms on a large leaved variety. Semi-trailing habit is versatile for use in baskets, containers or the landscape.			
Verbena 'Lanai® Peach' NEW!	h 6-10"	T	○
Clusters of pastel peach florets bloom early and into the fall. Works as a ground cover along borders and will fill in baskets and planters. Deadhead to keep those flowers coming. Don't overwater.			
Verbena 'Lanai® Bright Pink' NEW!	h	T	○
Another bright color in this versatile series. Bright pink of course, umbels cover happy clean foliage. Vigorous enough for the landscape and controlled enough for containers.			

Verbena 'Lanai® Twister Pink' NEW!	h 6-10"	T	○
Creating a 'buzz' in verbena circles, this new variety has a pink center surrounded by pale pink. Large, striking flowerheads.			
Verbena 'Rococco™ Double Peach' NEW!	h 9-11"		○
Fully double blooms. Each small floret of the large blossoms look almost like a rose. Heat tolerant and non-stop blooming.			
Verbena 'Superbena™ Royale Chambray'	h 6-10"	ST	○●
All of our staff had to have one of these beauties last season! Bluest blue trailer with heavily textured foliage. Nice large blossom size and a rich colored bloom. Keep deadheaded for best blooming.			
Verbena 'Superbena™ Royale Iced Cherry' NEW!	h 8-10"	T	○
Large-leafed trailing variety with large cherry red blossoms. Superbena performance and vigor with good disease resistance. Low water and fertilization needs.			

Specialty Foliage

Specialty Foliage—4" compostable pots, 10/flat

Succulents continue to be a growing trend among gardeners. Customers can create living art with these varied and beautiful plants. Low water needs are ideal for the novice gardener. Try our succulent collections for a bench ready selection. Coleus remain top sellers and we have an embarrassing 54 varieties from which to choose. Our selection is also rich with textural plants that will inspire both your in-house designers and your container crazy customers. You'll love the new 4" compostable pots.

Alternanthera 'Brazilian Red Hots'	ST	h 12-18"	○●
---	-----------	-----------------	----

Don't miss this one! Flashy fuchsia and magenta colored, pointed leaves. This plant adds hot drama to any landscape or container.

Alternanthera 'Burgundy Threadleaf'	U	h 6-10"	○●
--	----------	----------------	----

Narrow, slightly curled & pointed foliage in rich burgundy with olive green to purple reverse. Becomes a nice sized mound of red in the garden or a smaller red accent in containers. Easy to grow and unique.

Alternanthera 'Gail's Choice'	U	h 10-14"	○●
--------------------------------------	----------	-----------------	----

What a great habit! Not too rangy or too compact. Deep red stems and leaves will weave through mixed containers or make a bold border. Does not appreciate drought.

Alternanthera 'Mai Tai'	ST	h 8-12"	○●
--------------------------------	-----------	----------------	----

Vibrant colored form with bright green, yellow and fuchsia markings on long pointed and twisted leaves. Slower growing than red leaved varieties.

Alternanthera 'Raspberry Rum'	ST	h 12-18"	○●
--------------------------------------	-----------	-----------------	----

Rich burgundy leaves randomly marked with large patches of dark pink. A lovely design component for mixed containers or as a woody groundcover.

Alternanthera 'Royal Tapestry'	T	h 16-24"	○●
---------------------------------------	----------	-----------------	----

Trailing foliage with deep burgundy stems. Foliage may appear copper, red, purple or burgundy depending on the soil or season. Vigorous mounding and trailing habit.

Alternanthera d. 'Little Ruby' NEW!	U	h 4-6"	○●
--	----------	---------------	----

Adorable small ruby red leaves on a ground hugging plant. Ideal plant for mixed containers or as a border. Easy to grow.

Artemisia 'Parfum d' Ethiopia' NEW!	U	h 14-18"	○●
--	----------	-----------------	----

A frilly leaved silver beauty that stands about 18" tall. Use it as a striking choice for the center of containers or placed in the garden as a silver foil for other annuals. A sweet fragrance adds to the allure.

Basella alba rubra 'Malibar Spinach'	T	h 24-60"	○
Unusual twining foliage with large red fleshy, glossy, sensuous leaves and stems. Can be grown on a trellis or fence or used in containers. A fun addition to a patio vegetable container. Grows best in heat and humidity. Ornamental edible.			
Centaurea gymnocarpa	U	h 12-18"	○
Fabulous foliage plant with extremely long feathery silver leaves. Resembles dusty miller on steroids. A silvery choice for the center of a container.			
Chlorophytum 'Green Edge'	T	h 6-10"	●
Grandma's favorite spider plant, updated for today's combinations with a white racing stripe down the middle. Yes, it will make the baby spiders out on long stems eventually. South African native is also a good air filtering house plant. Who knew?			
Cissus 'Ellen Danica'	T	h 12-36"	●
Oak Leaf Grape Ivy. Compound leaves with 3 oak leaf shaped leaflets with soft dark hairs on red stems. Lovely trailing accent for use in shade baskets or as a simple but elegant houseplant.			
Coleus		h	
Sorry if our selection is overwhelming but we can't stop! The colors, sizes and various textures of these great plants lead to addiction and we've got it. Most are sun lovers but a few selections are just for your shade loving customers.			
Coleus 'Alabama Sunset'	U	h 24-36"	○●●
Rosy copper leaves with golden highlights. An oldie but goodie. Easy to use with many combinations.			
Coleus 'Alligator Tears'		h 20-30"	○●●
Elongated toothed leaves are deep green with a broad slash down the middle in a butter yellow shade. New leaves have a interesting twist.			
Coleus 'Beauty of Lyon'	U	h 18-24"	○●●
Harkening back to Grandma's garden, this old variety of coleus is new again. Lanceolate leaf goes from green to bronze with an intense coral center. A staff favorite. Bushy in habit.			
Coleus 'Big Blond'	U	h 12-24"	○●●
Very bright golden chartreuse leaves with discreet bright red margins and center veins. Elegant but sassy. Maybe we should rename it 'Mae West' but that would date us!			
Coleus 'Big Red Judy'	U	h 36"	○●●
Bold dark reddish burgundy barely dappled with orange. This mama could stop traffic. One of best performers in the landscape. Big and bold!			
Coleus 'Burgundy Wedding Train'	T	h 6-8"	○●●
A wide bright green margin surrounds the burgundy center on this trailing selection. Keep it neat with a few pinches through the summer.			

Specialty Foliage

Coleus 'Buttercream' NEW!	U	h 18-24"	○●●
Large sized variety with medium sized ruffled leaves, white centers and green borders. Bold and crisp effect.			
Coleus 'Cocoa Mint' NEW!	U	h 10-12"	●●○
Beautiful mounds of well-branched maroon foliage with a mint green scallop. Sports permanent color throughout growth. Heat tolerant, but keep moist.			
Coleus 'Colorblaze® LifeLime'	U	h 20-36"	●●○
Vivid chartreuse randomly marked with small maroon flecks. Best grown in shade.			
Coleus 'Colorblaze® Velvet Mocha® ' NEW!	U	h 24-36"	○●
Distinct mocha-burgundy color with lacy texture on a strong upright plant. Offers excellent versatility in design.			
Coleus 'Dark Star'		h 12-24"	○●●
Rich deep purple-black foliage has a slightly pebbled texture. One of blackest varieties in our selection. Fairly compact mound.			
Coleus 'Dipt in Wine'	U	h 12-18"	○●●
Dark burgundy leaves touched with gold at the base. A designer's favorite. Rich and elegant colors.			
Coleus 'Doctor Wu' RENEW!	U	h 16-24"	○●●
Large size with scalloped leaves of gold with green centers. Rose stems and backs give this a striking appearance, coming or going!			
Coleus 'Fingerpaint' NEW!	U	h 30"	○●
Bold irregular splashes of brilliant reds, yellows, gold and chatreuse on large leaves.			
Coleus 'Garnet Robe'		h 12-18"	○●●
Deepest shade of red delicately edged in bright green. Dense foliage with a trailing habit. Perfect contrast with paler shades in your baskets and containers.			
Coleus 'Gays Delight'	U	h 10-18"	○●●
This tried and true selection will put up with difficult conditions and still look great. The chartreuse leaves are accented with bleeding burgundy centers and veins.			
Coleus 'Glennis'	U	h 12-24"	○●●
Gold heart becoming pink with green, purple and red toward the edges. We can see her shining from the other end of the greenhouse. A very elegant appearance.			
Coleus 'Gold Giant' RENEW!	U	h 24-30"	○●●
Lovely shimmering golden yellow leaves with magenta undersides.			
Coleus 'Gold Lace'	U	h 24"	○●
Clear golden yellow with the thinnest of red margins and veining. Attractively scalloped edges.			
Coleus 'Henna'	U	h 28"	●●○
Gorgeous color! Uniform serrated leaf of chartreuse-copper backlit with burgundy undersides. A shade variety with a lot of pazazz.			

Coleus 'Indian Summer'	U	h 18-24" ○●●
Like an autumn forest at its peak, this lovely scalloped edged leaf displays a range of earth tones in red, green and rosy brown. Since introduced in 2009, this has remained in our top 10 list. An exceptional richness of color.		
Coleus 'Kiwi Fern'	U	h 10-18" ○●●
A novel ducksfoot form with deeply scalloped edges on narrow purple leaves. Very upright. Always gets a comment because it resembles a fern.		
Coleus 'Lemon Twist™'	U	h 24-36" ○●●
Twisting ducksfoot foliage in bright lemon gold with the barest hint of deep red along the edges. This one shines with its own light. Upright.		
Coleus 'Lime Red'	U	h 24" ○●
Vivid lime foliage with lots of red streaks and striations.		
Coleus 'Limon Blush'	U	h 24"-36" ○●●
Combination of chartreuse, sassy pink and gold on a tall plant with deeply cut leaves that stack up to give the whole plant a frilly, twirling look.		
Coleus 'Mariposa'	U	h 24-32" ○●
High marks for this very large leaved (6-8") upright variety with dark crimson red leaves with a wide pink margin. Unusual structure with leaves draping downward. A large specimen. This became a customer favorite in 2011. A big hit in gardens at the Minnesota State Fair.		
Coleus 'Mint Mocha'		h 22-28" ○●●
Ducksfoot type with curled and cut foliage in mottled shades of green and yellow with red flecks and veins. Soft and silky combination of texture and color.		
Coleus 'Mississippi Summer'	U	h 24-36" ○●
Striking kaleidoscope of burgundy, maroon and pink with a ruffled red border. Late to flower. Award winner.		
Coleus 'Mosaik Burgundy Velvet' NEW!	U	h 14-20" ○●●
Bred to be very well-branched and sturdy, this coleus has burgundy centers with wide chartreuse edges.		
Coleus 'Nuclear Fusion™' NEW!	U	h 18-24" ●●
Narrow wavy edges splashed in green and magenta. Compact upright habit with long lasting colors. Prefers moist and well-drained soil.		
Coleus 'Oscar'	U	h 30-36" ●●
Dazzling dark red foliage with serrated edges outlined in yellow. Extreme contrast in color.		
Coleus 'Pineapple Splash'	U	h 24-36" ○●●
Striking contrast of bright yellow leaves with red venation down the midrib of the leaf. Heavily scalloped leaves.		
Coleus 'Redhead'	U	h 18-24" ○●●
Bright red leaves that are more red than rust. A brightly colored accent.		

Specialty Foliage

Coleus 'Religious Radish' U h 12-18" ○●●

A consistent and appealing form of the deep burgundy reds. Dark red, flushed with black markings. Exceptionally nice, well-branched form. We still can't decipher the name.

Coleus 'Religious Rutabaga' NEW! U h 16-28" ○●●

Finely serrated leaves are splashed with a mix of yellow, plum, green and red. Exceptionally nice, well-branched form. Sun tolerant. Mixes well with Pious Petunias. LOL!

Coleus 'Riverstreet Pink' NEW! U h ○●●

Deeply cut dark pink leaves edged in dark purple and green. Medium growth habit with a bushy form.

Coleus 'Royal Glissade' U h 24-36" ○●●

With a base coat of the deepest red-orange in the ilk of Sedona, the leaf is then saturated with overtones of a golden yellow like someone overdid the sponge painting...but in a good way. Edge of leaf and underside is red-orange also.

Coleus 'Sangria' U h 12-18" ○●

Brilliant red with a lemony yellow center. Party time!

Coleus 'Sedona' U h 12-18" ○●●

Beautiful southwestern red & orange tones without compare!

Coleus 'Smallwoods Driveway' NEW! ST h 14" ○●

Peach colored small toothed leaves with green and gold. Best colors in bright light. Trailing habit.

Coleus 'Songbird' NEW! U h 24-30" ○●

Large dark purple ruffled leaves with deep rosy center. Dense rounded classic form.

Coleus 'Sparkler' NEW! U h 18" ○●

Deeply frilled golden yellow leaves edged with dark pink, emerald green blotches and thin burgundy lines. We love the unique hues in this one!

Coleus 'Stained Glassworks™ Eruption' NEW! U h 18-24" ○●

Splotches and splashes of cream, green and red. This compact plant thrives in full sun. Excellent for large containers.

Coleus 'Sultana' NEW! U h 18-24" ●

Add textural interest with these large scalloped leaves rich with deep burgundy centers and chartreuse netting at the margins. Good vigor. Best in part sun or shade.

Coleus 'Swinging Linda' T h 6-8" ○●●

Startling neon rose & purple with white edge. She's a gal about town! Trailing form. A great companion for your other "wild" plants.

Coleus 'Trailing Burgundy' T h 6-8" ○●●

Deep burgundy scalloped leaves with a thin green margin. An interesting design element in sun or shade combinations.

Coleus 'Trailing Pink'	T	h 6-8"	○●●●
A bright slash of hot salmon pink accents the center of each burgundy and green mottled leaf.			
Coleus 'Trailing Plum'	T	h 6-8"	○●●●
The opposite of its rose companion, this coleus features a big blast of rich purple burgundy in the center of each leaf, surrounded by bright rose with a delicate bright gold edge. Trailing habit for containers and baskets.			
Coleus 'Trailing Rose'	T	h 6-8"	○●●●
Deep rose leaves edged with deep purple and zapped by the faintest stripe of electric green. Trailing habit for baskets and containers.			
Coleus 'Trusty Rusty'	U	h 18-24"	○●●●
Large copper leaves that are outlined in yellow.			
Coleus 'Twist and Twirl'	U	h 24-30"	○●●●
Deeply lobed leaved are splashed with red, eggplant and gold as they curl their way around the stems. One of the most unique color combos in our list. Frilly look for sun or shade.			
Coleus 'Versa Burgundy to Green'	U	h 32"	○●●●
Broad green margins with burgundy centers. Green speckles expand throughout the leaves as the summer progresses. A pleasant series that is late to flower, does well in full sun to full shade and performs well in both containers and the landscape.			
Coleus 'Versa Crimson Gold'	U	h 26"	○●●●
Dark red leaves traced with pale green around the edges. Holds its color in full shade.			
Coleus 'Wasabi' NEW!	U	h 18-28"	○●
This shining chartreuse variety with serrated edges was a winner with us during our visit to the Ohio State University trial gardens. Large with a nicely mounded shape, this variety held its bright color without fading or spotting as advertised.			
Coleus 'Zesty Zucchini' NEW!	U	h	○●●●
Lance shaped leaves are washed in a soft melon with mint green centers and burgundy veins.			
Cordyline australis 'Red Sensation' NEW!	U	h 24-36"	○●
Arching, long broad leaves in a lovely shade of purplish red. Older plants have a palm-like appearance with dense clusters on long stems. If overwintered indoors can grow quite tall. One season growth as a container accent will be considerably smaller. Prefers morning sun for best color.			
Cordyline australis 'Renegade' NEW!	U	h 24-36"	○●
Whoa! Burgundy black arching foliage with a "lacquered" finish grows into a distinctly tight clump. May bloom with fragrant, small purple flowers. Best color in morning sun. Use for height in a mixed sun or shade container.			

Specialty Foliage

Cynara cardunculus 'Cardoon' U h 36-48" ○

Lovely large, spiked silver grey leaves for larger containers or garden. Give this plenty of room. Great choice for boulevard gardens.

Dichondra 'Silver Falls' T h 3" ○●●

Silver foliage with a gorgeous cascading habit. Leaves are slightly cupped so the silver color is accented by the light. Heat & drought tolerant in sun & shade. Trailing to several feet.

Dorotheanthus 'Mezoo Trailing Red' T h 6-8" ○

An adorable succulent-like plant with both fabulous variegation and really unusual flowers. Trailing variegated light green and cream foliage with a waxy sheen and deep red tassel-like flowers. Great fun! See the photo in www.rushcreekgrowers.com.

Draceana marginata 'Red Edge' NEW! U h 24-36" ●

Lovely green blades with a deep red margin add a great design element for large mixed containers.

Echeveria 'Perle Von Nurnberg' U ○

One of our favorite echeverias with pale gray foliage overlaid with pink. This variety quickly makes a large "head". It is easy to grow outdoors or indoors.

Echeveria 'Topsy Turvy' U h 8" ○●

A clumping succulent with silverish blue-gray leaves that twist and turn in an uncommon rosette. Unusual orange flowers with bright yellow centers. Echeverias are super easy to grow as a houseplant and get large and lovely after a single season. When blooming, the blossoms seem to last forever.

Eucalyptus 'Boxwood' U h 24"-36" ○

Highlighted by striking dark red stems and small rich green, oval shaped leaves. Tough plant will take the heat of summer and several freezes in the fall. Can reach 3 ft. in a single season. Excellent cut flower filler. Fragrant.

Eucalyptus 'Lemon Bush' U h 36" ○

We were charmed by this unusual variety grown first by us in 2009. The leaves are long and tapered with reddish hairs. If this isn't enough, the lemon fragrance is astounding. Very intense. Plant has an upright form.

Eucalyptus kruseana NEW! ST h 36-48" ○●

Ornamental multi-branched plant with grey rounded leaves with a red edge. Branches seem to grow horizontal from the trunk accentuating the appeal. Don't miss the photo of this beauty on our website.

Ficus pumila 'Creeping Fig' NEW! T ○●

An evergreen vine with small, leathery, bright green leaves that are heart shaped and slightly puckered. Nice accent plant for containers or lovely as a topiary or indoor plant. Native to China, Vietnam and Japan.

Hedera 'Marengo'	T	h 3"	○●●
A variety from one of Denmark's top Hedera growers. This charming plant has large leaves with soft cream colored margins and two-toned green centers. If only it were hardy here, it would be perfect.			
Hedera 'Yellow Ripple'	T	h 3-6"	●●○
English ivy has classic star-shaped foliage. Here the gray-green is contrasted with creamy yellow edges. The variegation adds color and an attractive texture to mixed containers.			
Helichrysum p. 'Crystal Ice'	T	h 8-14"	●●○
The slightest hint of fuzz gives this selection a much more silvery white look than older helichrysoms. Even icier than "Icicles."			
Helichrysum p. 'Lemon Licorice'	ST	h 8-12"	○
Bright yellow-green velvety leaves on thickly branched foliage, a classic for chartreuse in containers.			
Hemizygia 'Candy Kisses'	ST	h 24"	○●
A bit like a plectranthus, but with deep purple stems and bright cream and green variegation. It's also more upright with a rather arching look. Fun pink blooms atop stalks are a bonus. Great contrast in a basket or container.			
Hibiscus 'Haight Ashbury'	U	h 60"	○
Fabulous tender hibiscus with cut foliage in deepest burgundy splashed with cream and pink. Blossoms are deep burgundy, too. Use in a large container as a tall center plant or plant several as a backdrop for a colorful planting. The leaf variegation is the star in this variety. Especially stunning in late summer and fall.			
Hibiscus acetosella 'Mahogany Splendor' NEW!	U	h 30-40"	○●
Similar look to a Japanese Maple. Tall height and deep burgundy color add drama to the garden. Drought tolerant but can grow in water as a pond plant. Full sun gives the best burgundy color. By mid-July, these plants were large and lovely in OSU trial gardens.			
Homocladium platycladium 'Ribbon Bush'	U	h 36"	○●
Also called 'Tape Worm Plant' - What a lovely image! Let's go with "Ribbon Bush" instead. But... interesting leafless stems formed of flat, shiny green segments. Adds texture to mixed containers especially with other foliage. Creates a full, bushy plant. Your customers will want to touch it. From the Solomon Islands.			
Hypericum tricolor NEW!	ST	h 12-30"	○●
Arching stems are covered with perky green leaves edged in pinkish white with lovely yellow blossoms. Use this tender perennial in the garden or as a component plant in a large mixed container. Cool temps accentuate the leaf variegation.			
Ipomoea batatus Illusion series	T		○●
This newer series is deeply cut forming long saber-shaped leaves that give a in rich colors. Medium growth rate so complements other plants nicely.			

Specialty Foliage

Ipomoea batatus 'Illusion Emerald Lace' T h 8-14" ○●

Very interesting cream and green patterning on a moderately vigorous variety. Heart shaped leaves.

Ipomoea batatus 'Illusion Midnight Lace' T h 6-10" ○●

Lacy black-purple foliage with magenta veins complements other plants without overwhelming them.

Ipomoea batatus 'Marguerite' T h 24-36" ○●

The classic chartreuse form of sweet potato. Vigorous, large leaves are the ideal landscape variety. Can take over in a mixed container if other plants are not well chosen.

Ipomoea batatus Sweet Caroline series T ○●

This series is noted for a more mounded habit and somewhat slower growth than others. These characteristics make the series ideal for baskets and containers where a bit smaller or less vigorous plant is desirable. Better used in containers than as a landscape variety.

Ipomoea batatus 'Sweet Caroline Bewitched' NEW! T h ○

A dark black sweet potato vine with bewitching leaf shape and and good vigor. You'll be bothered and bewildered.

Ipomoea batatus 'Sweet Caroline Bronze' T h 8-14" ○●

Unique bronze foliage.

Ipomoea batatus 'Sweet Caroline Heart Light Green' T h 8-14" ○●

Breathtaking heart-shaped chartreuse foliage.

Ipomoea batatus 'Sweet Caroline Heart Purple' T h 8-14" ○●

Perfect foil in most any combination. Purple-maroon trailing rubber like leaves. Occasional pink bloom. Carefree and eye-catching in mixed containers or baskets.

Ipomoea batatus 'Sweet Caroline Heart Red' T h 8-14" ○●

Superb heart-shaped deep red heart-shaped leaves. Wonderful accents in containers or baskets.

Ipomoea batatus 'Sweet Caroline Raven' NEW! T h ○

Purple black cut leaf sweet potato vine with moderate vigor. High marks in university trial gardens. Landscape or container use. It's so Raven.

Iresine 'Blazin Rose' U h 18-30" ○●●

Vigorous, colorful, red & rose leaves up to 7" long. Performs well in sun or shade. Rich shades of rose and burgundy. Also known as Chicken Gizzard Plant - WHOA!

Kalanchoe thrysiflora 'Fantastic' NEW! U h 12-24" ○●

This variegated paddle plant is an exciting new succulent with a collage of colors. The clam shell shaped blossoms are grey green with red highlights and splashes of cream. Award winner at TPIE (tropical plant show) in 2010. Makes a fabulous houseplant, too.

Lycyesteria 'Jealousy' NEW!	U	h 36-48"	●○
Bright chartreuse foliage on a large bushy form may show maroon highlights in cool temps. If you are looking for stunning container annual as a central component for a large container or a single specimen pot, you will find this appealing. It is fast growing and may bloom for us in July followed by purple berries in fall.			
Lotus 'Flashbulb™' NEW!	T	h 28-30"	○●
Dense, needle-like silver foliage characterizes this trailing beauty. Blooms for several weeks in midsummer with brilliant orange parrot-beak shaped blossoms. We love it for its silver color, vigorous form plus heat and cold tolerance. The blossoms are an added novelty. Height listed is the length.			
Melianthus major	U	h 36"-48"	●○
Architectural. Serrated foliage, silver blue in hue. Shrub-like form by August. Rustles seductively in the wind. Rarely blooms north of I-90 but lasts through many cold fall nights. Tender perennial of the Northwest US.			
Mimosa pudica	U	h 24-36"	●○
Sensitive plant folds up when touched, or breathed on or even walked near...but beware the stems are prickly. Fun novelty. Native to Brazil.			
Monstera deliciosa	U	h 36"	●●
Breathtaking large leaves have deep splits and are perforated with oblong holes. You'll note the young leaves are heart shaped but without holes. Easy to grow houseplant but beware it could take over.			
Muehlenbeckia complexa 'Wire Vine'	T	h 3"	○●
Small round 1/2" green alternate leaves with stiff bronze stems that look like wire. Excellent component plant. Don't let it dry out. Nicely vigorous. Use in containers or as an annual ground cover.			
Ornamental Pepper 'Black Pearl'	U	h 18"	○●
Very upright rounded black foliage peppered with shiny round black fruits. Ornamental fruit is too hot for consumption. Excellent for containers. Shipped in bloom.			
Ornamental Pepper 'Purple Flash'	U	h 15"	○●
Mounding pepper of almost black leaves with flashes of purple. Excellent for containers and ground planting. Small, round, glossy black fruit is too hot for eating.			
Oxalis vulcanicola 'Burgundy' NEW!	U	h 6-10"	○●●
Shamrock leaf shape in a deep burgundy hue. A semi trailing form is wonderful for containers or a shady window box. Yellow flowers contrast strikingly well with the burgundy foliage.			
Oxalis vulcanicola 'Ebony' NEW!	U	h 6-10"	○●
Deep, nearly black, shamrock type foliage with white flowers. This sun lover will make a wonderful addition to any container. Looks fabulous in the garden, too.			

Specialty Foliage

Oxalis vulcanicola 'Molten Lava™' NEW! U h 6-10" ○○●

Depending on the amount of light, the leaves range in color from chartreuse in lower light to orange and maroon in sunnier locations. Yellow flowers all thru the season.

Oxalis vulcanicola 'Plum Crazy' NEW! U h 6-10" ○●

Dappled pink green and white. An exciting new look in Oxalis.

Perilla 'Purple Magilla' U h 24-36" ○●

Now you can get your Magilla in darker hues. Check out the vermillion slash through the deep burgundy-purple heart of each leaf. Just a pinch of green and gold on newer foliage before they darken up. Loves heat and sun. Mounding habit.

Plectranthus 'Lemon Twist' U h 12-14" ○●●

Wonderful contrasting green & pale yellow foliage. Upright habit.

Cardoon

Plectranthus 'Silver Shield'	U	h 24"	○●●
A bold upright plant with fuzzy rounded silver foliage. Beautiful combined with blues and lavenders. More compact than sister <i>Plectranthus argentatus</i> .			
Salvia argentea	U	h 6"	○
Beautiful biennial specimen or accent plant with 6-8" large, silver leaves covered with a multitude of small hairs that add a wonderful sheen. Reminiscent of a puppy or bunny's ears - so soft! Must be touched so be sure to put it in reach of your customers and their kids.			
Sedum makinoi 'Ogon'	ST, T	h 2-5"	○●
Miniature succulent leaves of shiny golden-chartreuse will gently trail over the edge of a pot or trough. This is one of our most charming plants.			
Sedum reflexum 'Lemon Coral'	U,ST	h 4"	○
Vigorous chartreuse gold succulent creeps through your beds and containers with a fine textured carpet of chubby needle shaped foliage. A sport of <i>Sedum 'Angelina'</i> but not quite hardy here.			
Senecio mikaniodes variegata 'German Ivy'	T	h 12-18"	○●●
Charming waxy cream and green leaves with 5 sides. Vigorous, versatile trailing form is excellent for mixed containers and baskets.			
Setcreasea 'Purple Queen'	T	h 4-12"	○●
Perfect foil in most any combination. Purple-maroon trailing rubber-like leaves with an occasional pink bloom. Bold color and sharp texture draw attention. Carefree and eye-catching in mixed containers or baskets.			
Setcreasea 'Variegated' NEW!	U	h 8"	○●
Trailing leaves of electric pink with purple stripes add color and contrast to containers, baskets or gardens. Prefers well drained soil. Easy to grow. Can be grown indoors.			
Setcreasea pallida 'Blue Sue'	T	h 4-12"	○●
Rivals 'Purple Queen' as a lovely border or accent plant in containers. The blue tinged pointed leaves are edged with purple and sport soft pink flowers. Excellent vigor.			
Strobilanthes dyerianus 'Persian Shield'	U	h 30"	○
Large ribbed leaves are flushed with silvery-purple iridescence above and dark purple undersides. A perfect foil for blooming plants in mixed containers. Loves the heat. Native to Burma.			

Annual Grasses

Collections

Aloe and Agave Collection

h ○●

Sturdy succulent specimen plants noted for their rosette form become anchors for xeriscape, rockeries or patio containers. A variety of colors and forms. Excellent house plants where you have the space. Keep your distance. Incredible thorns that can bite you.

Echeveria Collection

U h ○●

Echeveria is a large genus of succulents in the Crassulaceae family and native to Mexico to northwestern South America. They are drought resistant but respond well to a deep watering and a bit of fertilizer. Ever interesting texture, shape, and color make lovely low bowl, dish gardens and rockery additions. The blossoms are held on long arching stems and are extremely long lasting.

Succulent Collection

U h ○●

Lots of color, texture and cuteness.

Annual Grasses

Annual Grasses—4" compostable pots, 10/flat

Customers have discovered the beauty, texture and durability of annual grasses. Whether as a centerpiece of a container or as a backdrop in the garden, our selection offers something for everyone. We have been particularly drawn to the new collection of Pennisetums available today. These vary in height from 14"-72". They sparkle with colors from cream to pink to burgundy. They are a spring bargain in 4" pots, easy to plant in containers and so fast growing. They deserve a spot in your display containers and gardens.

Carex buchani 'Red Rooster'

h 12-24" ○●●

Stately red-bronze grass with curled tips. Erect form.

Carex comans 'Amazon Mist'

h 12" ○●

Graceful arching mounds of cool blue-gray-green foliage with white under the leaves, creates a misty look. Fantastic moody addition to containers or in the garden. Deer-proof.

Carex 'Gold Fountains'

h 10-12" ●●

Arching mounds of 1/4" wide striking gold foliage.

Carex 'Prairie Fire'

h 12-16" ○●●

Mounding evergreen grass. Glossy, olive green foliage with russet orange tips. Prefers moist well-drained soil. Our favorite orange toned grass.

- Cyperus 'King Tut'** h 24-36" ○●●
Vigorous, dwarf Egyptian Papyrus grows only 2 to 3 feet tall. Will grow in or out of water. Well-suited to a water garden, but will make a great addition to a large pond. Thicker stems and more flower peduncles than taller cultivars. Very showy.
- Cyperus rupestris 'Mini Papyrus'** h 4-8" ○●●
A very fast growing grass-like plant with unusual shaped seed heads marked with a light red stripe. Fascinating texture. Keep the bulk of the soil mass wet by placing in a few inches of water.
- Juncus pallidus 'Javelin'** h 48-60" ○
A tall, stately, green grass adds drama to landscape or large containers. Erect form with an occasional blade with a curly tip. This rugged plant can grow in standing water and handle heat and drought. Javelin provides winter interest, maintaining its' upright habit after turning a golden yellow.
- Lagurus ovatus 'Bunny Tails'** h 18" ○
Soft bunny fuzzy seed heads on a compact grass. Creates visual and tactile fun for children and adults. Drought tolerant. Prefers a cool location.
- Melinis nerviglumis 'Savannah'** h 8-12" ○●
Blue-green foliage turns purple-red in the fall. 3-4" ruby pink blooms sitting a foot above the foliage, are real showstoppers in the fall.
- Ornamental Millet 'Jade Princess'** h 36-48" ○
Neat and tidy millet with wide lime green leaves and very erect, deep burgundy pollenless seed heads. A very eye-catching plant that is easier to maintain over time than others.
- Ornamental Millet 'Jester'** h 36-48" ●●
Fantastic multi-colored foliage, emerges chartreuse, matures to shades of burnished red before darkening to burgundy. Late season dark purple seed heads.
- Ornamental Millet 'Purple Baron'** h 36" ○
Similar to Purple Majesty, but the leaves are broader, darker burgundy and the growth habit is more compact, yet fuller.
- Pennisetum setaceum 'Cherry Sparkler' NEW!** h 24" ○
Graceful flowing grass with green and white variegation with a pink blush mixed in. Beautiful burgundy-red plumes.
- Pennisetum setaceum 'Fireworks'** h 24" ○
OH!!! A variegated purple fountain grass sporting dark burgundy centers edged in hot pink. A great name for a lovely new cultivar. Will be a hot seller.
- Pennisetum setaceum 'Graceful Grasses Vertigo'** h 36-48" ○
This large grass, with its' rich shiny burgundy foliage, provides an architectural presence in the garden or in a container, adding height and drama. Fast easy grower.

Annual Grasses

Pennisetum setaceum 'Prince'	h 60-72"	○
Purple foliage becomes deeper as summer gets hotter. Fuller habit than other purple grasses. Vigorous growth. Outstanding container plant. Use as an alternative to phormiums.		
Pennisetum setaceum 'Princess'	h 24-36"	○
Dwarf 2-3' grass. Purple foliage gets even more purple as summer heat increases. Fuller habit than other purple grasses. Perfect for smaller settings and containers.		
Pennisetum setaceum 'Princess Caroline'	h 36"	○
A somewhat shorter version of 'Princess' with an improved growth habit. Solid deep burgundy blades. No seed heads appear.		
Pennisetum setaceum 'Princess Molly'	h 14-20"	○
Very compact form with erect deep burgundy blades. Use instead of slower growing Phormiums or Cordyline in medium to large containers. No seed heads.		
Scirpus cernuus 'Fiber Optic Grass'	h 12"	○●
Compact thread-like leaves ending in tiny round seed heads. Very charming and unusual appearance. Keep moist.		
Stipa arundinacea 'Pheasant Tails'	h 24-36"	○●
Upright arching narrow blades of green-bronze grass turn shades of burnt orange and red late summer.		
Stipa tenuissima 'Pony Tails'	h 20-60"	○●
A compact grass with threadlike stems. In summer, they are covered with pale feathery seed heads resembling a pony's tail. Fabulous in the wind. Well drained soil.		
Zea mays japonica 'Field of Dreams' NEW!	h 60-72"	○
Tall decorative corn similar to our old friend <i>Zea mays japonica</i> , but with more white and less pink shading on the leaves. Striking centerpiece in a large container.		

Border Gems

Border Gems—Jumbo 6-packs, 6 packs/flats

We've been reading in the gardening press that the 6 pack is back. We didn't know it was gone. We continue to find interest in this unique collection of larger, taller, snazzier plant material for the boulevard to the front yard to the cutting garden. Surveys tell us that people are downsizing their yards and upsizing their gardens. These are a less expensive alternative to 4" for large plantings. We've got heat loving amaranthus and gomphrena, lisianthus to die for, cool season stocks, really cool 4 O'Clocks, enough zinnias to fill up most backyards, nicotianas – new and classics, and much more – over 90 varieties in all. We continue to provide bench cards for this unusual series.

Agastache aurantiaca 'Apricot Sprite'	h 14"	<input type="radio"/>
A petite variety whose delicate sprays of soft apricot blossoms peek out amongst neighboring plants. Aromatic, easy to grow in a well-drained site.		
Ageratum houstonianum 'Blue Horizon' (Floss Flower)	h 30"	<input type="radio"/>
Tall, vigorous long lasting cut flower with attractive rich blue 3" umbels in clusters. Blooms steadily until frost. Native to Mexico.		
Ageratum houstonianum 'Red Sea'	h 30"	<input type="radio"/>
Tall variety covered in magenta red 3" umbels in clusters. A rich and lovely color. Native to Mexico.		
Amaranthus 'Coral Fountain' NEW!	h 36-45"	<input type="radio"/>
Unique coral tassels cascade from sturdy stems. Add trailing blooms to large bouquets. The plant would make a unique 3-4 ft hedge.		
Amaranthus caudatus 'Dreadlocks'	h 48"	<input type="radio"/>
Fun, eye-catching 2 to 3 feet long inflorescences have the appearance of oversized deep maroon dreadlocks. Plants are fabulous in the back of a sunny border and as a lovely trailing option for large bouquets.		
Amaranthus caudatus 'Red Tails' (Love Lies Bleeding)	h 48"	<input type="radio"/>
Stunning accent plants with long drooping red blooms. Fabulous for drying or cutting. Also known as "Love Lies Bleeding."		
Amaranthus cruentus 'Hopi Red Dye'	h 48-60"	<input type="radio"/>
We can't get enough of the heat-loving amaranthus. This one was featured in Fine Gardening and we were hooked. Large dark maroon leaves with equally dark arching flower plumes on a tall show stopper. Used as a red dye by the Hopi. Birds love it. A fabulous everlasting, too.		

Border Gems

-
- Amaranthus paniculatus 'Autumn Palette'** h 48" ○
Tall, feathery spikes of cream, coral, bronze and rust. Truly splendid mix of earth tones. Intriguing cut flower. Loves the hot summer sun.
-
- Asclepias curassavica 'Silky Deep Red' (Blood Flower)** h 28-36" ○
Incredible butterfly attractor. Umbels of scarlet red-orange on bronzy green pointed foliage. Late summer blooming. Raise your own Monarchs. From South America. If only it was hardy in our northern climes.
-
- Asclepias curassavica 'Silky Gold'** h 28-36" ○
A stately, tall butterfly magnet with bicolor yellows on charming umbels. Mid summer blooming. Can be cut but you'll be thrilled if you leave it for the butterflies and their cocoons.
-
- Browallia americana 'Sky Blue'** h 24" ○●●
A taller variety covered in small blue flowers with a white eye. Sports open and airy texture. Blooms mid-summer to frost. Will grow in some shade.
-
- Calendula 'Neon' NEW!** h 24" ○
Ultra-double burgundy buds open to brilliant orange flowers edged in burnt umber. These seem to glow. Plant in large groups for a maximum effect. Sprinkle petals over salads. Makes a cheery cut flower.
-
- Calendula 'Triangle Flashback'** h 18-24" ○
Unusual peach-pink blooms and a maroon reverse with sharply pointed petals. Especially lovely in the fall garden. Cold tolerant and edible, too.
-
- Cleome 'Queen Violet' (Spider Flower) NEW!** h 36" ○
A classic garden favorite with 4-6" spider-like violet blossoms on strong, upright stems. Flowers make a long lasting cut flower and hold well on the plant. Extremely heat tolerant. Blooms summer through frost. Attracts beneficial insects, butterflies and hummingbirds.
-
- Coreopsis hybrida 'Incredible Mix' NEW!** h 45" ○
Wide variety of colors in this 3" flower mix including white with red centers, red and yellow bicolor and rose with darker center. Plant in drifts for greatest effect. Will self-seed. Perfect for a cottage garden or for cutting.
-
- Coreopsis tinctoria 'Roulette'** h 12-24" ○
Stripes of gold on a deep mahogany background. Awarded the Fleuroselect Novelty designation for its distinction in the garden. Easy to grow and drought tolerant.
-
- Cosmos bipinnatus 'Double Click Mix'** h 48" ○
Lovely double petal variety with a great name and a frilly appearance in shades of white, pink and rosy red. Loads of extra large blooms for cutting.
-
- Cosmos bipinnatus 'Rubenza'** h 24-36" ○
A new variety from the Netherlands with deep true red flowers and a traditional yellow center. A vibrant color for this easily grown favorite. Appreciates well-drained soil.

Eryngium 'Purple Sheen'	h 30"	○
An annual Eryngium with fewer and softer spines and vibrant metallic purple blooms in summer. Both texture and the vibrant color highlight this cool variety. Great for drying, too.		
Gaillardia 'Mesa F1 Bright Bicolour' NEW!	h 16-18"	○
Hybrid strength make this 'Mesa' a great choice for beginner or pro. Early flowers with bright red centers surrounded by golden yellow bands. More flowers than other varieties on this strong, well branched plant. Very drought tolerant.		
Gaura 'The Bride'	h 24-48"	○
Tiny rosy pink buds open to airy white blooms on slender reddish arching stems. Long blooming. Gives the impression of clouds of butterflies fluttering above your garden. Easy to grow, drought tolerant and absolutely lovely.		
Gomphrena 'Fireworks'	h 48"	○
A terrific variety with many hot pink blooms per plant and a tough, drought-resistant character. Bred with a "scaffolding" form with blossoms appearing at different heights for quite a show. Long lasting cut flower & a superb plant for mass planting. See our website for a photo.		
Gomphrena 'Las Vegas Mix' NEW!	h 16-20"	○
Hot pink, purple and white globes cover this heat tolerant mix. Its compact form is ideal for container or the garden. A butterfly favorite, and of course, great to dry.		
Gomphrena 'Strawberry Fields'	h 24-36"	○
Strawberry red globes on 2-3' long stems. Plants bloom midsummer to frost. Loves our hot northern summers. Drought tolerant.		
Larkspur consolida 'Blue Cloud'	h 40"	○
Cousin of upright larkspur, this plant literally looks like a wide cloud of whirling deep blue flowers. Airy open habit with sprays of ½" single blooms. One of our favorite cuts. Blooms ALL summer and self sows.		
Larkspur consolida 'Cannes Blue Picotee' NEW!	h 60"	○
A Fleuroselect Gold Medal winner. Majestic upright habit of large white fully double flowers with a sky blue edge. Blooms on tall stems. Excellent cut flowers.		
Lavatera 'Twins White' (White Tree Mallow)	h 12-16"	○●
Customer requests for this lovely annual have brought it back to our list. This variety, a Fleuroselect Gold Medal Winner, is neater and more compact than some. Splendid 3-3 1/2" white blooms. A profuse bloomer with excellent disease resistance. Compact but with a shrub-like form.		
Linum rubrum (Scarlet Flax)	h 12-24"	○
Deep scarlet flowers on soft willowy grey-green foliage resembling our perennial linum. Reblooms throughout the season. Can tolerate extreme heat and dry conditions. Native to N. Africa.		

Border Gems

Lisianthus 'ABC series'

Lovely tall doubles with high petal counts in a range of colors, formerly Avila.

Lisianthus 'ABC colors'

h 36-45"

A

Blue Rim/Purple/Rose

Lisianthus 'Echo series'

More compact series of beautiful, multi-branching doubles.

Lisianthus 'Echo colors'

h 12-14"

○

Blue/Champagne/Lavender/Pure White

Lisianthus 'Mariachi series'

Quadruple blossoms are large and spectacular. Staking required.

Lisianthus 'Mariachi colors'

h 20-24"

○

Blue/Lime Green/Yellow

Marigold 'Babuda Deep Gold' NEW!

h 40"

○

There is nothing subtle about these tall beauties. Large 4-5" double puffball flowers are strong stemmed and perfect for long lasting cut flowers. Continuous bloom through hot and humid growing season. This is a top quality hybrid developed for professional cut flower growers.

Marigold 'La Bamba' (French Marigold)

h 30"

○

Tall cultivar for the center of your garden with bright yellow singles striped with brilliant orange. Very sturdy and the lightweight blossoms can hold up in rainy weather.

Marigold 'Optiva Orange' NEW!

h 48-60"

○

Showy, showy, showy! In response to customer request, we have added these incredible tall marigolds. Excellent cut flower hybrid features large dense doubles on sturdy stems. The series has shown continuous flowering through heat and humid conditions. Developed with the needs of cut flower growers in mind.

Marigold 'Sweet Cream'

h 15-18"

○

Creamy vanilla white, 3" odorless blossoms are fully double. Considered the best white marigold.

Marigold 'Zenith Lemon Yellow'

h 12-14"

○

Medium height crested double flower heads in a soft lemony color. Flowers are semi-double with a whimsical style. A staff favorite for both color and form!

Matthiola 'Katz series' NEW!

h 12-32"

○

A new series with brilliantly colored 50% double flowers featuring earlier flowering with improved heat tolerance. Popular with cut flower growers. Pan American donates 5% of net sales to Pancreatic Cancer research.

Matthiola 'Katz Apricot' NEW!

h 12-32"

○

Romantic apricot doubles with heat tolerance and early bloom time.

Matthiola 'Katz Purple' NEW!	h 12-32"	○
Cottage and cutting garden beauties with double purple blossoms.		
Melinus nerviglumis 'Savannah' (Ruby Grass)	h 12-16"	○●
A lovely blue-green annual grass that turns purple-red in the fall. 3-4" ruby pink seed heads sitting a foot above the foliage are showstoppers in late summer. Looks lovely as the edging for a tall bed or tucked in the border.		
Mirabilis 'Harlequin' (4 O'Clock)	h 24-30"	○●
Our grandmas loved the Four O'Clocks and so do we. Very eye-catching with bicolors, striations & streaks in shades of rose, pink, yellow & white sporting dozens of showy flowers. Forms a sturdy bush by late summer. Roots can be dug and overwintered like dahlias.		
Mirabilis 'Limelight' (4 O'Clock)	h 24-36"	○●
Vivid fuchsia blooms top clean, bright chartreuse foliage speckled with deep green flecks. Stunning color combination. These are not your grandma's Four O'Clocks, but she'll probably want seeds from yours! Roots can be dug and overwintered like dahlias.		
Mirabilis 'Salmon Sunset' (4 O'Clock) NEW!	h 24-30"	○●
Oh, for a delectable salmon Four O'Clock! Here it is. Rich salmon petals with a dark throat and elegant magenta striations. A charming choice for evening relaxing in the garden. Don't miss this one.		
Nicotiana 'Baby Bella'	h 24-28"	○●
Airy clouds of wonderful deep red tubular flowers with medium green foliage. Vigorous, well-branched plant.		
Nicotiana 'Whisper Deep Pink' NEW!	h 36"	○
Spectacular tall beauty with hundreds of small rich pink flowers cascading from sturdy stems. Both the color and the form attracted us in trial gardens this summer. Significant improvement in disease resistance. A new classic for our Border Gem series.		
Nicotiana alata 'Lime'	h 24-36"	○●
Profusion of clear lime green blooms throughout the summer. Long lasting cut flowers. Shines in the part shade garden or in mixed containers.		
Nicotiana alata 'Perfume Deep Purple'	h 20"	○●
Rich deep purple like a queen's velvet robe...and a scent like her best perfume! Upward facing blooms are held high above the foliage. An All America Winner.		
Nicotiana mutabilis	h 36-60"	○●
Tall stems carry dozens of 1" pendant tubular blooms that age from pure white to pale pink to rose pink so that all colors appear at once. Curving stalks give plant the appearance of a flying group of birds. From Brazil. Hummingbird favorite.		

Border Gems

Nicotiana glauca	h 48-60"	○●
Elongated tubular white, deliciously scented blooms with star-shaped faces top tall stems and huge leaves. Very showy specimen. May self sow around the border a bit. From Argentina.		
Nigella papillosa 'Midnight' (Love in the Mist)	h 18"	○
A deep purple variety with nearly black stamens. Dark horned seed pods extend the pleasure of this beauty. Lovely and unusual cut flower.		
Panicum elegans 'Frosted Explosion' (Switch Grass)	h 24-32"	○
Voted the best cut flower for 2010 by the American Assn. of Cut Flower Growers. Beautiful airy seed heads in late summer add drama and texture to the cutting garden or annual bed. Great in containers, too.		
Papaver commutatum 'Ladybird'	h 12-18"	○
A bushy annual poppy absolutely covered with brilliant red blooms that continue for 6 weeks. May reseed. Loves cool temps.		
Rudbeckia hirta 'Cappuccino'	h 18-20"	○
Splashy warm chocolate-red and yellow bicolor flowers are a long lasting choice for beds or containers. Very easy to grow. May perennialize.		
Rudbeckia hirta 'Cherokee Sunset'	h 30"	○●
2002 AAS Winner. 3-4" double or semi-double blooms in autumn shades of orange, yellow and rust. The really fluffy ones almost look like large mums or dahlias.		
Rudbeckia hirta 'Cherry Brandy'	h 20"	○
The first ever dark cherry red rudbeckia. Multiple stems and a mass of attractive 3" blossoms in shades of cherry with a darker red center. Fleuroselect Winner.		
Rudbeckia hirta 'Denver Daisy'	h 22-26"	○
This is a fabulous plant. Bold large 6" blooms of brown and gold adorn a well branched plant. The petals on some blossoms are slightly upturned like a smiling customer. Blooms profusely and is very well-branched. Seems quite disease resistant and is very early to bloom. Couldn't be better.		
Rudbeckia hirta 'Tiger Eye'	h 16-24"	○
A slightly more compact variety with extremely clean tight foliage and lovely golden double blossoms. This is one of our top two. Easy to grow. A cheery addition to the late summer garden.		
Salvia judica 'Jerusalem Purple'	h 12-18"	○
A Middle Eastern native, this cultivar is covered in long spikes of lavender-blue blooms on violet stems. Long lasting in the garden or the vase. A hummingbird, bee and butterfly attractor.		
Salvia patens 'Blue Angel'	h 18-30"	A
Graceful 2" ultramarine flowers with open mouths on upright stems over fuzzy triangular foliage. Looks like so many tiny bluebirds. Blooms early July to frost. From Mexico.		

Salvia patens 'Patio Rose'	h 12-14"	○●
Similar to one of our favorites, 'Blue Angel', this selection has soft pink blooms with rose accents and an appealing lower lip. No collagen needed here. Well-branched and easy to grow. Blooms throughout the summer into fall.		
Scabiosa atropurpurea 'Fire King' (Sweet Scabious)	h 30"	○●
Bright red medium sized pincushions with white stamens and long strong stems. Very appealing texture in a bouquet. Sweetly fragrant, attracts butterflies.		
Snapdragon 'Chantilly Deep Orange'	h 36-48"	○
Durable open-faced rich orange snaps with long vase life. Staking appreciated. Victoria, of our staff, would grow an entire field of these lovely snaps.		
Snapdragon 'Chantilly Light Salmon' RENEW!	h 36"-40"	○
One of our favorite tall snaps with large butterfly-type salmon blossoms that remain open. So showy in the garden or in a bouquet. This is a "stop in your tracks" variety. Requires staking but worth the work.		
Snapdragon Chantilly Yellow	h 30-36"	○
Showy butterfly type with deep yellow blossoms. A lovely tall snap that's great for cutting with a long vase life. Appreciates staking.		
Snapdragon 'Maryland Purple Twist' NEW!	h 39-60"	○
What an intriguing cut flower type snap! White with purple striations that change depending on the temperature. Check out the photo on our website at www.rushcreekgrowers.com and be sure to order a free photo bench card for this variety.		
Solanum integrifolium 'Pumpkin on a Stick' NEW!	h 24"-60"	○
A delightful heirloom novelty plant that forms adorable small "pumpkins" on black stems in the late summer garden. Part of the eggplant family, it is ornamental grown mainly for floral arrangements or just for fun. Requires staking, but worth the extra effort.		
Statice 'QIS Seeker Mix' NEW!	h 30"	○
Clouds of tiny non-shattering flowers in 10 different colors. QIS stands for "Quality In Seed" and has greater uniformity, color, flower size and stem quality. Excellent cut flower and a classic everlasting.		
Talinum paniculatum 'Kingswood Gold' (Jewels of Opar)	h 24-30"	○
Fascinating long stemmed airy panicles of tiny carmine blooms above rounded glossy bright gold foliage. Round seed heads are a bright orangish fuchsia, further extending the season of interest. Interesting cut flower filler. Beautiful border to a sunny garden path. Native from Mexico to Central America.		
Talinum paniculatum 'Verde'	h 28-32"	○
Pictures don't do justice to this lovely new cultivar. Appealing glossy green leaves shine below wiry stems and tiny hot pink colored blooms that form tiny orange berries, then dark red seeds. Similar in form to 'Kingswood Gold'.		

Border Gems

-
- | | | |
|--|-----------------|-----------------------|
| Tithonia rotundifolia 'Torch' (Mexican Sunflower) | h 60-72" | <input type="radio"/> |
|--|-----------------|-----------------------|
- Lots of sassy orange fun in a jumbo-sized package! Vivid scarlet-orange daisy-like blooms on a tall bushy plant with velvety pointed foliage. These fast growing wonders make a shrub-like hedge that makes a great backdrop for summer plantings. A must for garden center display beds. Blooms July – frost. From Mexico and Central America.
-
- | | | |
|---|-----------------|-----------------------|
| Tithonia rotundifolia 'Yellow Torch' (Mexican Sunflower) | h 48-60" | <input type="radio"/> |
|---|-----------------|-----------------------|
- Color breakthrough! Bright yellow, single petaled blossoms cover this large, almost shrubby, plant. SO easy to grow. Well-drained soil and full sun a must.
-
- | | | |
|----------------------------|-----------------|-----------------------|
| Verbena bonariensis | h 36-48" | <input type="radio"/> |
|----------------------------|-----------------|-----------------------|
- Stately, rosy violet clusters on well-branched thin square stems. Unique appearance, good cut flower. "See through" habit allows it to mix in anywhere in the border, although it's stunning in a mass planting. The classic Border Gem! Reseeds readily.
-
- | | | |
|----------------------------|--------------|-----------------------|
| Zinnia 'Pinca' NEW! | h 36" | <input type="radio"/> |
|----------------------------|--------------|-----------------------|
- We have a serious addiction to zinnias and couldn't resist this bright pink 5" cactus flower suspended on 36" stems. A prolific bloomer. Free flowering and heat tolerant. Think of it as the pink version of zinnia 'Inca.'
-
- | | | |
|--------------------------------|-----------------|-----------------------|
| Zinnia 'Queen Red Lime' | h 30-36" | <input type="radio"/> |
|--------------------------------|-----------------|-----------------------|
- Fabulous new double zinnia in a soft shade of rosy red with striking lime green center. Shorter than Benary's but still a perfect size for cutting. The unusual color is the focus here.
-
- | | | |
|---|-----------------|-----------------------|
| Zinnia elegans 'Benary's Giant Lime' | h 36-48" | <input type="radio"/> |
|---|-----------------|-----------------------|
- Large unusual double chartreuse blossoms atop sturdy thick stems.
-
- | | | |
|--|-----------------|-----------------------|
| Zinnia elegans 'Benary's Giant Mix' | h 36-48" | <input type="radio"/> |
|--|-----------------|-----------------------|
- Giant formal fully-double blooms held upright on sturdy stems in shades from pinks and reds, through salmons and oranges to purples, lime, gold, and white. A truly beautiful cutting variety.
-
- | | | |
|---|-----------------|-----------------------|
| Zinnia elegans 'Benary's Giant Wine' | h 36-48" | <input type="radio"/> |
|---|-----------------|-----------------------|
- Large unusual double wine red blossoms atop sturdy thick stems.
-
- | | | |
|------------------------------|--------------|-----------------------|
| Zinnia elegans 'Inca' | h 36" | <input type="radio"/> |
|------------------------------|--------------|-----------------------|
- Spicy orange star-shaped 5" ruffled flowers add splash to any garden or container. Great for cutting and butterflies.
-
- | | | |
|---|--|-----------------------|
| Zinnia elegans 'Magellan series' | | <input type="radio"/> |
|---|--|-----------------------|
- This well bred zinnia series features medium height plants that are so well-branched they spread to 10-12" with large uniform double flowers. Very disease resistant. A great series for the new gardener.
-
- | | | |
|---|-----------------|-----------------------|
| Zinnia elegans 'Magellan colors' | h 12-14" | <input type="radio"/> |
|---|-----------------|-----------------------|
- Orange/Coral/Yellow/Ivory
-

Zinnia elegans 'Magellan Ivory' NEW!	h 12"	<input type="radio"/>
Gleaming 5" ivory blooms above a neat and well-branched 12" plant. Deadhead to keep even more buds coming. A long blooming robust dwarf beauty that spreads to create quite a show. Easy to grow.		
Zinnia elegans 'Profusion Double Cherry'	h 12"	<input type="radio"/>
Dense bushy plants are covered with intense cherry double blossoms. 2010 All American Selections Winner for excellent performance.		
Zinnia elegans Zahara series		<input type="radio"/>
Heat tolerant series with very low water needs and superior disease resistance. 20% larger flowers than Profusions. Carefree season-long blooms. Landscapes or containers.		
Zinnia marylandica 'Double Zahara Duo Mix' NEW!	h 16-20"	<input type="radio"/>
A Fleuroselect mix of fully double deep magenta and scarlet-orange. A sophisticated new color mix of this proven series.		
Zinnia marylandica 'Zahara Double Fire'	h 12-18"	<input type="radio"/>
Vivid orange-red doubles on a lovely compact plant. Constant blooming throughout the season. Easy to grow. All America Selections Winner for excellent performance.		
Zinnia marylandica 'Zahara Scarlet'	h 12-18"	<input type="radio"/>
The deepest red available in this type.		
Zinnia marylandica 'Zahara Starlight Rose'	h 12-18"	<input type="radio"/>
2010 All American Selections winner. Creamy white flamed in the center with a rich rose. A unique color pattern for a charming look.		
Zinnia marylandica 'Zahara Yellow'	h 12-18"	<input type="radio"/>
Bright cheery yellow singles. Cool yellow, not the usual gold.

Early Spring Pansies

Early Spring Pansies & Violas—1204 packs

Too bad that gardeners aren't competitive – MUCH! These large and luscious pots of tomatoes will spur on the desire to pick the first ripe tomato on the block. Heirloom and bush varieties are available.

Pansy 'Delta series' ○● Premium spring blooming series with 2½-3" flowers. Good weather tolerance on tightly branched plants.

Pansy 'Delta Lavender Blue Shades' ○●
A favorite pastel mix of softest lavenders.

Pansy 'Delta Pure Mix' NEW! ○●
All the clear colors (no blotches) make a bold statement.

Pansy 'Delta Neon Violet' NEW! ○●
Faded lavender edge contrasts with deepest violet blotch.

Pansy 'Delta Pure Primrose' NEW! ○●
Softest pale lemon yellow like the early spring sun after a long Minnesota winter. Tiny gold eye, no blotch.

Pansy 'Delta Pure Violet' ○●
A rich regal purple.

Pansy 'Delta Strawberry Shortcake' ○●
Yummy mix of Pure Rose, White with Rose Wing and Pure Primrose.

Pansy 'Delta True Blue' ○●
Clear true blue, veined in deeper blue with a small yellow center.

Pansy 'Dynamite Blueberry Thrill' ○●
Eye-catching combination of blue, yellow and white with blotch.

Pansy 'Dynamite Blue Jeans' NEW! ○●
Mid-blue around a deep blue blotch with gold eye. Large blooms on well branched plants.

Pansy 'Fizzy Lemonberry' ○●
Charming new mix of frilly, frilly yellow with purple picotee edges.

Pansy 'Frizzle Sizzle Burgundy' ○●
100% ruffled variety with 3" burgundy blooms and a blackish blotch. Extremely showy and unusual.

Pansy 'Frizzle Sizzle Raspberry' NEW!

White halo around dark blotch highlights rosy cap and ruffled edges. Tasty!

Pansy 'Karma Blue Butterfly' NEW!

Wonderful contrast between bronze lower petals with gold eye and dark whiskers and the rich purple cap. Bushy, early to flower plants.

Pansy 'Mariposa Peach Shades'

Various peachy, apricot and gold shades with a small burgundy face. Antiqued appearance.

Pansy 'Matrix series'

A super series that holds well on the bench. Slightly taller and very well-branched plant with large flower size.

Pansy 'Matrix Jewels Mix' NEW!

Clear colors (no blotches) and bright hues include Lemon, Light Blue, True Blue, Orange, Purple, Rose and Yellow.

Pansy 'Matrix Morpheus'

Sweet pastel blue with yellow centers. Very early bloomer.

Pansy 'Matrix Raspberry Sundae' NEW!

Rose Wing, Rose and White Blotch.

Pansy 'Matrix Red And White Mix' NEW!

White and clear Scarlet (a rich ruby red).

Pansy 'Matrix Rose' NEW!

Velvety soft burgundy tones with darker whiskers.

Pansy 'Matrix Sangria' NEW!

Wine shades from rosé to ruby port highlighted by a gold halo around the center blotch.

Pansy 'Matrix Sapphire Mix' NEW!

Light Blue, Deep Blue Blotch and Blue Frost combine for a jewel-like sparkle.

Pansy 'Matrix Sunfire Mix' NEW!

Sunrise, Yellow Blotch and Rose Blotch. Overall effect is warming and textured.

Pansy 'Matrix Sunrise' NEW!

Shades of peach, yellow and rose around deep burgundy center.

Pansy 'Matrix Topaz and Garnet Mix'

Orange, Red Blotch and Yellow. Warm jeweled colors for an unusual combination.

Pansy 'Midnight Glow' NEW!

Rich deep purple petals contrast with mid-blue halo around gold face with whiskers.

Pansy 'Skyline Copperfield'

A rich mix of glowing bronze, apricot, soft yellow and orange flowers. A customer favorite.

Early Spring Pansies

Viola 'Penny Red Blotch'

Scarlet petals with a deeper scarlet blotch.

Viola 'Rebelina Blue & Yellow' NEW!

Branched, spreading habit works well in baskets and containers as well as bedding. Early blooming. Soft lavender blue with warm golden face.

Viola 'Rebelina Red & Yellow' NEW!

Branched, spreading habit works well in baskets and containers as well as bedding. Extra early blooming. Clear lemon yellow contrasts with deep burgundy red.

Viola 'Sorbet Series'

Compact, heavily flowering plants cover the soil at bloom time, maintain good looks through heat and cold.

Viola 'Sorbet Antique Shades' NEW!

The narrowest pale edge gives deep velvety purple petals a backlit appearance. Bronze gold face with dark whiskers highlights texture. A subtle stunner.

Viola 'Sorbet XP Blackberry Sundae Mix'

Mix of Coconut Duet, White and Purple and Purple Face. High contrast mix.

Viola 'Sorbet Blueberry Frost Mix' NEW!

Violet, white and Marina.

Viola 'Sorbet Citrus Mix' NEW!

Orange, yellow and white.

Viola 'Sorbet Coconut Duet' NEW!

Violet petals contrast with clean white falls. Delicate gold face with dark whiskers.

Viola 'Sorbet Delft Blue' NEW!

White face on patterned purple-blue petals. Can you see the guy with wooden shoes in front of the windmill?

Viola 'Sorbet Midnight Glow' NEW!

Rich deep purple petals back falls patterned with yellow and blue-violet.

Viola 'Sorbet Orange' NEW!

Lovely clear orange.

Viola 'Sorbet Purple Face' NEW!

Deep purple with white face and yellow eye.

Viola 'Sorbet Raspberry' NEW!

Paler shades subtly batiked over warm rose petals with dark face.

Viola 'Sorbet Yellow Duet' NEW!

Lemon yellow falls sparkle in front of berry-purple petals.

Cool Season Gallons

Large Annuals—6"x6" Fiber Mache Pots

This is turning into a very nice program for impulse sales. These are full grown insty garden early spring color pots. We'll be producing our usual line of tropical gallons but will be selling them only as available – no preorders. So check our weekly availability on our website or by email.

Group 1 - Spring Bloomers

Cool Season Annuals in Larger Pots for Instant Spring Color.
Shipping April and early May

Alstroemeria 'Inticancha®' NEW!

A new series of compact heat tolerant Alstroemeria for containers. We'll have several colors to choose from!

Anemone 'De Caen Mix' NEW!

Who isn't a sucker for these single petaled windflowers.

Arctotis 'Ravers® Arc of Fire™'

h 10-14"

Bright fiery red blooms with a dark eye over cool grey-green foliage. A heavy spring bloomer.

Arctotis 'Ravers® Sunspot™'

h 10-14"

Soft apricot daisy-like blooms over silver fussy foliage. Loves cool temps.

Freesia 'Double Flowered' NEW!

The fragrance of Freesias is hard to beat. We'll do our best to keep them short.

Gerbera 'Maxi Dark Eye Mix' NEW!

These are large plants with large flowers. Wide variety of colors in the mix.

Gerbera 'Maxi Spider Mix' NEW!

Classy spider petals on large plants.

Iberis 'Absolutely Amethyst™' NEW!

Actually a perennial but a wow new color. We think it will make a great bowl.

Nemesia 'Bluebird'

Petite blooms with yellow centers. Good heat tolerance.

Nemesia 'Opal Innocence®'

h 8-10"

Extremely fragrant blooms that change from iridescent pink to light purple. Truly lovely. One of those plants that seems translucent.

Cool Season Gallons

Osteospermum '3D™ Purple' NEW!

A multitude of center florets hold these blooms open day and night. A new look for Osteos.

Osteospermum 'Cape Daisy™ Fireburst' NEW!

Delightfully red-orange single blooms on this newly bred variety.

Osteospermum 'Tradewinds® Cinnamon' NEW!

A new shade in this award winning series. Bronzy with a dark eye and lighter center. Ht. 16"

Pericallis (Senecio) 'Senetti® series' Cineraria

h 12-18"

This series is the first re-blooming Cineraria. Spectacular rich colors are irresistible after the gloomy winter months. It's all about the masses of blossoms and those fabulous colors. Blooms in early spring until mid summer and again in late fall. Works well as a houseplant. Formerly, more of a florist plant but now being promoted for use in containers and short term landscape plantings. Not frost tolerant.

Pericallis (Senecio) 'Senetti® Blue' Cineraria

h 12-18"

Vividly deep blue daisies cover this well-shaped plant.

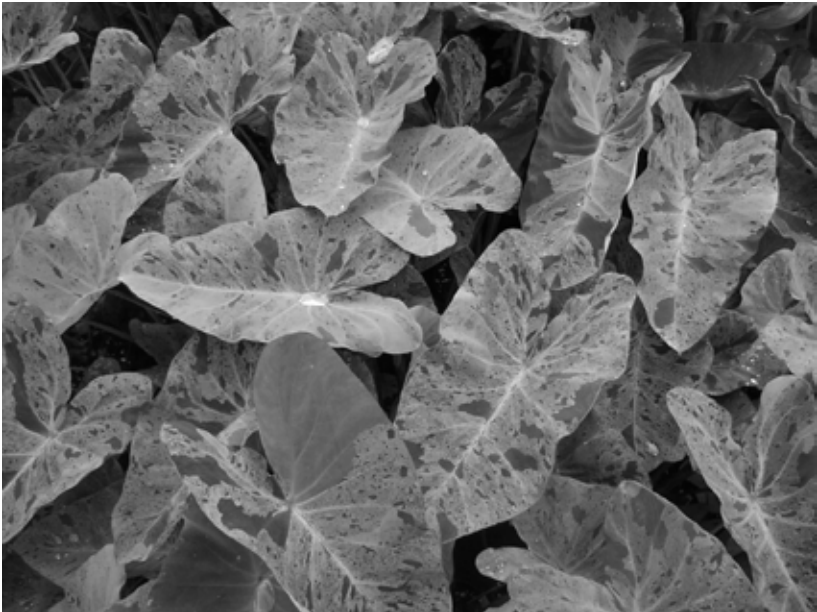

Pericallis (Senecio) 'Senetti® Light Blue Bicolor' Cineraria NEW!

Light blue tips on petals.

Pericallis (Senecio) 'Senetti® Magenta' Cineraria

h 12-18"

Clear magenta petals with a reddish center.

Colocasia 'Mojito'

Pericallis (Senecio) 'Senetti® Magenta Bi-color' Cineraria h 12-18" ○
Vibrant magenta petals with a deep center and a vivid white ring. Extremely showy.

Pericallis (Senecio) 'Senetti® Violet Bicolor' Cineraria NEW! ○
Something about the bicoloring makes these really electric. This is VIOLET.

Primula obconica 'Libre™ series' NEW! ○
Nothing says spring like primulas. This series is free of the skin irritating compounds that are often found in primulas. We'll have a few different colors.

Ranunculus 'Magic™ Mix' NEW! ○
New dwarf mix of Red, Orange, Yellow, Rose and White.

Group 2 - Summer Beauties

Tropicals, Succulents, Foliage and other warm season annuals in trade gallons. Shipping May and June. There may be other varieties added; watch our availability.

Agave species 'Mixed' ○
Our choice of the best looking specimens from varieties above.

Aloe 'Grassy Lassie' h 12-20" ○●
Deep green narrow grass-like leaves with bright orange blossoms on long arching stems. Foliage turns a deep bronze color in full sun.

Aloe gastrolea 'Midnight' h 8-16" ○●●
An interspecific cross yielding ebony colored leaves in sun and jade green in shade.

Aloe species 'Mixed' ●●
Mix of the varieties above and more.

Begonia rhizomatous h 18-24" ●●
Mix of fantastic foliage begonias such as Marmaduke, Wineuma, Black Velvet and more.

Brugmansia 'Peach' Angel Trumpet h 8' ○●
Has become the reliable bloomer of the Brugmansia family for us. Large 8" peach blossoms cover this variety. Very fragrant.

Brugmansia 'Mixed' Angel Trumpet ○●
We are propagating singles, doubles and variegated ones in a variety of flower colors.

Canna 'Australia' h 60" ○
Deep burgundy black cannas with satin-like sheen unlike any other, topped with a magnificent display of large, shocking red flowers. From New Zealand.

Carica papaya Papaya ○●
Tropical plant with large deeply lobed leaves. Potted plants will bear fruit.

Citrus 'Key Lime' ○
Nice small aromatic limes.

Cool Season Gallons

Citrus 'Meyer Lemon Improved' ○

Renowned for their flavor. This is a good choice for container cultivation.

Colocasia 'Elena' Chartreuse Elephant Ear

h 36-60"

Chartreuse long heart-shaped leaves with lighter veins coming together at the point of the stem with a purple dot. Vigorous grower in moist conditions. A lovely bog or pond plant in filtered light.

Colocasia 'Mojito' ○●

Dappled green and dark burgundy with great irregularity. A nice vigorous variety.

Cordyline 'Red Star' ○

This the ruby-red to burgundy one.

Echeveria ○

Its impossible to pick a favorite. These are all COOL.

Eucalyptus 'Boxwood' ○

These make nice but tender trees. Keep your Koalas happy.

Euphorbia tirucalli rosea 'Fire Sticks' ○

h 24"

Very similar to the 'Pencil Tree', but with red tips resembling sticks on fire and only 2 foot growth.

Ficus carica 'Brown Turkey' Fig ○

h 36-48"

Tender perennial fig that will bear fruit in the fall. Large leaves resemble oak leaves. An attractive specimen. Will fruit in containers.

Kalanchoe 'Gremlin™' ○

Plants form rosettes. Leaves are edged in burgundy. It's the offshooting plantlets that are irresistible.

Kalanchoe thrysiflora 'Flapjacks' ○●

h 12"

Striking form and color. These succulent leaves are topped out with a reddish glow.

Monstera deliosa Swiss Cheese Plant ●○

Great carefree houseplants. Of course, in Florida they grow as vines up several stories.

Pennisetum purpureum 'Princess Molly' ○

Very compact form with erect deep burgundy blades. Use instead of slower growing Phormiums or Cordyline in medium to large containers. No seed heads.

Phormium 'Black Adder™' New Zealand Flax ○

h 18"

Deep burgundy with some red glints as the sun shides through it. Vigorous.

Phormium 'Pink Stripe' New Zealand Flax ○

h 24-36"

Magenta stripes on a darker backround. Electric.

Phormium 'Wings of Gold' New Zealand Flax ○

h 24"

Auburn majesty shines like gold in the blazing yellow sun of summer. As Paris Hilton would say, "That's Hot!"

Baskets

Baskets— Single Species & Designer Combinations 10", 12" and 16" Fiber Maché Baskets

Don't miss the early spring 10" square for the winter weary. Continual refinement of designs make our 12" combos a success. For 2012, we have decided not to side plant the 16" baskets. There have been too many irrigation issues due to the water simply draining out of the side planting holes. A trial last spring reassures us that the end result is just as full but performs better for all of us.

10" Square Fiber

Attractive square baskets with early spring varieties and trailing strawberries.

Pansy 'Cool Wave Mix' NEW!

Considered the best spreading and trailing pansy on the market. So much more though, they have placed the hallowed word "Wave" in its name. This new version boasts slightly larger flowers with more vigor. The mix contains White, Violet Wing, Yellow and Frost.

Strawberry 'Tarpan' NEW!

An edible basket for the patio featuring plentiful, medium-sized fruit that are delicious and oh so fun. Will produce from midsummer to frost.

Osteospermum '3-D Purple™' NEW!

A breakthrough in Osteo breeding with rich purple blooms that stay open all day and night due to the double center. A semi-upright form makes this an easy choice for early spring containers and baskets. Winner of the 2011 Medal of Excellence Editor's Choice and Industry's Choice Awards.

Succulent Mix

A unique hanging garden with a variety of sizes, colors and shapes. As an option, remove the handle for a unique, specimen focal point.

12" Fiber Mache Baskets

Single species baskets overflowing with color and foliage. Fed compost tea for durability under stress, good water usage and excellent root systems.

Begonia 'Illumination® Apricot'

Large double blossoms trailing from glossy green foliage. A delightful choice for shade baskets and containers. Vigorous and a heavy bloomer. The color range is broad from yellow to orange on individual flowers, making it our favorite color of the series.

Baskets

Begonia 'Million Kisses series'

This fantastic series is characterized by a generous display of pedulous blossoms. The boliviensis type begonia will handle some sun. Said to be the most vigorous trailing begonias on the market today. Practically maintenance free. Winner of the coveted Award of Garden Merit in the UK.

Begonia 'Million Kisses Romance' NEW!

Pendulous salmon flowers flare slightly to increase the color appeal of this versatile, easy to grow beauty.

Begonia 'Million Kisses Amour' NEW!

Bright orange pendulous flower on pink stems. Long, pointed glossy leaves are edged with pale pink.

Calibrachoa 'Aloha Oranges and Lemons Mix' NEW!

Our own mix of vibrant yellow and clear, sassy orange callies. Hot summer colors!

Calibrachoa 'Confetti Garden™ Hawaiian Flamingo'

A riot of color featuring Aloha Purple, Aloha Neon and Aloha Tiki Soft Pink.

Calibrachoa 'Confetti Garden™ Hawaiian Luau'

Put on your grass skirt 'cuz this combo will make you want to dance. Features Aloha Purple, Aloha Red and Aloha Orange. Allow your inner Don Ho to blossom.

Fuchsia 'Emma Louise' NEW!

Semi-double beauty with pink sepals over a violet rose corolla. Large bloom size and a robust habit.

Fuchsia 'Jack Shahan' NEW!

Large single petals rosy pink flowers with lovely green-tipped sepals and deeper pink petals.

Fuchsia 'Rohee's New Millenium' NEW!

Stunning purple-black corollas with deep red sepals. A royal combination to be sure! Pleasing bushy habit. Check out the photo on rushcreekgrowers.com

Fuchsia 'Southgate'

Pale pink double blooms spill over basket. The buds have a pale green cast before opening. Blooms are abundant throughout the season. Traditional and elegant. Our favorite in 2011.

Geranium 'Precision series'

A new series in the Ball Simply Beautiful ivy geranium program. Specially selected for early flowering and excellent uniformity as well as improved Oedema-resistance. Features well-branched plants with a nicely mounded habit.

Geranium 'Precision Blue' NEW!

Saturated deep rose doubles with strong lavender undertones. Only "blue" in the geranium world.

Geranium 'Precision Ruby' NEW!

Ruby red doubles.

Geranium 'Precision Light Pink' NEW!

Serene pink doubles with a Victorian flare.

**Impatiens 'Fiesta Shades of Pink' NEW!**

A mix of Fiesta Appleblossom and Fiesta Stardust Pink double impatiens.

**Impatiens, double 'Rockapulco® Dark Orange'**

Bright orange doubles for the shade. Well mounded, semi-trailing plants are covered in blossoms.

**Impatiens, trailing 'Fanfare™ Fuchsia'**

Beautiful rich fuchsia colored singles on an amazingly tough and vigorous plant. Survives heat, humidity and uneven watering for an easy to grow basket variety.

**Impatiens, trailing 'Fanfare™ Orchid'**

One of the prettiest flower colors. A favorite of Vicky W., truly orchid singles seem to shine from a distance. So very easy to grow. Even recovers from some watering neglect.

**Lobelia 'Techno Blue'**

Vivid true blue blooms. Heat tolerant with a nicely trailing habit. Always popular and better performing than seed varieties.

**Lophospermum 'Bucky Badger Mix' NEW!**

A shout out to Suzanne and Vicky's alma mater. Fantastic white and wine red tubular blossoms cascading on lovely long trailing vines. Go Badgers!

**Lophospermum 'Great Cascade Wine Red'**

Large, wine red and tubular thumb-sized blossoms. Soft green foliage is reminiscent of Asarina Red Dragon. 'Great Cascade' aptly describes its effect, as it can trail to four feet or longer.

**Petunia 'Cascadias Bicolor Cabernet'**

Small single blooms of burgundy with white stripes. Semi-trailing. A striking bi-color.

**Petunia 'Littletonia Blue Vein' NEW!**

A smaller sized petunia that packs a punch of color. Light purple flowers heavily veined with rich royal purple and accented with a large purple center. Very floriferous with color top to tip.

**Petunia 'Littletonia Red Energy' NEW!**

Intensely red blossoms cover this beauty.

**Petunia 'Supertunia Indigo Charm'**

Bright blue purple with a softly trailing habit. Blossoms and foliage perform well all summer. Self cleaning. A favorite at trials.

**Petunia 'Supertunia Sangria Charm'**

Deep rosy pink medium sized blossoms with a trailing habit. Self cleaning. Chosen for high performance and ease of care.

Baskets

Tomato 'Cherry Cascade' NEW!

Vigorous and easy to grow. Massive numbers of juicy currant sized tomatoes will cascade from the baskets.

Tomato 'Tumbling Tiger' NEW!

Heavy producers of red striped plum-sized fruits. Dense basket hugging growth cascades 18-24". Heirloom and disease resistant. Good texture and very tasty. We trialed these and couldn't believe the heavy fruit set.

Torenia 'Summer Wave® Large Violet' NEW!

A classic for shade with large violet deep throated blossoms all along stems covered in shiny rich green leaves. Self-cleaning and easy to grow.

Torenia 'Grape-O-licious' NEW!

We couldn't resist this novel new bicolor variety with a grape colored throat and outer base and clear white petal tips. White shines in shade and purple adds some depth. Self-cleaning and easy to grow.

12" Combination Baskets

Striking combination baskets in 12" fiber with emphasis on color, interesting textural plants and performance. Each basket is custom tagged with all the varieties included and the sun or shade symbol.

16" Premium Combination Baskets

We are going out on a basket hook this year and have decided to stop the side planting of all 16" combos. For us, this means more ease in shipping and providing you with a superior product. Still the same inspired mix of plant materials in fiber mache baskets of colorful annuals, foliage and grasses. Save some space for these spectacular beauties. Sun and shade available. Each basket is custom tagged with all the varieties included and the sun or shade symbol.

Fall Program

Fall Program—Mums & Frost Tolerant Annuals

We have a fantastic fall program with a large selection of cool weather plants. Our specialty is perennial mums – Minnesota Hardy and Mammoth. Our selection will be available online later this spring or in your mailbox. Large lovely cabbage and kales, several varieties of Rudbeckias and pansies complete the list.

Edibles

Edibles—Jumbo 6 packs & 3 ½” pots

From productive hybrids to funky heirlooms, ethnic specialties to old favorites, we are growing the vegetables your community wants to eat. Our edible selections bring the nationwide vegetable growing trend home to your neighborhood. Expanding on our choices from last season, we are focused on varieties that will perform and produce for your customers—and look beautiful while they’re doing it!

As the new generation of gardeners gets a few years in the soil, they’re ready to move into larger scale growing and food preservation—and we’ve added productive hybrids that will thrill your most serious local gardeners. Whether you grew up cooking Asian and Latin foods or are just trying to cook globally while growing locally, we’ve got the ethnic greens, herbs and vegetables you’ve wanted to try. Every member of our staff is a food grower, and we are passionate about testing new and old varieties in our own soils.

We compare, we brag, we argue—and we cut through the hype. If it doesn’t work in our region, we don’t want to sell it. Our large edible selection may seem a bit daunting but you know we’re here with the information you need. Be sure to also check out our handy educational bench cards for your displays. Every family that grows their own food helps the planet and our sustainable growing program and biodegradable pots are part of that. Global change happens locally, one vegetable garden at a time

On these pages is a **quick table-listing by region/cuisine**. You’ll find full descriptions in the following pages, listed alphabetically by botanic name.

Pepper — 'Kim Chi Hybrid'
Pepper — 'Thai Hot'
Perilla frutescens crispa — 'Aka Shiso'
Winter Melon (Wax Gourd)

3½" pots

Artichoke 'Imperial Star'

h 30"

Lovely spiny silver leaves. Striking architectural effect with small delicious artichokes in late summer. Best results with high fertility. Standard.

Bitter Melon 'Spindle'

Gourd family relative grows long vines in hot weather. Elongated wrinkled pale green fruit is eaten when about the size of a cucumber. Used in Hmong and Thai cooking. SE Asian.

Cantaloupe 'Fastbreak' NEW!

Has a reputation as one of the earliest cantaloupes you can grow. Ready in about 70 days. The 5-6 inch netted melons typically weigh 3-5 pounds. Classic sweet flavor and pale orange flesh. Hybrid.

Cantaloupe 'Minnesota Midget'

Extra early softball-sized fruits on compact vines. Can even be grown in a container. Bred by the U. of Mn. in 1948. Heirloom, Patio.

Cantaloupe 'Oka'

The sweetest melons our Eli has ever grown in her chilly Wisconsin garden. Canadian heirloom from 1912 has ridges like a muskmelon, but skin remains green when ripe. Fragrant deep orange flesh is a real treat. One has to wonder if it originally came from Russia like many of the best heirloom early melons as the Oka River is a tributary of the Volga. Heirloom.

Cucumber bush 'Spacemaster 80'

Compact plants for small spaces produce good yields of full-size slicing cukes. Use this one in your container area. Patio.

Cucumber gherkin 'Harmonie' NEW!

Early Euro-style picklers on high yielding vines have smooth, dark green skins. Use as gherkins when 3-5" or slicers if they get larger. Standard.

Cucumber Japanese 'Tasty Jade'

Start these on a trellis then stand back! Dozens of slender 14" fruits with tender skin are burpless and don't need peeling. One of our most popular varieties. SE Asian.

Cucumber Middle Eastern 'Green Finger' NEW!

Beit alpha type has thin, smooth skin, exceptional flavor and a small seed cavity. Similar to European slicers but shorter, averaging 8-10". Stores well without needing to be wrapped. Excellent disease resistance and high yields, Standard.

Cucumber pickling 'Cross Country'

Talk about prolific! These vines pumped out picklers for months in the hot wet summer of 2010. Well adapted early hybrid has uniform, crunchy fruit. Keep picked for continued production. Standard.

Baskets

Cucumber slicing 'Marketmore 76'

A classic slicing cuke to which all others still aspire. Productive, disease resistant and tasty. Release by Cornell Univeristy 35 years ago and still the best. Standard. ○

Eggplant 'Classic'

When you imagine an eggplant, it looks like "Classic." Plump Italian style fruits are glossy blackish purple, prolific and early. Standard. ○

Eggplant 'Lao Purple Stripe'

2" round fruits are popular in Hmong cooking. Striped lavender and dark purple fruits. Fun variety for containers or the garden. SE Asian. ○

Eggplant 'Ophelia'

Compact early eggplant for patio containers or an urban veggie garden. "Single serving" 2 oz. fruits are borne in clusters. Classic egg shape and rich purple color that should be harvested at small size for most tender fruit. Patio. ○

Eggplant 'Ping Tung Long'

Early to mid-season Asian type with 12" x 1½" pale purple fruits that darken at maturity. Appealing sweetness and uniform slices make this a cook's favorite. Stress tolerant. 65 days. SE Asian. ○

Eggplant 'Rosa Bianca'

Italian heirloom is known for delicate non-bitter flavor and lovely fruits striped in shades of cream and lavender. This is a long season variety that needs to be coddled a bit in our climate but worth it for its beauty and delicious flavor. Standard. ○

Eggplant 'Swallow'

The best producer for our northern climate. Elongated oriental type produces earlier than any other eggplant you can grow here. Tender flavor without bitterness. 51 days. Hybrid. ○

Eggplant 'Thai Long Green'

Southeast Asian variety with beautiful slender green-skinned 12" x 2" fruits. Tender white flesh has a mild taste that absorbs spicy flavors well. Prolific and drought resistant. 70-80 days. SE Asian. ○

Ground Cherry 'Aunt Molly's'

Ground cherries are native to eastern and central North America and look like compact tomatillos, husk and all. This Polish variety is sweet and prolific. Citrus-flavored ½" to ¾" fruit can be used in preserves, pies, sauces, or fresh in salads. Add some lemon for an even more delicious result. Spreads freely in your garden. Heirloom. ○

Luffa

Immature fruits are popular in Southeast Asian cooking. Use as you would zucchini. Vines can grow up to 15 ft but need plenty of warmth. Sorry, your luffa will not mature to the sponge stage this far north. SE Asian. ○

Pepper 'Cajun Belle' ○

All America selection. Early, petite 2" x 3" red fruits on compact bushy plants, perfect for patio or container gardens. Flavor is sweet with a bit of heat, and lots of Vitamin C. Patio.

Pepper 'Cayenne' ○

Prolific, slender wrinkled 5-6" peppers begin dark green, then change to bright red. Use fresh or dry them to spice up your winter. Latin American.

Pepper 'Cherry Bomb' ○

Bright red round 1½" fruits are perfect to throw at your brother, but better to add some heat to your supper. Prolific and fun. Good candidate for container gardens. Standard.

Pepper 'Czech Black' ○

Striking 2½" fruit begins purple-black and ripens to a lustrous garnet. So beautiful that it could be grown simply for its looks but then you would miss the "perfect pickled pepper." Slightly less heat than a jalapeno. Foliage has purple tint on tall plants with pretty blossoms that are purple, too. Heirloom.

Pepper 'Early Jalapeno' ○

Sausage-shaped 3" blunt fruits mature early from dark green to shiny red. Mild heat is just right for fresh salsa. Originally from Mexico. Latin American.

Pepper 'Fatalii' ○

Capsicum chinense. Hotter, earlier, and larger than Habanero with similar wrinkled fruit. Color is golden orange. Smoky citrus flavor with very few seeds. Sturdy plants loaded with fruit. Excellent choice for pots. Originally from Central Africa. Heirloom.

Pepper 'Golden Summer' ○

Thick walled, four lobed fruits ripen from mid-green to rich golden yellow with classic bell pepper shape. Good disease resistance. Standard.

Pepper 'Gypsy' ○

Bell pepper shape with earlier and slightly smaller fruit. Ripens from pale yellow through orange to red for ornamental interest, too. Great for salads or frying. Standard.

Pepper 'Habanero' ○

Habanero is one of the most fiery peppers grown packing 30-80 times the heat of a Jalapeno. 2" wrinkled fruits ripen from dark green to salmon-orange. A key ingredient in West Indian jerk sauce. Latin American.

Pepper 'Hot Wax' ○

Mildly hot 5½" x 1½" fruits are easy to stuff and peel after roasting making them handy for chiles rellenos. Peppers begin pale yellow then ripen to orange then to red. Tasty at any color and beautiful for pickled peppers. Also called hot banana or Hungarian Wax. Prolific plants begin to bear early.

Baskets

Pepper 'Jimmy Nardello'

A sweet red 10" pepper brought from the Basilicata region of southern Italy in 1887. Good eaten raw, in stir fries, and particularly great for frying. Heirloom.

Pepper 'Kim Chi Hybrid'

Early production of slender 6" fruits that mature from dark green to red. Fairly hot for use fresh, in pickling, or for drying. SE Asian.

Pepper 'King of the North'

The very best red bell for northern gardeners where seasons are short and cooler. Wonderful sweetness, nice color, great production, decent size. The perfect royalty for Minnesota and Wisconsin. Standard.

Pepper 'Lady Bell'

A good producer of 3" x 5" sweet, juicy bells. Rich green matures to bright red. Standard.

Pepper 'Matchbox'

A great patio plant, this squat plant bears prolific upright 2" fruit through Oct. Multitudes of pale green fruit mature to deep scarlet with plenty of heat. Very ornamental in a pot and bring it in for fall. Patio.

Pepper 'New Ace'

These sweet, easy to grow bell peppers are thin-walled and turn red early. Standard.

Pepper 'Pasilla'

Pasilla is the dried form of the chilaca pepper. The 8" elongated green fruits dry to an almost black hue. Classic molé ingredient with a mild to medium heat and rich distinctive flavor. Latin American.

Pepper 'Poblano (Ancho)'

A Poblano when it is green becomes an Ancho when it ripens to brick-red and is fully dried. Since it won't dry on the plant in our climate, you'll have to help. At the Poblano stage, makes great chile rellenos and at the Ancho stage it can be soaked, chopped and used in molé or ground to make the familiar chile powder. Latin American.

Pepper 'Purple Bell'

Compact bell-shaped fruits begin green, then hold in purple stage for some time before turning a lovely purple-red. Tastes crisp and sweet like other green bells. Will turn green when cooked. Standard.

Pepper 'Redskin'

Super compact plants pump out plenty of full sized bell 4-5" peppers. Perfect for container gardening and it's early to boot! Patio.

Pepper 'Serrano'

Essential ingredient for Pico de Gallo or other fresh salsas. 2" fruits pack a wallop. Prolific compact plants. Standard.

Pepper 'Sweet Banana' ○

A favorite variety for pickling or frying. No heat at all. Ripens from pale yellow though orange to red. Standard.

Pepper 'Tabasco' ○

Capsicum frutescens. Make your own hot sauce or dry these elongated 2" fruits. Pale yellow ripening to red fruit points up rather than down on bushy compact plants. Late season for our region. Patio.

Pepper 'Thai Hot' ○

Hundreds of 1" fruits on small bushy plants. Nice in a container and even nicer in your stir fry. Can also be dried and used to make chili oil. SE Asian.

Pepper 'Valencia' ○

Matures with rich orange 4"x 4" blocky sweet fruit. Edible art. 72 days. Standard.

Pumpkin 'Jack-O-Lantern' NEW! ○

'Racer' is early, productive and has relatively short vines. Fruits average 15 lbs. and have nice sturdy handles. Be a hero to all the kids on your block and grow pumpkins in the front yard! Hybrid.

Pumpkin, Pie 'Baby Pam' ○

Early ripening deep orange fruits average 3-4 lb. 99 days. Standard.

Summer Squash 'Early Straightneck' ○

Buttery yellow club-shaped fruits are perfect at the 6" size. Works just like zucchini to grow, cook and eat. 50 days. Standard.

Sweet Potatoes 'Georgia Jet' ○

Give these a long season in a nice hot spot and you'll no longer have cause for Zone 8 envy. Standard.

Tomatillo 'Verde Puebla' ○

Green fruit mature to pale yellow sweetness as they fill out papery husks. Used to make salsa verde and in other Latin American recipes. Tall sprawling plants. Latin American.

Tomato 'Amish Paste' NEW! ○

Got a lot of canning to do? These babies will fill up the pot in a hurry. Elongated 8-12 oz. meaty fruits vary from oxheart to plum shapes that are rich red with paler shoulders. Amish heirloom from Pennsylvania. Heirloom.

Tomato 'Aunt Ruby's German Green' NEW! ○

Large 1 lb. green beefsteaks get a slight yellow tint when ripe. Slightly spicy flavor. Later season for our region. Heirloom from a Tennessee woman named Ruby Arnold. Heirloom.

Tomato 'Black Plum' ○**h 48-60"**

These have a place in our Eli's garden every year. Early indeterminate vines with large yields and small tasty Roma type fruits that are deep red with brownish shoulders. Great for fresh eating and drying. Heirloom.

Baskets

Tomato 'Bonnie Best' NEW!

Also known as John Baer. Beloved old timer introduced in 1914. Heavy producer was promoted as a canner but it's also great for fresh eating. Flavor has been described as "superb", "old-fashioned", "great," and "amazing". Indeterminate, 60-80 days. Heirloom.

Tomato 'Brandywine'

h 48-60"

Famous heirloom that some call THE BEST TASTING TOMATO. Large fruits of over 1 lb. Deep pink skin with red flesh. 90 days. Heirloom.

Tomato 'Celebrity' NEW!

Old school All American selection has the production, disease resistance, size, and flavor qualities you need when you mean business in the tomato patch. Determinate plants mean more fruit ripens at once. Hybrid.

Tomato 'Cherokee Purple'

The favorite large purple at Seed Savers Exchange. Sweet like a Brandywine, not as late for us northerners. Tall vining plant. 80 days. Heirloom.

Tomato 'Chocolate Cherry' NEW!

Tangy 1" fruits set in clusters of eight are a lovely rich wine-dark hue--somewhere between dark chocolate and ruby port. Their flavor has been called rich and complex in rave reviews around the web. What could be better than red wine and chocolate? Include an appetizer with these cuties and you're there. Heirloom.

Tomato 'Eva Purple Ball'

German heirloom. Round 4-5 oz. fruits with very good flavor. 75 days. Indeterminate vines do well in humid climates. Heirloom.

Tomato 'Gardener's Delight Cherry' NEW!

Produces luscious, tart-sweet, bite-size cherry toms in clusters of six to twelve. Fruits start early and continue through the season on vigorous indeterminate plants. 65 days. Heirloom.

Tomato 'Hillbilly'

Beautiful red-gold slicers weight up to 1 lb. apiece on indeterminate potato-leaf type vines. Ohio heirloom. 85 days Heirloom.

Tomato 'Isis Candy Cherry'

Complex blast of sweetness and fruitiness on red fruit marbled with gold, each bearing a gold splash on the blossom end. Grows in trusses of 6-8 fruit on vining plants. 70-80 days. Heirloom.

Tomato 'Italian Heirloom' NEW!

Seed Savers calls this "one of the most productive varieties we have." They grow hundreds of varieties, so listen up. Slightly oblong globes are deep red, have full tomato flavor and are ready at mid-season. Indeterminate. Heirloom.

Tomato 'Jaune Flamme' ○

Golden orange apricot-sized French heirloom. Produces many 2-3 oz fruits with an excellent flavor bite. Great for drying while retaining its color. 70-80 days. Indeterminate. French heirloom so that's "yellow flame" to you and me. Heirloom.

Tomato 'Mexico Midget' NEW! ○

Crazy production of ½" to ¾" dark red cherry toms with big flavor. Indeterminate vines start early and they don't stop 'til the season is over. Heirloom.

Tomato 'Moskvich' ○

Early, cold tolerant vines produce deep red 4-6 oz. fruits with a rich taste. Indeterminate, 60 days. Heirloom.

Tomato 'Mountain Fresh Plus' NEW!

Suzanne's favorite professional hybrid. Good disease resistance, good flavor, solid performance, big yields of great looking fruit. Hybrid.

Tomato 'Mr. Stripey' ○

Red and yellow stripes cover large 10-12 oz. fruits. Mild flavor with low acid. Indeterminate. 80 days. Heirloom.

Tomato 'Nebraska Wedding'**h 36"** ○

Reliably produces 3-4" round fruits with orange skin and flesh. Good yields of fruits in clusters with well-balanced flavor. Typical height is 36" but may require staking. 85-90 days. Determinate = vining habit. Heirloom.

Tomato 'Nygous' RENEW! ○

Love the flavor of those Russian black tomatoes, but not so into that blobby look and uneven ripening? The folks at Seed Savers love this "virtually blemish-free" black tomato bred from the Russian varieties by one of their members. Large globes set in clusters. Indeterminate. 80 days. Heirloom.

Tomato 'Orange Banana' ○

Sprightly sweet flavor, like a more complex Sungold, in a elongated Roma-shaped orange fruit. Winner of sauce taste-offs and good for drying, too. Originally from Moscow. Heirloom.

Tomato 'Patio' ○

Sturdy dwarf bushes are perfect for container gardening with good production of 3 oz. red fruits. Patio.

Tomato 'Paul Robeson' RENEW! ○

Brick red to maroon, 6-12 oz fruits often have two lobes. Sweet smoky taste beloved of seed savers and chefs. Winner of many taste contests. Indeterminate. Heirloom.

Tomato 'Red Grape'**h 48-60"** ○

1" oblong red fruits produced in grape-like clusters are spicy-sweet and indeterminate. Unlike many of those overly-chewy grapes on the market, ours is actually a tasty heirloom. Heirloom.

Baskets

Tomato 'Red Zebra'

Gold stripes overlay red background on round 3" fruits. Very productive vines covered with uniform and sweet fruit. 75 days Heirloom.

Tomato 'Risentraube'

A very productive Pennsylvania Dutch heirloom producing clusters of 20-40 red 1" fruits. The name translates as "giant bunch of grapes". Indeterminate. 80 days Heirloom.

Tomato 'San Marzano' NEW!

The classic sauce tomato demanded by chefs worldwide. Thousands of metric tons are still processed in southern Italy every year. OK, Minnesota and Wisconsin don't have that Mediterranean climate, but you will still be putting up some fine sauce with these babies. These oblong meaty fruits are set in heavy clusters on compact plants with few seeds. Easy to peel for processing, too. Hybrid.

Tomato 'Siberian'

Dwarf sprawling plants with very early 2-3" egg shaped fruits. Good rich flavor. Can you guess from where this heirloom comes? Determinate. 57-60 days. Heirloom.

Tomato 'Speckled Roman'

Jagged orange and yellow stripes decorate elongated Roma-type fruit. Meaty and good for processing. Vining plant. 85 days. Heirloom.

Tomato 'Stupice'

h 48"

4 ft. potato-leaf plants loaded with clusters of round 2½" fruits. Heavy yields of extremely early fruits with great flavor. Czech heirloom, indeterminate, 55-70 days. Heirloom.

Tomato 'Sun Gold'

Tangerine-orange cherry tomatoes. Exceptionally sweet with a hint of acid. Vigorous plants yield early and bear throughout the season. 57 days Standard.

Tomato 'Super Sweet 100'

This very popular 1" cherry tomato sets fruit in huge clusters. Needs staking. Indeterminate. 78 days. Standard.

Tomato 'Tiny Tim'

Got a tiny patio or container? We've got your tiny tomato. Red 1" cherry toms on very compact 12" plants. Bet you can't avoid using the word "cute." Patio.

Tomato 'Valley Girl' NEW!

The folks at Johnny's Seed in Maine love this early well-adapted tomato for its good looking, medium-sized, globe-shaped fruit. Stays in production longer than other early varieties and continues to crank out the fruit despite heat or cold stress. Determinate (bush) habit. Hybrid.

Tomato 'Yellow Pear'

A small distinctive pear shaped salad tomato. Vigorous vine bears golden yellow mild flavored fruits. Indeterminate. 70 days. Heirloom.

Watermelon 'Sugar Baby' ○

If you don't need some 25 lb. melon cluttering up your fridge -- grow some Sugar Babies! Early "ice box" type watermelons in the handy 8-10 lb. range are perfect for northern growers. Dark green skin, pinkish-red flesh. Standard.

Watermelon 'Yellow Doll' NEW! ○

Striped 7" globes with sweet golden flesh. Weight averages 6 lb. Early production is perfect for our local area. Hybrid.

Winter Melon (Wax Gourd) ○

Heat loving vine produces large to huge fruits that store well for winter use. Not sweet, used like a vegetable in soups, etc. in Southeast Asian cuisine. This variety grows a handy sized 6-7" round fruit. SE Asian.

Winter Squash 'Acorn' ○

Classic dark green 1½ - 2 lb. fruit. Dry flesh is good for baking. 90 days. Standard.

Winter Squash 'Baby Blue Hubbard' ○

A more manageable version of Blue Hubbard for those of us without double digit numbers of children. More compact vines and fruits weighing only 4-5 lbs. Standard.

Winter Squash 'Bush Delicata' ○

Compact plants are perfect for urban gardens as they spread only 3-4 ft. Chubby 8" fruits are striped green and cream. Bake or use in stews. Standard.

Winter Squash 'Butternut' ○

Orange dry flesh has a sweet nutty flavor. Blocky dark green fruits weigh 4-5 lbs. Excellent keeper. Standard.

Winter Squash 'Honey Bear' ○

Handy-sized 1½ lb. acorn type fruits on city-friendly compact bush. All America Selection in 2009. Sweet flavor. Standard.

Winter Squash 'Rouge vif d'Etampes' ○

Beautiful scalloped flattened fruit in rich crimson-orange are 6-10" high x 18-30" across. This is your Cinderella's coach pumpkin. You find the white horses. Fair eating so more often grown as a long lasting ornamental. Long vines need room but fruit ripens early enough for northerners. Heirloom.

Winter Squash 'Sunshine' ○

Sublime eating. These short vined plants yield fruits like an orange buttercup without the turban. Dry tender flesh with scarlet color stays bright after cooking. Averages 4-5 lbs. Standard.

Winter Squash 'Sweet Dumpling' ○

Ivory and green striped fruits are shaped like miniature pumpkins. Be sure to let Dumplings mature until there is an orange spot on the ground side for the memorable sweet, rich buttery flavor. 1-1½ lb squash are decorative in your gourd display, too. Standard.

Baskets

Zucchini 'Black'

Classic dark green fruits on large open bush. Size depends on how often you pick. Can get as big as a VW Beetle if left untended. LOL. Standard.

Zucchini 'Buckingham'

A compact zucchini for urban gardeners or even containers. Gold fruits are best in the 6-10" range (of course, it's zucchini!). Patio.

Zucchini 'Costata Romanesca'

Cocozelle type with striped and ribbed skin in pale and dark green shades. Sweet, nutty flavor. Standard.

Zucchini 'Gold'

Dependable bush plants produce lovely, slender, bright golden yellow fruits. Standard.

Jumbo 6 packs

Amaranth 'Yin Thai'

"Red Leaf" variety is actually variegated green and red. Tender nutritious greens are used lightly cooked in soups, stir fries or in salads. SE Asian.

Asparagus 'UC 72'

High yielding F2 is hardy, well adapted and will produce medium size spears in three to four years. Standard.

Basil 'Sweet Genovese' NEW!

This is the first year we have offered this popular variety in Jumbo 6 packs as well as in our herbs program. Large leaved compact variety that is a heavy producer and delicious for pesto. Standard.

Beets 'Bull's Blood'

Dark burgundy colored leaves and flesh give this beet its name. Remarkably sweet and earthy. Think - in the annual bed, containers or the vegetable garden. 35 days for baby leaf tops or 55 days for roots. Ornamental.

Beets 'Gourmet Blend' NEW!

Mix it up! Golden, candy striped, pink, white, red --you'll have the prettiest beets on the block. Standard.

Beets 'Red Ace'

Classic early season variety is sweet, uniform and tender. Greens are red veined and medium height. Standard.

Brussels Sprouts 'Falstaff'

Red sprouts are about the color of a red cabbage with foliage that has deep pink veins. A lovely ornamental, good tasting and frost tolerant. Late season crop. Standard.

Bulbing Fennel 'Zefa Fino' NEW!

Swiss breeding has produced a bolt resistant bulbing type that is resilient in stressful growing situations. Try an early July sowing for fall harvest. Standard.

Bunching Onions 'Tokyo Long'

Spring onions, scallions, green onions..whatever you call them, they will answer the call for early season flavor in your cooking. Hill up the shafts for the longest white sections. SE Asian.

Cauliflower 'Graffiti'**h 30"**

An intensely purple true cauliflower. A lovely ornamental with a delicious taste. Ornamental.

Chinese Broccoli or Gai Lan 'Green Lance'

A nice hybrid selection that is slower to bolt but still needs cool weather to crop. Long stems, leaves and flower buds are eaten in this slender broccoli relative that is popular in Southeast Asian cooking. Pleasantly sharp taste goes well with fermented black bean sauce in Thai noodle dishes. SE Asian.

Chinese Cabbage Nappa 'Green Rocket'

Tall cylindrical Michihili type has tight 14" heads up to 4 lb. with a sweet crisp flavor. Best flavor and production in cool weather. SE Asian.

Chinese Celery 'Tianjin Green'

Hollow-stem type is used at a tender young stage. Pick off older growth to keep fresh leaves and stalks coming. SE Asian.

Chinese Leeks 'Nira'

A wide leaf strain of garlic chives. Leaves and flowers popular in Chinese cooking. Perennial. SE Asian.

Chrysanthemum Edible 'Garland'

Superior strain of Shingiku. Serrated leaf type is best in cool weather. Harvest leaves when plant is 4-8." SE Asian.

Cilantro NEW!

For all your Latin American and Asian recipes. We grow a slow bolting selection, but harvest often and replant several times for best results. First year that we offer Cilantro in both Jumbo 6 packs and herb pots. Standard.

Fennel 'Bronze'**h 30"**

Beautiful ornamental with bronze colored feathery leaves. Underused in gardens. Airy texture with a superb color and fragrance! Ornamental.

Kale 'Garden Mixer'

Why choose just one? We'll mix red and green, flat and ruffled for your garden. Ornamental.

Kale 'Rainbow Lacinato'

Cross of Redbor with Dinosaur kale to get more color, a taller height and better hardiness than either parent. Ornamental.

Baskets

Kale 'Red Ursa'

Siberian kale genes give this beautiful ruffled type the ability to laugh at weather well down into the teens. Large leaves equal high yields in the kitchen. Ornamental.

Kale 'Redbor'

h 30-40"

Excellent deep red-purple coloring on extremely frilly leaves. Fall color & texture is exceptional. A versatile backdrop for grasses and annuals. Makes a beautiful garnish, too. Ornamental.

Kale lacinato 'Dinosaur'

h 36"

Italian heirloom with blue-green heavily savoyed, strap-shaped leaves. Mild tasting & delicious after a light frost. Not as attractive to cabbage worms! Ornamental.

Leeks 'King Richard'

Early full-sized leeks are ready in August. White stems are over a foot long if you hill them. Will withstand light frosts, but should be harvested before late October. Standard.

Lettuce 'Mixed'

A colorful and tasty assortment of Romaines, Bibbs and leaf lettuces in red and green shades as well as speckled. Cut and come again culture. Ornamental.

Lettuce 'Springtime Head Mix'

Mix of head-forming types like Butterhead, Romaine and Iceberg lettuce in every shade of red and green. Matures extra early as compact, bunched rosettes. Ornamental.

Lettuce, bibb 'Nancy' NEW!

'Nancy' is a fancy mid-season butterhead with extra-large size, medium green leaves around a tight head and solid performance into the heat of summer. Standard.

Marigold 'Lemon Gem'

h 10-14"

Edible blooms are great in salads or as garnishes. Petite golden yellow single flowers on a cloud of ferny foliage. Ornamental.

Mesclun 'Mixed Greens'

Lovely colors and textures in a mix which includes Lacinato (Dinosaur) kale, 'Redbor' curled kale, Mizuna mustard, 'Red Choi' pac choi, 'Red Giant' mustard, and 'Bull's Blood' beet greens perfect for braising or light stir fry. Ornamental.

Mizuna Mustard 'frilly mixed color'

An absolutely lovely early spring addition to your salads. Feathery types in gold and red contrast with classic Mizuna foliage in purple and bicolors. All are mild flavored. Edible impulse sales! Ornamental.

Nasturtium 'Alaska'

h 8-12"

Variegated cream and green foliage with bright 2" blossoms in a range of summery colors. Sprawling habit. Best flowering in less fertile soil. Drought tolerant. Ornamental.

Nasturtium 'Apricot Trifle' ○

Friilly blooms in a rich apricot-salmon shade with nearly semi-double blooms above deep green foliage. Best flowering in less fertile soil. Drought tolerant. Ornamental.

Nasturtium 'Black Velvet'

h 8-12" ○

Unique and intense velvety reddish-black blossoms with dark green foliage. Best flowering in less fertile soil. Drought tolerant. Ornamental.

Nasturtium 'Empress of India'

h 8-12" ○

Deep, velvety crimson flowers against dark foliage. A staff favorite! Best flowering in less fertile soil. Drought tolerant. Ornamental.

Nasturtium 'Ladybird'

h 8-12" ○

Luscious golden yellow blossoms with deep red centers. Sassy and adorable! Best flowering in less fertile soil. Drought tolerant. Ornamental.

Nasturtium 'Milk Maid' NEW!

h 36-72" ○

Creamy pale yellow blooms are as close to white as a nasturtium gets. This selection from Seed Savers has a vining habit to 6 ft. Ornamental.

Nasturtium 'Night and Day'

h 8-12" ○

A mix of blooms in palest primrose yellow and deep mahogany-black for a high contrast planting. Best flowering in less fertile soil. Drought tolerant. Ornamental.

Onion 'Borettana Cipollini' NEW!

'Borettana' is an Italian heirloom traditionally used for pickling. The bulbs are a unique flattened shape like a golden flying saucer and are actually quite good keepers if you let them size up. Sweet flavor works in salads as well as cooking. Try them in grilling or stir fries. Heirloom.

Onion 'Copra' ○

Sets the standard for storage onions in our region. Medium sized with firm texture and golden skins. Matures in about 104 days. Hybrid.

Onion 'Redwing' ○

Deep red onions are long season (118 days) and long storage. Grows to baseball size. Hybrid.

Onion 'White Wing' ○

Large round white bulbs are sweet and early. Harvest promptly when tops fall over. Hybrid.

Onion 'Yellow Sweet Spanish' ○

Good-sized sweet onion for Northern growers. Yellow globes average 12 oz. and mature in about 98 days. Sweet onion have limited storage life. Hybrid.

Pac Choi 'Mei Qing Choi' ○

Bolt-resistant compact selection has green midrib. Crunchy and sweet. SE Asian.

Baskets

Perilla frutescens crispa 'Aka Shiso'**h 36"**

Large ruffled purple leaves are beautiful accent for containers. Loves hot weather. Used as a seasoning in Asian cooking. Spectacular backdrop in the garden. SE Asian.

Raddichio 'Indigo'**h 8-10"**

Easy-to-grow round selection is rich deep burgundy color, uniform, firm, medium-large heads. Not as fussy about growing conditions as other varieties. Standard.

Shallots 'Ambition'

Large bulbs have reddish-copper skin, white flesh. Good keeper. Standard.

Strawberry 'Jewel'

June-bearing variety with that flavor you can only grow at home as they wouldn't ship far. Fine to freeze and awesome to eat fresh. Standard.

Strawberry 'Mesabi' NEW!

Midseason June-bearing type from the U. of Mn. breeding program. Medium to large fruit with glossy red skin, a balanced sweet-tart flavor and firm flesh. Bred for winter hardiness and productivity. Mesabi is the Ojibwe word for "giant." Standard.

Swiss Chard 'Bright Lights'**h 18"**

Beautiful chard leaves in many colors ranging from deep red to oranges and gold with a few green shades. A delicious mild flavor. Lasts until temps stay below freezing. All America Selection Winner! Ornamental.

Swiss Chard 'Ruby Red Rhubarb'

Deep crimson stalks contrast with dark green leaves make this a beauty in the edible landscape. Hardy heirloom will survive light frosts. Ornamental.

Vietnamese Greens moved to herb section .

Big Tomatoes

Big Tomatoes—6x6 Fiber Pots

Container veggie gardening has taken off for condo, apartment and homeowners alike. Here are some gallon tomatoes – heirloom and patio hybrids – to give tomato lovers a quick start on our short season! Who doesn't want to have the first ripe tomato?

Tomato 'Better Bush'	h 48"	<input type="radio"/>
Full size and full flavored fruits on a compact, stocky plant. Early at 68 days.		
Tomato 'Brandywine'	h 60"	<input type="radio"/>
The climax of tomato season for heirloom fans around here, Brandywine boasts large, deep pink, flattened fruits with exquisite spicy flavor. 90 days.		
Tomato 'Bush Early Girl'	h 36"	<input type="radio"/>
Space saving <i>and</i> super early. Coming in at 63 days with good yields of 7 oz fruit.		
Tomato 'Martina's Roma'	h 36"	<input type="radio"/>
Compact Italian heirloom with a very heavy set of meaty 3 oz fruit for sauce, paste and salsa. 75 days		
Tomato 'Primo Red'	h 36"	<input type="radio"/>
The folks at Harris Seeds know a thing or two about vegetables and they call this their "best new early hybrid." It's quite early at 68 days, fruits are large to very large and the bushes are compact and determinate.		

Herbs

Herbs—3½" compostable pots, 12 per flat

We grow over 150 varieties of culinary, ornamental and medicinal herbs. Even the urban apartment dweller with a small balcony can become a successful herb gardener. Many herb customers are avid "foodies" who want to know where and how their food is produced. Independents who buy locally from sustainable practice growers have a huge marketing advantage here. When provided with a healthy, well-grown plant, herbs can be a successful starting place for new gardeners. New for 2012 are some interesting new mints – 'Berries and Cream', 'Hillary's Sweet Lemon', 'Margarita', 'Spanish' and 'Swiss'. Signage regarding our growing practices is available. Just ask.

Anise Hyssop **NEW!**

h 24-36"

This hard-working perennial is wonderfully fragrant, blooms for a long time and is a bee and butterfly magnet. Leaves and flowers can be used fresh or dried in salads and teas.

Arugula

h 10-12"

Wonderful peppery and pungent leaves for use in salads and cooked with other greens. Adds a unique zip. Easy to grow. Harvest when leaves are young. High in Vitamin C and potassium.

Basil 'African Blue'

h 24"

Beautiful ornamental herb on a large bushy plant with purple-veined green leaves and lavender flowers. Flowers add scent and beauty to bouquets. More cold tolerant than other basil.

Basil 'Amethyst Improved'

h 16-20"

The darkest purple basil, almost black. Use as a lovely and tasty ornamental garnish, an addition to salads and more. A choice Italian basil. Full sweet flavor and fragrance.

Basil 'Aristotle' **NEW!**

h 12"

A small-leaved, highly aromatic variety with a wonderful, rounded habit that makes it a perfect choice for containers or the herb garden. Snip sprigs directly into salad.

Basil 'Cardinal'

h 24-30"

Striking celosia-like purple-red blossoms atop burgundy stems. Rich heady fragrance and flavor.

Basil 'Greek Columnar'	h 24-36"	<input type="radio"/>
A unique columnar form growing to 3 feet tall. Bright green foliage is very fragrant with a pleasing intense flavor. The plant is upright and can be shaped to form a tall stately column.		
Basil 'Lime'	h 16-20"	<input type="radio"/>
Distinct lime aroma. Adds a citrusy zing to your cooking. Bright green 2" leaves on a compact plant.		
Basil 'Mrs. Burns Lemon'	h 20-24"	<input type="radio"/>
An heirloom variety from New Mexico. Very bright green, long leaves with intense sweet and tangy lemon flavor. White blooms. A chef's favorite.		
Basil 'Neapolitano' NEW!	h 14-16"	<input type="radio"/>
This variety has frilly "lettuce leaf" type leaves. Leaves are 4" long and make a great pesto basil.		
Basil 'Osmin Purple'	h 12-18"	<input type="radio"/>
Striking dark purple foliage with pink flowers. Strong aromatic flavor essential for cooking. Add to salads for a punch of flavor and color.		
Basil 'Pesto Perpetuo'	h 18-36"	<input type="radio"/>
This lovely variegated form has light green leaves with a creamy white edge. It will live indoors as a tropical perennial. Very appealing pungent basil and lemon flavor. Does not flower. Distinctive columnar habit. A staff favorite.		
Basil 'Pistou'	h 12"	<input type="radio"/>
Lovely dense mounds of tiny fragrant leaves. Mild flavor makes this an excellent cooking basil. Grow a pot by the kitchen door for snipping directly into salads.		
Basil 'Puck' NEW!	h 25"	<input type="radio"/>
A variety that loves growing in a container. Nice compact form, but larger leaves.		
Basil 'Red Rubin'	h 18-24"	<input type="radio"/>
Purple version of 'Italian Large Leaf' with intense flavor. Use to make a purple pesto or toss in a salad as a colorful addition.		
Basil 'Sweet'	h 18-24"	<input type="radio"/>
An excellent variety for producing quantities for cooking, freezing and canning. Excellent for pesto.		
Basil 'Sweet Genovese Compact'	h 24-30"	<input type="radio"/>
Very large, medium rich green leaves with a sweeter taste. Most often used for cooking and pesto. Slower to bolt.		
Basil 'Thai Holy Basil'	h 15"	<input type="radio"/>
"Samui" has jagged green and purple-tinged foliage with purple stems. Strong clove-like aroma. Thai Holy Basil wilts quickly so pick it as you need it. Always used cooked, never raw. Used in SE Asian cooking.		

Herbs

Basil 'Boxwood'	h 12-16"	<input type="radio"/>
Tight mounds of small tasty leaves. A perfect variety in a pot outside the kitchen door for a quick snip into summer soups, salads or pastas. Looks like miniature boxwood, hence the name.		
Basil 'Sweet Nufar'	h 24-30"	<input type="radio"/>
Large 4" leaf has a sweet scent and flavor. Resistant to Fusarium wilt. Heavy producer.		
Basil 'Sweet Thai'	h 12-18"	<input type="radio"/>
Green 2" long leaves have a spicy, anise-clove flavor. Attractive purple stems and blooms.		
Bay Laurel	h 12-36"	<input type="radio"/>
An evergreen shrub from the Mediterranean. A slow grower that's happy to come into your house for the winter. Deep green leaves are used in soups and stew.		
Borage	h 18-30"	<input type="radio"/>
Tiny star-shaped blue and pink edible flowers are attractive to bees and make a lovely garnish for summer salads or drinks. Large fuzzy silver leaves taste like cucumbers. A native to Northern Europe. Will reseed.		
Burnet, Salad	h 12"	<input type="radio"/>
Attractive low growing herb with serrated leaves has the taste of a cucumber and the appearance of a rustic fern. Cut it back periodically to keep the new leaves coming for your cooking. Very easy to grow.		
Caraway	h 30"	<input type="radio"/>
Feathery biennial with small white umbels on 2 ft. stalks in summer. Grown for seeds used in baking. Native to Europe and western Asia.		
Catnip	h 18-24"	<input type="radio"/>
Perennial. Fuzzy heart-shaped leaves are used in teas and as an adored treat for cats. Very easy to grow as long as your cat will let it get going. A good herb to keep contained or it may spread.		
Celery, Cutting 'Afina'	h 12-18"	<input type="radio"/>
Thin stalks are easier to grow and are more flavorful & aromatic than regular celery. Great for a garnish. Dry the leaves for winter use in soups & salads.		
Chamomile, German	h 20"	<input type="radio"/>
Annual. Sweet apple-like fragrance with white daisy-like flowers. Used for teas or a soothing calming bath.		
Chamomile, Roman	h 4"	<input type="radio"/>
Perennial. Evergreen mat of finely textured aromatic foliage topped with yellow button flowers.		
Chervil	h 18-24"	<input checked="" type="radio"/>
Attractive fern-like leaves have a delicate anise and parsley flavor. Tiny white flowers bloom spring through midsummer. Use with fish, new potatoes and veggies. Add leaves toward end of cooking. A classic herb in French cooking.		

Chives 'Garlic'	h 12"	<input type="radio"/>
Perennial. Broad flat leaves with a mild garlic flavor. The white flowers can also be used as a garnish. Called "Chinese leeks" in Asian recipes.		
Chives 'Purly'	h 12"	<input type="radio"/>
Perennial. Heavy leafed for production. Decorative purple globe-like flowers in spring. Great for container herb garden.		
Cilantro 'Jantar'	h 12-18"	<input type="radio"/>
Annual. Spicy herb for Mexican and Chinese cooking. Both leaves and seeds are used. This is larger leafed, slow-bolting selection.		
Culantro	h 12-18"	<input type="radio"/> <input checked="" type="radio"/>
Known as Thai parsley, culantro has a flavor similar to cilantro, but spicier. Thrives in partial shade.		
Cumin	h 12"	<input type="radio"/>
Deep green leaves bear white or rose colored flower heads which develop seeds used most often in Mexican or East Indian cooking.		
Dill 'Bouquet'	h 36-60"	<input type="radio"/>
Annual. Easy to grow, dark blue-green plant. A popular variety for its early large seed heads. Perfect for pickling. Attracts Black Swallowtail butterflies.		
Dill 'Fern Leaf'	h 26-32"	<input type="radio"/>
Annual. Dark blue-green ferny foliage with an intense dill flavor. Very slow to bolt.		
Epazote	h 24-36"	<input type="radio"/>
Annual. A very pungent herb whose leaves, flowers and unripe fruit are used in Mexican and Caribbean cooking. Pairs especially well with bean dishes. Prefers sandy loamy soil.		
Eucalyptus 'Silver Dollar'	h 24-36"	<input type="radio"/>
Annual ornamental. Beautiful grey-blue foliage for garden or cut flower arrangements. Wonderful round leaves on woody stems add fantastic texture to containers.		
Fennel, Bulbing 'Zefa Fino'	h 36"	<input type="radio"/>
Bulbing type green fennel with a lovely form in the garden. Resists bolting. Both foliage and bulbs have a fresh anise flavor. Native to the Mediterranean.		
Fenugreek		<input type="radio"/>
The plant resembles sweet clover, but is a legume. The leaves are used as herbs in curries and the aromatic seeds as a spice. Dry roasting the seeds enhances flavor and reduces the bitterness. One of the oldest known cultivated medicinal plants.		
Feverfew	h 24-48"	<input type="radio"/>
Strongly aromatic bushy herb. Small daisy-like flowers bloom on light open foliage. Drought tolerant. Used medicinally.		

Herbs

Germander	h 24"	○
Low-growing dense shrubs with airy mauve flowers are a magnet for bees. A favorite for knot gardens as it takes well to shearing. Can be left to grow in a carefree style.		
Gotu Kola	h 3-5"	○●
Dark green, low-growing herb with round leaves. Prefers damp locations. Used as a culinary and medicinal herb in a variety of traditions including Chinese and Ayurvedic.		
Horehound	h 24-36"	○
Name is derived from "Horus", the Egyptian god of sky and light. Very easy to grow, but does not like wet feet. The leaves and flowers have a menthol flavor and are used in teas, candies and cough drops.		
Hyssop officinalis NEW!	h 24"	○
This well-behaved member of the mint family adds mid-summer blue spikes to an herb garden. Good for borders and sometimes planted for a hedge. Loved by bees and butterflies. Can be used in cooking. Use sparingly as taste is strong and slightly bitter.		
Jiaogulan		●
Native to Asia and Southeast Asia, this plant is often referred to as southern ginseng or poor man's ginseng. Vining form. Related to cucumbers. Often drunk as a tea, it is grown for its medicinal benefits. Slow growing annual.		
Lavender 'Fern Leaf'	h 36"	○
Annual. Unique light grey-green ferny foliage provides a playful texture. Especially tolerant of heat and humidity. Highly aromatic.		
Lavender 'Goodwin Creek'	h 24-36"	○
Unusual light grey-green serrated foliage with a thick fuzzy leaf form. Dark lavender flowers. Deadhead to promote continuous blooms. Does well in lower light, so a good choice to bring in for winter.		
Lavender 'Otto Quast'	h 18-24"	○
Although less fragrant than some varieties, 'Otto Quast' more than shines in the foliage and showy flowers department. Typical of Spanish lavenders, he sports large spikes topped with purple "ears" and dark purple flowers along the spike. Annual.		
Lavender 'Sweet'	h 36-48"	○
One of the most productive fragrant lavenders. Sturdy straight stems of royal purple blossoms with a touch of silver on the green leaves. Annual.		
Lavender angustifolia 'Ellagance Purple'	h 12"	○
Masses of fragrant purple-blue blossoms on mounds of silver-green foliage. Blooms mid-summer through early fall. Winner of the European Fleuroselect Award for bright color and early bloom time. Plant in drifts or containers.		

Lavender angustifolia 'Hidcote Blue'	h 18"	<input type="radio"/>
Ornamental with deep purple flowers. One of the best varieties for our climate.		
Lavender angustifolia 'Munstead'	h 12"	<input type="radio"/>
Most hardy in our area. Narrow grey-green leaf with pleasing dark purple blooms. Dwarf form.		
Lavender stoechas 'Jean Davis'	h 20"	<input type="radio"/>
Pastel pink blossoms have a unique fruity flavor. Attractive mounding habit.		
Lavender stoechas 'Kew Red'	h 18"	<input type="radio"/>
Spanish lavender. Unique red-violet blossoms add a new color to the species. Compact habit and finely textured foliage. Intensely fragrant and highly decorative. Use as edging or in containers.		
Lavender stoechas 'Blueberry Ruffles'	h 12-20"	<input type="radio"/>
Compact growth with unusual chunky pink and violet tinged bracts. Ideal for small gardens.		
Lavender stoechas 'Lace Violet'	h 24"	<input type="radio"/>
Upright open habit. Early blooms of fragrant intense deep purple bracts.		
Lavender x intermedia 'Fred Boutin'	h 24-36"	<input type="radio"/>
An English lavender with silvery leaves and excellent fragrance.		
Lavender x intermedia 'Provence'	h 36"	<input type="radio"/>
Annual. The lavender of the French countryside. Upright grey foliage. Grown for its high oil content and large blue flowers. Rot resistant.		
Lemon Balm	h 24"	<input type="radio"/> <input checked="" type="radio"/>
Fragrant rich green, wrinkled, oval shaped leaves, have a strong lemon fragrance and flavor. Excellent for teas and cooking. Easy to grow. Cut back frequently to slow spreading. Prefers cooler temps and part shade, but will grow in full sun. Perennial.		
Lemon Grass	h 36-60"	<input type="radio"/>
Graceful long green leaves add an attractive contrast to other plants growing in the herb garden. Grows vigorously in heat and humidity. Popular in Southeast Asian cooking.		
Lovage	h 48"	<input type="radio"/>
Perennial. Large plants, celery-like appearance and flavor for cooking and drying.		
Marjoram 'Golden'	h 6"	<input type="radio"/>
Low growing groundcover of bright yellow-green. Makes an excellent accent border.		
Marjoram 'Sweet'	h 12"	<input type="radio"/>
Sweet, mild oregano-like flavor. Tender annual. Highly fragrant, small grey-green leaves. Great for herb containers. Harvest often to forestall bolting.		

Herbs

Marjoram 'Zaatar'	h 12"	○
Scent and flavor of a Middle Eastern aromatic spice. Small pale green leaves have flavor hints of oregano, sweet marjoram and thyme.		
Marshmallow	h 48-72"	○
Botanical name from the Greek word "althe" which means "to cure". Fleshy, erect stems with irregularly toothed round leaves. The leaves and roots are used for medicinal purposes. Pink flowers like miniature hollyhocks.		
Mexican Tarragon	h 16-20"	○
Sweet licorice-flavored foliage. Pretty golden yellow flowers bloom all summer. A cousin of our marigolds.		
Mint 'Berries and Cream' NEW!	h 15"	○●
Dark green peppermint leaves smell and taste of berries and cream. Use finely chopped leaves in summer drinks or add to sauces and drizzles for deserts. Makes an excellent tea.		
Mint 'Chocolate'	h 15"	●
Bronzy peppermint-like foliage with a strong chocolate scent. Lilac flowers. Will spread like all mints.		
Mint 'Corsican'	h 1-2"	●
Tiny round leaves form a moss-like mat. Extremely aromatic with a pennyroyal-like scent. Perfect for planting around pavers or near paths. Thrives in moist soil. Not a culinary herb, but an awfully cute one.		
Mint 'Curly'	h 12-24"	○
A spearmint with deeply ruffled ornamental leaves. Somewhat less hardy.		
Mint 'Double Apple' NEW!	h 12"-18"	○●
Exceptional sweet double mint flavor of spearmint and peppermint combined with a delicate apple flavor.		
Mint 'Eau De Cologne' NEW!	h 12"	○
Bronze-green foliage releases a delightful lavender mint scent if brushed when passing. Suitable for both pot pourri and cooking. Great accent flavor for lamb or fish. Rumored to be a great fly deterrent.		
Mint 'Emerald and Gold'	h 12-14"	●
Gold leaves with emerald green markings. Rapidly growing habit makes it a nice perennial groundcover, too. Looks lovely in mixed containers and tastes lovely in your recipes.		
Mint 'Ginger'	h 24-30"	○
Yellow and green striped leaves with a spicy flavor. Combines well with fruit, salmon and Thai cooking.		
Mint 'Hillary's Sweet Lemon' NEW!	h 18"	○●
Excellent culinary herb. Dark green leaves with a sweet fruity aroma of citrus-lime.		

Mint 'Julep'	h 16-24"	○
A spicy spearmint for that perfect southern cocktail. Great for Mojitos, too.		
Mint 'Margarita' NEW!		○
Large-leaved spicy lime scented mint. Works for cooking, teas, and cocktails.		
Mint 'Mini Mojito'	h 2-3"	○●
Perfect small leaved, well-behaved mint for maxi Mojitos. Non-invasive (annual here). Unlike other mints, this one can be used in mixed containers without dominating.		
Mint 'Moroccan'	h 12-18"	
The mint used for tea all over North Africa, where it is mixed with green tea. Has that peppermint look with a slightly elongated leaf and nice lavender blooms.		
Mint 'Orange'	h 12-18"	○●
Very fragrant citrus-like scent. Leaves are dark green with a red edge. White and pink flowers bloom mid to late summer.		
Mint 'Peppermint'	h 12-36"	○●
Fragrant dessert, tea and jelly herb. Reddish stems with purple blooms. Recumbent, spreading habit.		
Mint 'Peppermint Variegated'		○●
Low growing cream and green variegated variety with the same great peppermint taste.		
Mint 'Spanish' NEW!	h 20"	○
Full flavored spearmint used in many beverages in Spain. Also works well in soups, salads, stir fry and more.		
Mint 'Spearmint'	h 24"	○●
Milder and sweeter taste than peppermint. More upright and paler green. Very fragrant. Great for desserts and cocktails.		
Mint 'Swiss' NEW!	h 18"	○●
Light peppermint scent and flavor often used in Swiss herbal candies. Pink flowers on fine toothed foliage draws butterflies.		
Mint 'Variegated Pineapple'	h 12"	○●
Lovely green and creamy white wooly leaves. Good mint flavor with a distinct pineapple fragrance.		
Oregano 'Cuban'	h 10-14"	○●
Extremely aromatic chubby leaves on a mounded plant. Reminds us of Vick's Vapor Rub.		
Oregano 'Greek'	h 12-18"	○
Perennial. Strong-growing hardy culinary herb used in a wide range of cooking especially tomato dishes or pizza. Excellent dried herb.		

Herbs

Oregano 'Hot and Spicy'	h 24"	<input type="radio"/>
Pungent oregano for anyone that enjoys a lot of extra spice in their dish. Goes well in fiery salsa and chili dishes.		
Oregano 'Italian'	h 24"	<input type="radio"/>
Tender perennial with excellent fragrance and a milder flavor than Greek Oregano.		
Oregano 'Jim Best'	h 12"	<input type="radio"/>
A semi-upright variety with green leaves and an ornamental golden netting. Very hardy to Zone 4. Variegation stays most colorful in part shade.		
Oregano 'Mexican'	h 18"	<input type="radio"/>
Fast growing shrub-like plant with pale green leaves and a unique peppery flavor. Pale lavender blossoms are a lovely bonus.		
Oregano 'Santa Cruz'	h 10"	<input type="radio"/>
Showy variety with compact, hop-like, rosy flowers and dark green foliage.		
Oregano 'Variegated'	h 2-6"	AC <input type="radio"/>
Creamy extra wide margins makes this a standout when spreading over the edges of containers, walls and gardens. Subtle flavor. Makes an attractive garnish for salads or vegetables.		
Oregano 'Zorba' NEW!	h 12"	<input type="radio"/>
Full attractive cascading plant, forms blooms throughout the summer. Good culinary herb.		
Papaloquelite	h 48-72"	<input type="radio"/>
Also called summer cilantro. This South American herb has a flavor between mint and cilantro. It is used in traditional Aztec dishes and salsa, generally added raw just before eating. Easy to grow annual.		
Parsley, curled 'Forest Green'	h 15"	<input type="radio"/>
Dark green with deeply curled leaves makes a classic garnish and essential soup ingredient. Traditional garden variety. Plant some extra for the larvae of Black Swallowtail butterflies. They love it!		
Parsley, flat 'Italian Large Leaf'	h 18"	<input type="radio"/>
Flat green leaves and upright habit with stronger flavor than curly parsley. Used in a large variety of cooking and salads.		
Patchouli	h 12"	<input type="radio"/>
Large leaves that smell of mint and sandalwood. Often used for potpourri and incense.		
Perilla frutescens crispa 'Aka Shiso'	h 36"	<input type="radio"/>
Large ruffled purple leaves, beautiful accent for containers, loves hot weather. Used as a seasoning in Asian cooking. Spectacular backdrop in the garden.		
Rosemary 'Athens Blue Spire'	h 36"	<input type="radio"/> <input checked="" type="radio"/>
Upright variety with feathery rich green foliage. Highly aromatic. Excellent for seasoning foods.		

Rosemary 'Barbeque'	h 18"	○●
Grown for sturdy, straight stems that make it an ideal variety to use as skewers for shish kabobs. The pungent flavors infuse the kabobs. Or better yet, skewer and grill some jumbo shrimp. Upright form.		
Rosemary 'Gorizia'	h 18"	○●
From Gorizia, Italy, this variety has very large broad leaves and large blue flowers. The flavor has been described as gentle, sweet and a bit gingery. Upright form.		
Rosemary 'Paris'		○●
Upright aromatic rosemary.		
Rosemary 'Prostrate'	h 6"	○●
Glossy green leaves with a trailing habit. Fast growing. Good for topiaries.		
Rosemary 'Shady Acres'	h 4-6'	○●
Exceptional rosemary for flavor and form. Fast grower with a strong upright form and dark green leaves.		
Rosemary 'Spice Island'	h 10"	○●
Broad medium green leaves with camphor scent, upright, culinary, tender perennial.		
Rosemary 'Tuscan Blue'	h 36"	○●
Very dark blue green leaves. Nice culinary fragrance and taste. Good choice to winter over inside. Upright habit.		
Rosemary 'Upright'	h 18"	○●
One of the most prolific of the large leafed varieties.		
Sage 'Berggarten'	h 18"	○
Broad rounded foliage with silvery accents. Excellent flavor for all your recipes. Ornamental and productive.		
Sage 'Hybrid #4'	h 24"	○
The hardiest culinary sage we grow. Tall plants covered in fragrant greyish green leaves. Great producer.		
Sage 'Icterina'	h 12-15"	○
Gold and green foliage. Compact and decorative. Use in mixed containers.		
Sage 'Pineapple'	h 24-36"	○
Sweet pineapple scent. Beautiful red flowers in late fall, right about the time of the first frost, attracts hummingbirds. Tender perennial can be overwintered inside.		
Sage 'Purple'	h 24"	○
Purple leaves and blue flowers. Lovely in mixed containers fine for cooking.		
Sage 'Tricolor'	h 15"	○
Green, white and pink foliage. Very attractive. Nice contrast to the garden.		
Sage 'Clary'	h 12-18"	○
Ornamental type, sports showy bracts of pink, blue or white. Blooms midsummer.		
Rush Creek Growers, Inc. • 800-669-2971 • www.rushcreekgrowers.com		

Herbs

Sage 'Fruit Scented'	h 30"	<input type="radio"/>
Growth habit like pineapple sage, but leaves have a rounded, heart-shaped look and a citrus scent.		
Sage 'Garden'	h 12-24"	
Hardy, green leaf culinary selection. Good producer with excellent flavor.		
Sage 'White Edge'	h 24-36"	<input type="radio"/>
Clean and crisp, bright green leaves with striking creamy white margins.		
Sage apiaina 'White' NEW!	h 4'	<input type="radio"/>
Large soft silvery-white lance shaped leaves are used as a 'smudging sage'. Loves heat and drought. This plant is native to Southern California, but may over winter indoors with the right soil(sandy) and sun exposure. Will need leaves to make it through the winter. Can grow to 4'.		
Sage officinalis 'Maxima' NEW!	h 32"	<input type="radio"/>
Large silver-grey leaves.		
Saltwort	h 8-18"	
Rich in vitamins and minerals, the long succulent leaves have an appealing tender crunchy texture. Keep harvested for continued growth of choice young leaves. Leaves can be sautéed or steamed and added to stir fries, salads or sushi. Native to the marshes of Japan, but can grow well in less damp conditions. If not regularly harvested, plants can become thorny.		
Santolina 'Lemon Fizz' NEW!	h 18"	<input type="radio"/> <input checked="" type="radio"/>
Fragrant spicy scented, bright, feathery foliage is chartreuse in shade and more yellow in the sun.		
Savory, Summer	h 18"	<input type="radio"/>
Peppery and sweet flavored herb used in a wide variety of cooking. Annual. Dries well for winter use.		
Savory, Winter	h 6-12"	<input type="radio"/>
This small leaved plant is easy to grow. More pungent than summer savory, the peppery tang makes it a good fit with beans. Called the 'bean herb' in Europe. Also works well with pork and poultry.		
Scented Geranium 'Citronella'	h 24"	<input type="radio"/>
The famous mosquito repellent is also just plain refreshing.		
Scented Geranium 'Lady Plymouth'	h 18-24"	<input type="radio"/> <input checked="" type="radio"/>
Deeply divided grey-green leaves with a hint of white around the margins are topped by lavender flowers. Old fashioned lemon-rose scent. Attracts bees, butterflies and birds.		
Scented Geranium 'Lemon Fizz'	h 12-18"	<input type="radio"/> <input checked="" type="radio"/>
Bright crispy green leaves with a strong lemon scent.		

Scented Geranium 'Mix'	h 10-18"	<input type="radio"/>
12 pots, including at least 4 varieties, with an assortment of sizes, foliage types, scents and flower colors.		
Sesame Black 'Kuragoma'		
A black seeded variety. To grow seeds, transplant in well drained location when soil has warmed. May have to harvest pods and dry them inside, stack drying seed heads on tarp to prevent loss. Long season crop. Foliage is also used in Korean recipes.		
Sorrel 'French'	h 24-36"	<input type="radio"/>
Tart lemony-tasting perennial used in salads and springtime soups. Rosette of spinach-like foliage early in spring. Try a sorrel pesto for a delicious change of pace. Perennial.		
Stevia	h 18-24"	<input type="radio"/>
The leaves have a delicious and refreshing taste that can be 10-30 times sweeter than sugar. This is a South American herb, used as a sweetener by the Guarani Indians for centuries. Dries well for winter use. Plant is as tender as basil, so baby it a little.		
Sweet Grass	h 36"	<input type="radio"/>
Sweetly fragrant when the leaves are crushed. Used as incense by Native Americans.		
Tarragon 'French'	h 36"	<input type="radio"/>
Wonderful anise flavored herb with slender, pointed leaves of medium grey-green. Upright hardy perennial. Delicious with anything involving mushrooms or peas. Be sure to dry some for year round use.		
Thyme 'Creeping Lemon'	h 2-4"	<input type="radio"/>
A ground hugging form that is extremely fragrant and lemony. Lovely as a foliage accent in mixed containers, too.		
Thyme 'Elfin'	h 1-2"	<input type="radio"/>
Emerald green leaves form dense spreading mats. Purple blooms in June-August.		
Thyme 'Elizabeth'	h 6"	<input type="radio"/>
An improved English thyme with large dark foliage, fragrance and flowers. A hardy perennial, even up here!		
Thyme 'English'	h 12-18"	<input type="radio"/>
Tiny grey-green leaves. Perennial.		
Thyme 'English Miniature'	h 1-3"	<input type="radio"/>
Tiny leaves form a wonderfully thick spreading patch of medium green. Small form is perfect for fairy gardens or mixed succulent containers.		
Thyme 'French'	h 10"	<input type="radio"/>
Best culinary thyme. Petite grey-green leaves grow upright on woody stalks.		

Herbs

Thyme 'Golden Lemon'	h 6"	<input type="radio"/>
Variegated golden and green leaves with strong lemony fragrance and taste.		
Thyme 'Lemon'	h 12"	<input type="radio"/>
Compact upright shrub resembles 'English' thyme and adds a refreshing lemon scent.		
Thyme 'Lime'	h 6-12"	<input type="radio"/>
Bright green citrus scented foliage topped with pink flowers. Usually hardy here.		
Thyme 'Silver Edge'	h 4"	<input type="radio"/>
Upright form with soft pink stems and lavender blooms on lovely silver-edged dark foliage.		
Thyme 'Silver Posie'	h 10"	<input type="radio"/>
Narrow leaved silver-grey variegated foliage.		
Verbena, Lemon	h 36"	<input type="radio"/>
A very pure intense lemon flavor and scent. A South American native. Tall upright habit with narrow, pointed leaves. Tender perennial can be over wintered indoors.		
Vietnamese Coriander 'Rau Rahm' NEW!		<input type="radio"/>
Polygonum odoratum, looks like colorful smartweed, tastes like spicy cilantro.		
Vietnamese Mint 'Kihn Gioi' NEW!		<input type="radio"/>
Strongly lemon-scented foliage, also known as Vietnamese Balm.		
Vietnamese Perilla 'Tai To or Hojiso' NEW!		<input type="radio"/>
Broad serrated green leaves with red backs, aka Hojiso, herb for southeast Asian cooking.		
Watercress NEW!	h 4-6"	<input type="radio"/>
Has an unique peppery flavor and bright green leaves. The leaves provide us with 15 essential vitamins and minerals. An aquatic plant.		
Yerba buena 'Indian Mint'	h 4-6"	<input checked="" type="radio"/>
Mat forming aromatic ground cover from the western US. Small glossy green leaves have a pungent spicy mint scent and flavor. Very drought tolerant.		

Perennials

Perennials—4½" color-coded pots, 12 per flat

There is some amount of gloom and doom in the industry regarding perennial sales. With the decline in the housing market, this is not surprising. But we know that there is more to human behavior than fear. The thrill of watching every spring for the emergence of our perennials brings us renewed pleasure year after year. We see people taking their concern for the environment and turning it into conscientious stewardship. This includes choosing plants with water conservation in mind – hence the interest in rain gardens and natives; with concern for wildlife and insect preservation; and with filling our yards with more than just turf grass. We believe that we can successfully market perennials using these values that Baby Boomers to Gen Y's share. Our quart pots are more affordable in a tight economy. Color coded pots, based on price, allow us to sell everything from the latest tissue cultured varieties to venerable seed grown staples including over 40 varieties of natives. Our staff loves contributing to our list with their personal favorites.

Achillea 'Desert Eve Terracotta' (Yarrow) NEW!	h 12-18"		○
Tough and drought-tolerant variety with deep green foliage and lovely terra cotta umbels. Slightly more compact form for a neat appearance. Zone 4.			
Achillea millifolium 'Anthea' (Yarrow)	h 24-36"	w12-24"	○
Shimmering silver foliage topped with pale yellow umbels. An improved 'Moonbeam'. Cuts and dries beautifully. Holds up well in humid conditions and is long blooming. Zone 4.			
Achillea millifolium 'Tutti Frutti Pomegranate' (Yarrow)	h 24"	w20"	○
Handsome red flowerheads with nice uniformity and an excellent mounding habit. Easy to grow. Drought tolerant. Butterfly garden. Zone 3.			
Aconitum cammarum 'Stainless Steel' (Monkshood)	h 36-48"	w24-36"	○●
Flower spikes of steel blue with paler throats in July and August. Blossoms appear hooded for an unusual appeal. Deeply cut leaves and a stocky, upright habit. Prefers moist soil. Excellent cut flower. Deer resistant. Poisonous. Zone 3.			
Aconitum carmichaelii 'Arendsii' (Monkshood)	h 36-48"	w24-36"	○●
Sturdy plant with dark blue hooded blooms. Excellent for borders and to provide late season color. Deer resistant. Blooms August and September. Zone 3.			

Perennials

Aconitum fischeri (Monkshood)	h 18-24"	w24-36"	○●
Thick leathery stems with lavender hooded blue flowers and glossy dark green foliage. Blooms in late summer. No staking needed. Deer resistant. Zone 3.			
Actaea racemosa (Cimicifuga) (Black Cohosh)	h 48-60"	w24-48"	●●
Fluffy, elongated, creamy white racemes rise above feathery green Astilbe-like foliage with wiry stems. Tall, elegant beauty for the shade garden. Prefers a sheltered, slightly moist spot. Zone 3.			
Agastache 'Bolero' NEW!	h 16"		○
Spires to 16" of abundant tubular blooms in brilliant rose-purple. Aromatic bronze colored foliage with a compact habit. Blooms reliably the first year. Works well in containers or dry gardens. A magnet for hummingbirds, butterflies and honeybees. Zone 5.			
Ajuga reptans 'Black Scallop' (Bugleweed)	h 8"	w12-24"	●●
Dramatic, dark-as-night, scalloped, glossy, mid-sized foliage. Great for containers or the shade garden. Our favorite black! Zone 4.			
Alcea rosea 'Spotlight Series'			
An exciting new series with consistent clear colors. Old fashioned single beauty makes a strong stand at the back of a perennial border or in a cottage garden. Truly perennial.			
Alcea rosea 'Spotlight Black Knight' (Hollyhock)	h 70"		○
Darkest of any single black-purple. Zone 3.			
Alcea rosea 'Spotlight Mars Magic' (Hollyhock)	h 70"		○
Vivid, clear, dark red single. Zone 3.			
Alcea rosea 'Spotlight Sunshine' (Hollyhock)	h 70"		○
Purest clear yellow. Zone 3.			
Alchemilla mollis 'Auslese' (Lady's Mantle)	h 12-20"	w24"	●
Slightly drooping sprays of many tiny chartreuse flowers blooming in June. Charming addition to bouquets. Lovely cupped foliage with tiny teeth that catch the morning dew. Easy to grow and share with the neighbors. Zone 3.			
Allium karataviense (Turkestan Onion)	h 4-10"	w12"	○
This allium is a gentle giant with large white star-covered globes held over wide strap shaped-foliage that is as compelling as the blossom. Needs good protection to overwinter here. Zone 5.			
Amsonia 'Blue Ice' (Blue Star)	h 12-15"	w30"	○●
A beautiful under-used plant with dark blue buds and deep lavender star-shaped blooms. Dense habit, more compact than the species. Blooms five weeks or more. Brilliant yellow fall foliage. Thought to be a sport of <i>A. tabernaemontana</i> . Best in dry locations or well-drained soil. Zone 4.			

- Amsonia hubrichtii** h 24-30" w24-36" ○●
Chosen for soft airy texture and rich ochre fall color. Steel blue star-shaped flowers on fine feathery foliage in early summer. Makes a marvelous display. Drought tolerant. Arkansas native. Zone 4.
-
- Amsonia tabernaemontana (Blue Star Flower)** h 30-36" w36" ○●
Narrow leafed foliage creates a billowy shrub-like appearance. Blooms late spring to early summer with pale blue star-shaped flowers. Shorter days turn the plant into a stunning shade of golden orange. Zone 3.
-
- Anemone hupehensis (Japanese Anemone)** h 24" w24-36" ●○
Late-summer-blooming beauty from China. Beautiful pink single petaled flowers with a prominent ring of yellow stamens. Long stems arch over dark green foliage. Zone 4.
-
- Anemone multifida 'Annabella Deep Rose'** h 8-12" w12" ○●
Abundance of adorable five-petaled blooms in vivid carmine red on sturdy stems over lacy foliage. Blooms May-June. Nice size for rock gardens. Best in moist, but well-drained locations. Zone 3.
-
- Anemone sylvestris (Snowdrop Anemone)** h 10-18" w12" ○●
Large single white flowers with yellow anthers over deeply cut foliage. A true sign of spring in May and June. Prefers moist, well-drained soils with plenty of organic matter. Zone 3.
-
- Anemone tomentosa 'Robustissima' (Grape Leaf Anemone)** h 36" ●●
Large glossy green leaves resemble grape leaves and set off the pastel pink single blooms with pale yellow centers. Blooms arch above foliage in dramatic fashion. Most hardy of the fall blooming varieties. You'll be thrilled with how quickly it spreads. Blooms August-October. Zone 4.
-
- Angelica gigas (Korean Angelica)** h 36-72" w48" ●○
Toothed tripartite foliage forms base for contrasting deep purple stalks. Rich wine-colored umbels in late summer. A show-stopper that is sure to provoke questions. Can be biennial. Zone 4.
-
- Aquilegia canadensis 'Little Lanterns' (Columbine)** h 10" w6" ●●
Sweet dwarf form. Brilliant red blooms with yellow corollas. Provides that perfect "wild" columbine for your tiny woodland. Zone 3.
-
- Aquilegia vulgaris 'Clementine Salmon Rose' (Columbine)** h 18" w12-18" ○●
New form with spectacular double blossoms that look like clematis blooms. Blossoms age from rosy salmon to lavender. Foliage stays attractive throughout the summer. Spring blooming. Zone 3.
-
- Aquilegia vulgaris 'Lime Sorbet' (Columbine)** h 40" w12' ●○
Striking soft lime green spurless double flowers with rounded cut foliage. An eye-catching color in the shade garden. Spring blooming. Zone 3.

Perennials

Aquilegia vulgaris 'William Guinness' (Columbine)	h 24"	w12"	●
Purple-black sepals and spurs contrast with white corolla. Upright habit. Long stems are great for cutting. Spring blooming. Zone 3.			
Aquilegia vulgaris 'Woodside variegata' (Columbine)	h 24"	w10"	●
Eye-catching speckled foliage with various shades of green overlaying bright gold. Blooms are a rich violet-blue and held neatly above mounding foliage. Zone 4.			
Aruncus 'Misty Lace' (Goatsbeard)	h 30"	w24"	●
Tidy cross between <i>Aruncus dioicus</i> and <i>A. aethusifolius</i> with delicate lacy white blooms. Beautiful red stems with ferny leaves. A showy addition to the shade garden plus very hardy and heat tolerant. Zone 3.			
Aruncus dioicus (Goatsbeard)	h 36-48"	w36-48"	●
White airy panicles over finely cut foliage. Robust habit. Great cut flower. Blooms June and July. Thrives in moist soil conditions. Zone 4.			
Asarum europeum (European Ginger)	h 6-8"	w8"	●
Rounded foliage so glossy that it reflects light. Hardy, but slow-growing groundcover for woodlands or shade borders. Zone 4.			
Asclepias tuberosa 'Gay Butterflies' (Butterfly Weed)	h 22-30"	w15-20"	○
Selection of our native butterfly weed with a mix of yellow, orange and red blooms in mid-summer. Thrives in dry sandy soil. Zone 3.			
Asclepias tuberosa 'Hello Yellow' (Butterfly Weed)	h 24-36"	w24-36"	○
Another butterfly magnet. Showy golden-yellow flower heads top attractive dark green foliage from June to August. Good drought resistance. Low maintenance plant. Zone 4.			
Astilbe 'Rock and Roll' (False Spirea)	h 16-20"	w18-24"	●●
A white cultivar in the 'Music' series. Compact form with white plumes over lacy bronze-green foliage in early to mid summer. Zone 3.			
Astilbe arendsii 'Glow' NEW!	h 18-24"		○●
Deep red flower plumes with rosy highlights truly do glow above green foliage. Blooms mid-summer. The classic deep red. Zone 4.			
Astilbe chinensis 'Visions' (False Spirea)	h 14"	w12"	●
Dense lavender-purple plumes. Smaller stature plant perfect for containers or the front of the border. Zone 4.			
Astilbe chinensis x 'Delft Lace' (False Spirea)	h 24-36"	w24"	●●
Features blue waxy foliage with a silver overlay, accented by delicate salmon pink blossoms on strong red stems. A lovely combination and an improvement over 'Peach Blossom'. Extremely attractive. Zone 4.			
Astilbe japonica 'Montgomery' (False Spirea)	h 20"	w24"	●●
Contrasting dark reddish bronze foliage and deep red flowers make this plant an elegant shade variety. Zone 4.			

Astilbe simplicifolia 'Jacqueline' NEW!	h 24"	○●
Large fluffy pink plumes above dwarf mounds of dark green foliage. Plant in mass for a billow effect. Zone 4.		
Astilbe thunbergii 'Straussenfeder' (False Spirea)	h 36"	w12-18" ●●
Grown for the attractive arching form of the plant as well as the airy coral pink blossoms. A truly elegant form for early to mid summer blooms. Zone 3.		
Astilboides tabularis	h 36"	w36-40" ○●
Huge, round, toothed leaves command a dramatic placement mid-border and reach a larger size each season. Like a clump of two foot umbrellas; Mr. Toad could hold a lovely garden party beneath one. Prefers moist, boggy site in cool shade. Zone 4.		
Baptisia 'Twilite Prairie Blues' (Wild Indigo)	h 48-60"	w36" ○●
An introduction from the Chicago Botanical Garden. Very unique deep violet-purple flowers above blue-green foliage. The flower stalks can be up to 32 inches long. Zone 4.		
Baptisia 'Midnight Prairie Blues'	h 48"	○
A dramatic plant with a profusion of deep violet-blue flowers on 24" racemes. Once established assumes a shrublike form. Fine textured foliage holds beauty and interest through the season. Zone 4.		
Baptisia australis (Blue Wild Indigo)	h 24-30"	w36" ○●
Indigo blue pea-like flowers on long stems above smooth blue-green bush-like foliage. A stunning blast of color in early June. Seed pods persist through the season. Native to the southern U.S. Zone 3.		
Bergenia 'Pink Dragonfly' (Pigsqueak)	h 12"	w12" ○●
A narrow leafed type with coral pink flowers in early spring. The foliage on this variety stays clean, glossy and very attractive all summer. The leaves turn a rich plum red after frost. Zone 4.		
Brunnera macrophylla 'Jack Frost'	h 12"	w24-30" ○●
Variegated foliage has a frosty silver overlay with light green venation like crackled porcelain. Beautiful light blue forget-me-not blossoms. Prefers consistently moist but well drained soil in full shade. Zone 3.		
Campanula 'Pink Octopus' (Bellflower)	h 15"	w18" ○●
Extremely unusual blossoms resembles a pink octopus spilling over upright branches. One of those plants that calls you over to see what it is. Deeply cut foliage. Long blooming, hardy and easy to grow. Zone 5.		
Campanula glomerata 'Freya'	h 16"	○●
A Campanula with stars rather than bells! The purple star flowers grow along the sturdy well-branched stems. More blooms than other glomerata types, forming an upright dense mound. Blooms late spring to midsummer. Zone 3.		

Perennials

Campanula persicifolia 'Blue-eyed Blonde'

(Bellflower)

h 15"

w10-12"

A peach-leaf type with neon yellow foliage and large 1" bells of deep violet blue flowers. A brilliant show-off in part shade. Zone 4.

Campanula persicifolia 'La Belle'

h 24"

w12-18"

Looking like a mini-bouquet of Lisianthus, these abundant violet-blue double flowers are held atop tall upright stems. Long lasting and excellent cut flower. Zone 3.

Campanula portenschlagiana 'Birch Hybrid'

(Bellflower)

h 8"

Dwarf form covered in 1" fluted bell-shaped lavender-blue blossoms. A vigorous evergreen groundcover. Great in rock gardens. Flowers from June to September. Zone 3.

Campanula poscharskyana 'Blue Waterfall'

(Serbian Bellflower)

h 4-6"

w12"

Such a long blooming, colorful plant! Absolutely covered in brilliant blue bell-shaped blooms. Gorgeous cascading over walls, window boxes or edging. Cut back firmly for reblooming. Zone 5.

Centaurea 'Black Sprite' NEW!

h 14"

New exotic look for an old time favorite. Burgundy black spidery flower head makes this a unique addition to the garden. Easy to grow. Blooms in May and June. Zone 4.

Chelone lyonii 'Hot Lips' (Pink Turtlehead)

h 30"

w12-18"

Selection of the native from the southeastern states. Rose pink flowers on glossy deep green foliage with red stems. Thrives in moist woodland conditions. Good cut flower. Forms a large clump in 2-3 years. Blooms August and September. A rain garden favorite. Zone 3.

Cimicifuga - see Actaea

Clematis integrifolia (Solitary Clematis)

h 18-36"

w24-36"

One of our favorite clematis. Shrub form, not climbing, covered with small blue bell-shaped blossoms. Loves to ramble over rocks or walls. Charming and uncommon. Zone 3.

Coreopsis 'Crème Brulee'

h 16-20"

w36"

Creamy yellow single-petaled flowers above needle-like foliage. Vigorous spread to 3' in 1 year. A profusely blooming variety. Cut back for rebloom. Blooms June-Sept. Needs well-drained soil. Zone 4.

Coreopsis 'Jethro Tull' (Tickseed)

h 18"

w12"

Golden yellow blooms with very unique fluted petals. Nice compact plant with bright green foliage that produces many flowering stems. Long blooming from June-August. Zone 4.

Coreopsis grandiflora 'Rising Sun' (Tickseed)	h 18-24"	w12-18"	○
Double and semi-double golden blooms with red flecks at the center. Early to bloom and compact. Blooms June-Sept. Zone 4.			
Coreopsis verticillata 'Route 66'	h 24"		○
Threadleaf foliage. Yellow petals around a red eye; central pigment streaks out into the petals. Long flowering season. Adorable, eye-catching variety. Zone 5.			
Coreopsis verticillata 'Sienna Sunset'	h 16-20"		○
Unusual soft golden brown flowers above threadleaf foliage. Long-lasting cut flowers for bouquets throughout the summer. A striking new color. Zone 5.			
Corydalis 'Blue Panda' RENEW!	h 10"		●●
Clusters of wonderfully fragrant azure blue spurs above lacy foliage. Plant becomes dormant after spring bloom then leaps back to life as autumn weather cools. Keep moist. Zone 5.			
Delphinium 'Blue Lace'	h 63"		○●
Large double blossoms of mid-blue with pink tinge. Vigorous growth even in hot humid conditions. This could be your grandmother's delphinium, but it's much hardier and sturdier. Zone 3.			
Delphinium 'Royal Aspirations'	h 63"		○●
Too beautiful to resist. Magnificent deep blue semi-double blossoms. Sturdy flower stalks. Winter hardy and tolerates warmer and more humid climate. Zone 3.			
Delphinium elatum 'Dusky Maidens'	h 48-60"	w18-30"	○●
A staff favorite with double blooms in intense mauve with brown centers. Better overwintering and more tolerant of heat and humidity than older varieties. Magnificently full blossoms on surprisingly vigorous plants. Stake please. Zone 3.			
Delphinium elatum 'Pagan Purples'	h 48-60"	w18-30"	○●
Double blooms with a mix of rich purples and blues. Sturdy stalks still need staking. Better overwintering and more tolerant of heat and humidity than older varieties. Zone 3.			
Delphinium elatum 'Sweet Hearts' NEW!	h 36-60"	w24"	○●
Tall, splendid beauty in early summer. Intensely pink semi-double blossoms with a white eye. This variety has excellent garden performance with very sturdy stems. They show good heat and humidity tolerance. Should rebloom with dead heading. Zone 3.			
Delphinium grandiflorum 'Blue Butterfly'	h 16-30"	w8-16"	○●
Dwarf variety with deep blue single blooms that resemble butterflies over delicate foliage. Free flowering through most of the summer. A classic! Zone 3.			
Dianthus 'Neon Star' (Pinks)	h 4"	w10"	○
Adorable single-petaled fragrant flowers. Fluorescent pink flowers top silvery foliage. Petals are toothed as if someone took the pinking shears to them; hence the common name. Long blooming with dead heading. Compact, mounding habit. Zone 3.			

Perennials

Dianthus 'Pomegranate Kiss' NEW!	h 6"		○
Frilly double cherry-red blooms with splashes of rose-pink. Petals are sharply serrated. Bred for heat and humidity tolerance. Fragrant. Zone 4.			
Dianthus 'Raspberry Surprise' NEW!	h 6-10"	w12"	○
Double pink blossoms with a burgundy center resemble old fashioned pinks with fragrance and beauty. But unlike the classic, these stems are short and sturdy. Makes a good cut flower. Prefers well drained soil. Don't transplant in hot weather. Zone 4.			
Dianthus barbatus 'Black Adder'	h 16"	w8-12"	○
Stunning purple on purple! Almost black (carmine) blooms above purple-black foliage. Compact, well-branched, heavy bloomer. Zone 4.			
Dianthus barbatus 'Heart Attack' (Sweet William)	h 12"		○
An unusually reliable, long-lived sweet william with brilliant red-black blossoms from early spring through the summer. Not biennial like so many D. barbatus. Zone 4.			
Dicentra 'Burning Hearts' (Fern-leaf Bleeding Heart)	h 10-12"	w12"	●
A graceful arch of heart-shaped valentine-red flowers above feathery blue-gray foliage. Makes a dense mound covered in blossoms. The darkest color in this hardy fern-leaf series. Zone 4.			
Dicentra spectabilis 'Gold Heart' (Golden Bleeding Heart)	h 24"	w24"	◐ ●
A gorgeous golden plant that shines in the spring shade garden and looks fabulous in combination with dark foliage plants. Peach-colored stems with metallic gold leaves and rich pink flowers. Summer dormant. Zone 3.			
Dicentra spectabilis 'Valentine'	h 24-30"		◐ ●
Cupid's favorite. Traditional heart-shaped blossoms but in a romantic shade of red, suspended from dark red stems. Vigorous dense clumps of attractive plum-green foliage. Zone 3.			
Dicentra spectabilis (Pink Bleeding Heart)	h 18-36"	w36"	◐ ●
Old fashioned pink hearts bleed to white. Rewarding and easy to grow for the new gardener. Blooms May and June. Dormant in summer. Zone 2.			
Dicentra spectabilis alba (White Bleeding Heart)	h 30"	w36"	◐ ●
Arching stems of white heart-shaped elegant blossoms. A sign that winter is finally past. Summer dormant. Zone 2.			
Digitalis grandiflora (Yellow Foxglove)	h 24-36"	w20"	◐
Perennial foxglove for the shade or rock garden with graceful, large yellow bells netted with brown. Lovely cut flower. Tends to be hardier than D. purpurea. Zone 3.			

Digitalis purpurea 'Candy Mountain' (Foxglove)	h 36-48"		○●
Creates garden drama with very unusual upward facing, rose-pink blossoms surrounding a sturdy stem. Very floriferous and showy when massed. An award winner. Zone 4.			
Digitalis purpurea 'Gold Crest' (Foxglove)	h 18"	w12"	○●
Exciting new hybrid with beautiful small, yellowy peach flowers with reddish brown markings, smooth lance-shaped leaves. Sterile, compact form. This variety bloomed all summer for us in 2009. Zone 4.			
Echinacea 'Big Sky Solar Flare' NEW!	h 24-36"	w18"	○
Blazing 5" flowers of magenta-red petals with purple backs held on almost black sturdy stems. Prolific compact bloomer, sweet fragrance and long bloom time make this a shining star. Zone 4.			
Echinacea 'Hot Lava' NEW!	h 33"	w36"	○
Extra petals of hot orange-red give the flowers a vibrantly fuller look. Strong stems make this an excellent cut flower. Deadhead to prolong blooming. Zone 4.			
Echinacea 'Hot Papaya'	h 30-36"	w24-30"	○●
A staff favorite in summer of 2010. Large spicy orange doubles with orange reflexed petals. Truly a unique color. Highly fragrant. Good branching and vigor. From the breeder of 'Pink Double Delight'. Zone 4.			
Echinacea 'Milkshake'	h 30-36"	w24-36"	○●
Super floriferous, double white variety with a charming yellow center. Plant is very vigorous. Flowers are extremely long lasting and cut well. Zone 4.			
Echinacea 'Pink Double Delight'	h 26"	w18"	○●
One of our favorites of the new double coneflowers. The doubles occur due to the ray petals gradually opening from the cone as the flower matures into a full pompom-like flower. Very long-blooming and well-branched. Deadheading is recommended. Zone 3.			
Echinacea 'Pow Wow Berry' NEW!	h 20-24"	w18-24"	○
Super award-winning variety with sturdy stems covered in fragrant deep rose-purple blooms. Packed with more flowers per plant. Blooms without deadheading. Zone 3.			
Echinacea 'Pow Wow White' NEW!	h 18-24"	w8-24"	○●
Pure white petals and yellow centers bloom earlier and pack more flowers on one plant than other varieties. Keeps its compact form and does not require deadheading. Zone 4.			
Echinacea 'Sombrero Hot Pink'	h 21"	w14"	○●
Numerous 3" glowing pink flowers on compact sturdy stems. Petals stand straight out from central cone. Very vivid color. Large flowers and erect form are highlights. Zone 3.			

Perennials

Echinacea 'Tiki Torch' h 32" w18-23 ○●

One of the most popular new varieties. Deep rich pumpkin-orange blossoms. Fade resistant orange keeps its color for WEEKS! Enticing spicy scent and retention of color make this an excellent cut flower. Zone 4.

Echinacea purpurea 'Ruby Star' h 36" w18-24" ○●

Classic coneflower with intense deep purple-pink blossoms with horizontal petals. Improved 'Magnus' that blooms July- September. Bred from Great Plains natives. Zone 3.

Echinops bannaticus 'Blue Glow' NEW!

(Globe Thistle)

h 24-48" w12-24" ○

This is a showy tall variety with globular, thistle-like, steel blue blossoms on sturdy stems. Tolerates poor quality soil and drought. Blooms in July and August. Zone 3.

Epimedium

Why we love epimediums: the delicate foliage that floats on almost invisible dark petioles; their toughness in dry shade; the range of flower colors--white and yellow to reds and pinks; the heart-shaped leaves with contrasting veins, the beautiful fall foliage color. Really, what else could you possibly want?

Epimedium pinnatum var. 'Elegans' (Barronwort) h 12-15" w12-15" ●●

Yellow blooms with yellow spurs flutter above glossy green foliage. Beautiful red foliage in the cool fall temperatures. Zone 5.

Epimedium x rubrum (Barrenwort) h 12" w12-15" ●●

Rich ruby red spurred blooms in May and June. Coppery red and yellow foliage in fall. Zone 5.

Eryngium 'Big Blue' (Sea Holly) h 24-30" w24-30" ○

Blue, blue and more blue. Irridescent blue blossoms top blue stems and silver spiny foliage. Long lasting cut with a spectacular presence. Grows well in average to dry soil. Let some deer try to nibble on this. No way! Zone 4.

Eryngium planum 'Blue Hobbit' h 12" w6-12" ○

Compact habit with many long-lasting spiky blooms of dark blue frosted in lavender. A novel presentation planted alone in a container or works well as a border. Loves the heat and sun. Zone 5.

Eupatorium maculatum 'Gateway' (Joe Pye Weed) h 60-72" w18-24" ○●

Wine-colored stems with dusty rose flower heads. Slightly more compact than the species, but plenty of sturdy height for the back of the border. Attracts butterflies. Blooms late summer to fall. Somewhat late to emerge in spring. Zone 4.

Euphorbia

In case you can't tell, we think Euphorbias are just swell! Gorgeous foliage - summer & fall; attractive colorful flowers - good for cutting, too; fantastic textures and shapes. Tough, too. Need we say more?

Euphorbia amygdalifolia x E. martinii 'Efanthia'**(Wood Spurge)****h 10-14" w14"**

Show stopper with chartreuse flower spikes in spring. Evergreen foliage has a bushy, compact habit and a great burgundy tinge in cool weather. Zone 5.

Euphorbia griffithii 'Fireglow'**h 30" w36"**

Orange-red bracts May-August. Leaves with pink midribs change from red to green to greenish yellow through the seasons. Native to Tibet, Bhutan, SW China. Zone 4.

Euphorbia polychroma 'Bonfire'**h 10-12" w18"**

Foliage and form join to make this is a gorgeous plant. Deep purple, red and orange leaves with crackling yellow bracts in spring. Zone 5.

Euphorbia polychroma (Cushion Spurge)**h 16" w24"**

Among the earliest spring color to be found, glowing yellow bracts above a neat mound of oval dark leaves. Foliage often turns purple in cooler fall weather. Zone 4.

Gaillardia 'Commotion'® Frenzy' (Blanket Flower)**h 18-24" w24"**

Mounding habit with vibrant, fluted blooms in deep burgundy fading to rich red tipped in golden yellow. A spectacular color! Zone 5.

Gaillardia 'Commotion'® Moxie' (Blanket Flower)**h 18-24" w24"**

Brilliant yellow fluted petals with a vivid orange center on mounding dark green foliage. Long bloom time. Excellent cut flower. Prefers well drained soil. Cut back to 3" early spring. Zone 5.

Gaillardia 'Mesa Yellow' NEW!**(Blanket Flower)****h 16-18" w20-22"**

Adorable and award winning F1 variety with a pleasing mounded habit and vivid yellow blossoms. This improved form doesn't flop and the flowers maintain their bright color. Works well in container or the garden. Zone 4.

Gentiana cruciata 'Blue Cross'**h 10" w12"**

Intensely blue blooms on compact, drought-resistant plants with rosettes of spoon-shaped leaves. Blooms in mid to late summer. Makes a lovely cut flower. This is not the protected species. Zone 3.

Geranium 'Midnight Reiter'**h 6-8" w12"**

Nearly true blue flowers cover compact mounds of lacy plum-purple leaves. Unique foliage retains its color when exposed to sun throughout the season. Zone 4.

Perennials

Geranium cantabrigiense 'Biokova' (Cranesbill)	h 6-8"	w10-12"	●○
Attractive groundcover for your part-shade garden with white flowers highlighted with light pink veins and stamens. Red to orange fall color. Discovered in Biokova Mountains in Croatia. Zone 4.			
Geranium cantabrigiense 'Karmina' (Cranesbill)	h 6-8"	w12-24"	○●
Raspberry-pink flowers bloom June-September. Spreading habit. Lemon scented foliage. Leaves take on lovely red tones in autumn. Zone 4.			
Geranium hybrid 'Blue Blood'	h 16"		○●
Very deep purple blossoms with almost black veins. One of the darkest of the large flowered varieties. Attractive, compact mounds. Blooms June and July. Zone 4.			
Geum 'Totally Tangerine' NEW!	h 24-30"	w15"	○●
Soft apricot petals bob atop lovely fuzzy stems. Robust, heavily blooming variety is sterile which adds to performance. May rebloom in fall if you're lucky. Prefers a cool, moist site. Deer resistant. Zone 4.			
Helenium 'Carnival' (Sneezeweed)	h 35"		○
Festive bright yellow petals curl as they mature with ends changing to hues of rosy apricot. Blooms all summer. Zone 4.			
Helenium 'Double Trouble' (Sneezeweed)	h 32"		○
First double-flowering Helenium. Exceptionally long lasting flowers glow with brilliant yellow petals. Very strong stems make superb cut flowers. Zone 4.			
Helenium 'Mardi Gras' (Sneezeweed)	h 30"	w20"	○
Quarter-sized fringed blooms of gold, blotched with bright orange. Quite a show in the late summer garden. Blooms July and August. Zone 4.			
Helenium 'Ruby Tuesday' (Sneezeweed)	h 20"	w12"	○
A pleasantly compact form with small ruby-red single-petaled flowers. Blooms late summer. Tolerates a wide variety of conditions. Zone 4.			
Heliopsis helianthoides 'Summer Nights' (Ox Eye Daisy)	h 36-48"	w18-24"	○
Brilliant gold blooms with orange-red centers and contrasting red stems plus purple-red foliage in the cool early spring. Cheery blast of late summer color. Easy to establish and maintain. Looks great with Aster 'Lady in Black'. Zone 4.			
Hemerocallis 'Big Bird' (Day Lily)	h 16"		○
Huge lemon yellow flowers with narrow yellow petals. So enchanting you won't even miss Elmo. Reblooms. Zone 3.			
Hemerocallis 'Night Beacon' (Day Lily)	h 27"		○●
Wine red flowers with chartreuse center. Extended bloom time. Will rebloom. Easy to grow anywhere. Zone 3.			
Hemerocallis 'Rocket City' (Day Lily)	h 36"		○●
Large bittersweet orange tetraploid flower with a burnt orange eye. Zone 3.			

Hemerocallis 'Wild and Wonderful' (Day Lily) h 24-36" ○●

Twisting and curling petals of salmon-pink, red chevron eye and green throat. Tetraploid. Zone 4.

Heucheras (Coral Bells)

New foliage colors and textures bred over the last decade make multiple heucheras a requirement in any shade bed. Some will take more sun than others, but most prefer part shade.

Heuchera 'Brownie' (Coral Bells) NEW! h 12" w18" ○●

Large chocolate leaves on a well-mounded plant. This is a very vigorous plant that tolerates sun or part shade. Zone 4.

Heuchera 'Citronelle' (Coral Bells) RENEW! h 10" w12" ○●

Stunning chartreuse foliage does not change to dark green when it heats up. Tolerates humidity and heat. Zone 4.

Heuchera 'Fire Chief' (Alum Root) h 9" w15" ○●●

Wine red leaves form a medium-sized mound. Dark red stems are topped with bicolored pink and white flowers. So hot, you'll need the hose. Zone 4.

Heuchera 'Georgia Peach' (Coral Bells) h 14" w24" ●●

This large leafed variety comes from the *H. villosa* breeding which seems much more vigorous in our northern climate. This one has large peachy rose leaves and creamy white blossoms. Zone 4.

Heuchera 'Ginger Ale' NEW! h 10" ●●

Soft ginger colored leaves are a perfect complement to all colors. Much more vigorous than 'Amber Waves'. Works well in containers and borders. Zone 4.

Heuchera 'Hollywood' (Coral Bells) h 8" w12" ○●●

We chose this cultivar for its non-stop flower power. Rich coral colored stems cut beautifully and rebloom readily. Ruffled foliage is complimented with white-veiled purple leaves. Reblooms best in more sun. Hummingbird and butterfly favorite. Zone 4.

Heuchera 'Marmalade' (Coral Bells) h 16" w15" ●●

Deep golden upper leaves have a hot pink reverse! Ooh! Narrow spikes of greenish white flowers contrast nicely with the foliage. Zone 3.

Heuchera 'Obsidian' (Coral Bells) h 24" w16" ●●

A deep black coral bell with shiny broad leaves. A good contrast plant for any garden sun or shade. Plant a clump near your *Dicentra* 'Gold Heart.' Zone 4.

Heuchera 'Stainless Steel' (Coral Bells) NEW! h 8-12" ●●

Dazzling platinum leaves and thin dark veins mature to sea foam green with eggplant-purple undersides. More sun creates a mauve appearance. Creamy white bells on strong 18" stalks make a sturdy cut flower. Zone 4.

Heuchera americana 'Plum Pudding' (Coral Bells) h 8" w26" ●●

Dark purple leaves with delicate silvery marbling and pink flowers. Spreading clump form. Blooms June and July. Zone 3.

Perennials

Heuchera sanguinea 'Ruby Bells' (Coral Bells) h 8-12" w12" ○●

Brilliant red flowers burst boldly above scalloped semi-evergreen leaves. Durable blooms in early summer with a subtle sweet fragrance. Zone 3.

Heuchera villosa 'Carmel' (Coral Bells) h 10" w12-14" ●●

Beautiful large caramel-gold foliage with a rosy red underside. Great heat tolerance and vigor. Creamy flowers in July and August. Zone 4.

Heuchera x 'Miracle' (Coral Bells) h 8-10" w12-14" ●●

New leaves are chartreuse with reddish purple in the center. Mature leaves are brick red with a chartreuse-to-gold edge and silver undersides. Pink flowers. Zone 4.

Heucherellas

Heucherellas combine the fun foliage of Heucheras with the great spring spires of Tiarella blooms. A cross that yields a vigorous, long-blooming plant.

Heucherella 'Brass Lanterns' (Foamy Bells) NEW! h 20" w24" ●●

Center stars of spicy red edged in brassy gold provide luminous spring color. Leaves turn to red and bronze as summer heats up. Best color contrasts in shade. Outstanding vigor. Zone 4.

Heucherella 'Burnished Bronze' (Foamy Bells) h 8" w14" ○●

A cross of the best characteristics of a bronze-leaved heuchera and a floriferous, long-blooming pink tiarella. Versatile, vigorous and hardy. Zone 4.

Heucherella 'Kimono' (Foamy Bells) h 10" w12" ○●

Adorable mounding plant with uniquely shaped crinkly silver-green leaves and veins of velvety deep brownish purple. Tawny tiny star shaped flowers appear on airy 12" panicles. Nicely vigorous. Blooms May-July. Zone 4.

Heucherella Solar Eclipse' (Foamy Bells) NEW! h 10" w16" ○●●

Save space for this dramatic addition. Reddish brown leaves and a scalloped lime green border. Exceptional vigor. Zone 4.

Heucherella 'Solar Power' (Foamy Bells) h 12-16" w20"

A very vigorous golden chartreuse leafed variety. More tolerant of the sun than other gold cultivars. In full shade, leaves show more chartreuse than gold. Vivid red markings splattered around the leaf. Creamy white flowers.

Heucherella 'Sweet Tea' h 20" w28" ●

A sensational variety! Rusty red foliage with a lighter orange border. Good vigor. Great for containers or the part-shade garden. Heuchera villosa breeding enhances vigor and hardiness. Good heat and humidity tolerance, too. Zone 4.

Hosta 'Appletini' (Plantain Lily) NEW! h 6" w14" ●●

Adorable mini emerges with a bright yellow mound that turns apple green by July and sports pale purple flowers on 9" scapes in August. Leaves are wavy, smooth textured and glossy. Medium to fast growth rate. Zone 4.

Hosta 'Blue Angel' (Plantain Lily)	h 24-36"	w24-36"	●●
The largest blue variety with an attractive tiered form. Heavy texture with white blossoms in mid summer. Leaves as wide as 18". Moderate grower. Zone 3.			
Hosta 'Blue Mouse Ears' (Plantain Lily)	h 8"	w12"	●●
Petite blue beauty with fragrant lavender blooms over thick, rounded ear-like foliage. A favorite miniature that was the 2008 Hosta of the Year. Zone 3.			
Hosta 'Camelot'	h 14"		●●
Intense blue heart-shaped leaves with corrugation and substance. A stunning specimen in the small-to-medium size range. Zone 3.			
Hosta 'Dragon Tails'			●●
Miniature bright yellow lanced-shaped leaves have a slightly rippled edge. Retains its bright yellow even in the shade. Zone 2.			
Hosta 'Earth Angel' (Plantain Lily)	h 36"	w36"	●●
2009 Hosta of the Year. Similar to 'Blue Angel' in form and size but with a wide irregular creamy border and soft lavender blooms. Leaves can grow to 30" long. Good slug resistance. "Say you'll be mine." Zone 3.			
Hosta 'Faith'	h 15"		●●
Golden mound of corrugated, round, dinner plate sized leaves. Zone 2.			
Hosta 'Guacamole' (Plantain Lily) RENEW!	h 24"	w54"	●●
One of our favorites! Fast grower with gold centered, slightly oblong leaves with green margins. Color becomes more intense as the season progresses. Fragrant pale lavender blossoms on tall 38" scapes. Hosta of Year in 2002. Zone 4.			
Hosta 'Hotspur'	h 12-14"		●●
Upright creamy-yellow leaves with a wide green edge. Long pointed leaf form. Slower to size up. Red petioles, lavender flowers. From Ian Chrystal of England. Zone 3.			
Hosta 'Invincible' (Plantain Lily)	h 20"	w38"	●●
Sun-tolerant variety with deep glossy green leaves topped with fragrant lavender blossoms in late summer. Very fast growing. Zone 3.			
Hosta 'Komodo Dragon'	h 36"	w72"	●●
WOW! If you want size, here it is! Heart shaped leaves can create a 6' wide clump with 4' flower scapes. Pale lavender flowers appear in early summer. Zone 3.			
Hosta 'Lakeside Jazzy Jane' (Plantain Lily) NEW!	h 17"	w38"	●●
Corrugated and rounded rich green leaves with ¼" - ½" irregular white margins. Strong contrast with medium growth rate and near white flowers on 30" scapes. Leaves have a pleasing sheen. Zone 4.			
Hosta 'Orange Marmalade' (Plantain Lily) NEW!	h 20"	w45"	●●
Beautiful golden centers when emerging surrounded by wide blue-green margins. Center color lightens throughout the summer in higher light settings. Pale lavender flowers in mid-July through August. Brighter mound of color than parent 'Paul's Glory'. Medium growth rate. Zone 4.			

Perennials

Hosta 'Paradigm'	h 24"	w48"	●●
Corrugated chartreuse leaves turn bright yellow. Borders look as if they were painted with a brush stroke of medium to dark green. Zone 2.			
Hosta 'Peanut' (Plantain Lily)	h 6"	w12"	●○
As in "a cute little peanut," this miniature has heavily corrugated dark blue-green leaves with a creamy white center. Zone 3.			
Hosta 'Pineapple Upside Down Cake' (Plantain Lily)	h 15"	w50"	●●
Fabulous pineapple-colored foliage emerges pure green. The margins are almost black. Lavender flowers on tall scapes in August. A sweet treat as a ground cover. Zone 3.			
Hosta 'Stained Glass' (Plantain Lily)	h 15"	w30"	●●
Lofty 10" brilliant gold leaves with wide, dark green margins. Fragrant, pale lavender flowers. Zone 4.			
Hosta 'Sum and Substance'	h 33"	w60"	●●
Chartreuse leaves become gold as season progresses. In deep shade it will remain chartreuse. Medium-to-fast grower will quickly become a big, bold presence in your shade bed. Zone 3.			
Kirengeshoma palmata (Yellow Waxbells)	h 36-48"	w36"	●○
Bell-shaped 1½" yellow flowers above soft green maple-type leaves with reddish stems. Although late to bloom it's worth the wait. Great in a woodland garden. Interesting seed pods, too. Zone 4.			
Lathyrus vernus (Spring Bush Pea)	h 12"	w12"	○●●
An extremely durable early flowering legume with rosy purple sweet pea-like flowers. That first spring blast of color. Pointed leaves form pinnate foliage, a bit like a Jacob's Ladder. Drought resistant. Zone 4.			
Leucanthemum 'Banana Cream'	h 15"		○
Loaded with blooms of 4" lemon yellow daisies. An additional row of petals gives an even fuller appearance. Blooms all summer. Cut flowers will last two weeks. Zone 5.			
Leucanthemum x superbum 'Becky' (Shasta Daisy)	h 24-36"		○
Big, single white flowers in June-July. Shiny deep green foliage. Long-lived and hardy. Zone 4.			
Leucanthemum x superbum 'LaCrosse'	h 10"	w10"	○●
Too cute! Quilled white petals surround a golden center. Extremely long blooming. Dwarf upright form. Zone 4.			
Liatris pycnostachys 'Eureka'	h 5'		○●
Tall dense spikes of deep rose-purple provide long lasting color. Excellent cut flower bred and selected from prairie natives. Unlike other Liatris this one is found in damp prairies so it doesn't like to be dry. Zone 4.			

Liatris spicata 'Floristan violet' (Marsh Blazing Star) h 36-48" ○

Long-stemmed lilac spikes over grass-like, strap-leaved foliage. Good cut flower. Zone 3.

Ligularia 'Dragon's Breath' h 13" w22" ○●

A compact plant with deeply cut 'dragon-fire' shaped leaves of deep green with purple-black stems sporting spires of golden-yellow blooms in summer. The small size lends itself to containers and smaller gardens where the species might overwhelm. Zone 4.

Ligularia dentata 'Britt Marie Crawford' (Bigleaf Goldenray) h 36-40" w16" ●●

Darkest of the Ligularias with dark rounded glossy chocolate-maroon leaves with dark purple undersides. Loves the damp shade garden. Golden-yellow daisy-like flowers, sturdy spikes through July and August. Keep moist. Zone 3.

Ligularia dentata 'Osiris Fantaisie' h 10-20" w24" ○●

Large heart-shaped dark green leaves with a pleasing burgundy underside. Yellow daisy-like flowers in mid summer to late summer. Needs moist soil. Zone 3.

Lilium Asiatic

Easy-to-grow, compact, summer-blooming lilies with large showy flowers in luxurious colors, sturdy straight stems, high bud count. Best planted in groupings.

Lilium 'Tango Passion 4 You' (Asiatic Lily) NEW! h 16-18" ●

Sensuous salmon petals with speckled burgundy centers. An elegant and unique color combo. Tons of blossoms on a compact form. Lovely cut flower, too. Zone 3.

Lilium 'Tiny Bell' (Asiatic Lily) NEW! h 14-16" ●

Bright pink petals painted with golden yellow centers. Dwarf habit with oodles of blossoms. Perfect for containers, the garden or cutting. Zone 3.

Lilium 'Tiny Orange Sensation' (Asiatic Lily) NEW! h 14" ●

Brilliant orange blossoms with burgundy speckles in the center. Bright color for the part shade garden. Loads of blossoms. Zone 3.

Lilium 'Tiny Padhye' (Asiatic Lily) NEW! h 16-18" ●

A striking contrast of white with large burgundy brushstrokes in the center of the flower. A little taller than the other Tinys. Loads of blossoms. Gorgeous in a pot, the garden or your favorite vase. Zone 3.

Lilium 'Tango Passion Push Off' h 24" ●

Large flowers with wide range of colors including maroons, reds, purples to creamy white. Reddish pigmented stems and blue-green mounded foliage. Zone 3.

Linum hypericifolium NEW! h 15" w16-18" ○

Surprisingly large pink blossoms accented with darker veins. Pleasing robust habit featuring soft needle-like foliage. Zone 4.

Linum perenne nanum 'Saphyr' (Blue Flax) h 10-15" ○

Soft blue flowers on arching dwarf stalks. Airy texture with needle-like leaves. Long bloom time in early summer when the oriental poppies flower. Zone 4.

Perennials

-
- Lobelia cardinalis 'Fried Green Tomatoes'**
(Cardinal Flower) h 30-36" w24-30" ○
- This cultivar is so vigorous that even newly planted specimens may have 25-30 blooming stems of rich, tomato-red blossoms in mid to late summer. How many hummingbirds can one plant support? Foliage emerges maroon and ages to dusky olive green. Loves moist soil but will survive somewhat drier conditions. Zone 4.
-
- Lupinus coronaria 'Morello Cherry' (Lupine)** h 36-48" ○●
- Large stalks of rich cherry red flowers that will brighten up any landscape in the spring and early summer. Will bloom in the first year. Zone 5.
-
- Lupinus polyphyllus 'Gallery Blue' (Lupine)** h 20-24" ○●
- Blooms in the first year with large royal blue blossoms. Tap root helps in times of drought, but resents transplanting once established. Zone 4.
-
- Lupinus polyphyllus 'Gallery Pink' (Lupine)** h 20-24" ○●
- First year blooming, compact selection in mid-pink, multiple blooming stalks per plant.
-
- Lupinus polyphyllus 'Gallery Red' (Lupine)** h 20-24" ○●
- A very compact form with red blossoms in June-August. Zone 4.
-
- Lupinus polyphyllus 'Gallery Yellow' (Lupine)** h 18" ○●
- A wonderful yellow lupine. Compact growth habit that would look great in any small garden. Excellent cut flower. Zone 4.
-
- Nepeta 'Walkers Low'** h 24-60" ○●
- Bluish purple flowers with gray-green foliage. Very long blooming from April-Oct. A classic! Zone 4.
-
- Nepeta sibirica 'Souvenir d'Andre Chaudron'**
(Catmint) h 24-36" w12-18" ○
- A hardy selection with larger blue flowers and more upright habit than the species. Abundant for most of the summer. Zone 4.
-
- Nepeta x faassenii 'Little Trudy'** h 8-12" w18-24" ○
- Silvery foliage with profuse lavender blooms. Low spreading, long blooming. Works well in containers or small spaces. Zone 4.
-
- Pachysandra terminalis 'Green Carpet'**
(Japanese Spurge) h 6-8" w18-24" ●●
- Rich glossy evergreen foliage. Lovely compact ground cover for shade with small white flowers appearing in spring. Zone 4.
-
- Papaver orientale 'Allegra' (Oriental Poppy)** h 16" ○
- Huge 6" black-eyed scarlet flowers in May and June on dwarf 16" plants. Fuzzy basal foliage goes dormant in heat of summer and reappears in autumn. Zone 4.

Papaver orientale 'Beauty of Livermere'
(Oriental Poppy) h 36-48" w36" ○
 Giant crimson blooms with black-marked centers up to 8" across. Clump-forming fuzzy foliage goes dormant in summer's heat and regenerates in Autumn's cool. The classic poppy from grandma's garden. Zone 4.

Papaver orientale 'Konigin Alexandra'
(Oriental Poppy) h 18" ○
 Striking salmon pink blooms with black centers, fuzzy basal foliage goes dormant in heat of summer, reappears in autumn. Zone 4.

Penstemon grandiflorus 'War Axe' h 24-36" ○●
 An exceptional native strain discovered near the War Axe Wildlife Management Area in Nebraska. Reddish stems clad in tubular flowers of pink, maroon, red, purple and white. The waxy gray green foliage and attractive seedheads add structure to the garden long after the blooms have faded. MIDWEST GARDENERS NEED PENSTEMONS!!! Zone 3.

Perovskia atriplicifolia 'Little Spire' (Russian Sage) h 24" ○
 A must have! Compact erect habit with deep violet flowers, petite gray-green leaves, fragrant, long blooming. Blooms in July-Sept. Zone 4.

Perovskia atriplicifolia 'Superba' (Russian Sage) h 36-48" ○
 Lavender to blue blossoms with the classic look. Blooms Aug-Oct. Zone 4.

Persicaria amplex. 'Golden Arrow' h 18-24" w24-36" ●○
 Can't miss the mark with this vibrant golden green lance-shaped foliage. Keeps its color throughout the season. Slender spikes of crimson red flowers bloom late summer and make an excellent cut flower. Zone 4.

Persicaria amplexicaulis 'Firetail' h 36" ●○
 Large heart-shaped deep green foliage with slender bright carmine red flower spikes that continuing blooming summer through fall. Spreads nicely. A unique flower color. Zone 4.

Persicaria polymorpha (Fleece Flower) h 48-60" w48-60" ●○
 Great plant from Asia. White plumes with bushy, bold, clumping foliage. Blooms from May- September. Noninvasive but spreads to a large clump. Zone 4.

Petalostemon (Dalea) purpureum 'Stephanie'
(Prairie Clover) h 16" w12" ○
 An adorable selection from the native Prairie Clover featuring conical lavender purple flowers on compact, sturdy stems and attractive dark foliage. Bred at the University of Nebraska. Zone 4.

Phlox divaricata 'Mary Helen' (Woodland Phlox) h 12-15" w12-20" ●●○
 Vigorous indigo flowers softly streaked with deep magenta in mid to late spring. The foliage looks beautiful all season. Zone 4.

Perennials

Phlox paniculata 'David' (Garden Phlox) h 36-48" w36" ○●

Remarkable, clear bright white flowers. Highly mildew resistant and very fragrant selection. Upright habit. Blooms July-August. Zone 4.

Phlox paniculata 'Peacock Purple Bicolor' NEW!

Reddish lavender blossoms with a clear white eye. Bred to be a bit more compact with disease resistance.

Phlox paniculata 'Peacock White' NEW! h 14-21" w14" ○

An award winning upright that is compact with clear white clusters of fragrant flowers. Bred for disease resistance and heat tolerance. Zone 4.

Phlox paniculata Sherbet Cocktail' h 30" w15" ○●

Yellow-green buds emerge from chocolate burgundy bracts and open to soft pink with creamy yellow edges. Fragrant blooms from June through August. Zone 4.

Phlox paniculata 'Wendy House' h 18-24" w12-24" ○●

Large clusters of fragrant, dark fuchsia-purple flower heads that bloom through the season. Compact, clean and mildew resistant. Zone 4.

Phlox subulata 'Emerald Blue' (Creeping Phlox) h 4-6" w12" ○●

Clean blue blossoms on evergreen mats of needle-like foliage. Blooms in early spring. Can't get enough of this early spring color. Zone 2.

Physostegia virginiana 'Crystal Peak White'

(Obedient plant) h 15" w10" ○

Fleuroselect Gold Medal winner. Self cleaning sparkling white flower spikes do not fade or brown with age. Outstanding compactness and uniformity works very well as a mass planting or in a mixed container. Flowers quickly and all season long. Sturdy, erect form. Zone 2.

Polemonium 'Stairway to Heaven'

(Variegated Jacob's Ladder) h 12-15" w15" ●●

A must have! Fantastic foliage with contrasting cream and green variegation. Leaf margins tinged pink in cool temps. Bell-shaped, soft blue flowers in May-June. Larger leaves and more vigor than other varieties. Tolerates heat and drought once established. Blooms in May and June. Zone 4.

Polemonium 'Touch of Class'

(Variegated Jacob's Ladder) h 14" w18" ●

Finely textured green leaves with a narrow white edge. Unlike 'Stairway to Heaven', it will retain its silvery appearance throughout the summer. Pink buds open to pale blue blossoms in spring to midsummer. Zone 3.

Polemonium yezoense 'Bressingham Purple'

(Jacob's Ladder) h 15" ●●

Striking purple foliage and elegant purple-black stems showcase its deep blue flowers. Deeply cut foliage is neat and attractive. Needs cool moist light shade. Blooms May and June. Zone 4.

- Polygonatum humile** h 6-9" ●●
A charming dwarf Solomon's Seal makes a uniquely delightful addition to a woodland garden. Dainty white flowers. Upright habit. Will spread evenly over time. Zone 5.
-
- Polygonatum japonica variegatum**
(Variegated Solomon's Seal) h 18-24" w36" ●●
Vivid plant with leaves edged creamy yellow turning white. White flowers dangle under softy arching stems. Fast spreading. Beautiful plant in shady borders or woodland gardens. Early spring blooming. Zone 3.
-
- Polygonatum x 'Prince Charming' NEW!**
(Solomon's Seal) h 8-12" w24-36" ●
Beautiful arching stems of blue-green leaves. In the spring this plant has creamy white flowers. During the summer green berries appear and turn purple in the fall. Fall foliage is a golden yellow. Zone 3.
-
- Porteranthus 'Pink Profusion' (Bowmans Root)** h 24-30" ●●
Loads of delicate pink fairy flowers sitting lightly on red stems and reddish leaves. Blooms late spring. Drought tolerant once established. Zone 4.
-
- Pulmonaria 'Moonshine' (Lungwort)** h 16" w12" ●●
Silver white leaves shimmer on this more compact Pulmonaria. A thin edge of green lines each leaf. Small pale blue tubular shaped flowers appear in early spring. Zone 4.
-
- Pulmonaria 'Raspberry Splash' (Lungwort)** h 12" w25" ●●
A profuse bloomer with small tubular raspberry coral flowers. Attractive spotted foliage sets off the blossoms. Deer resistant. Zone 3.
-
- Pulmonaria 'Trevi Fountains' (Lungwort)** h 12" w25" ●●
A brightly spotted beauty which forms large clumps with profuse clusters of cobalt-blue flowers. Zone 4.
-
- Pulmonaria longifolia 'Diana Clare' (Lungwort)** h 8-12" ●●
Mounds of narrow leaves start out with specks of silver and as the season progresses leaves become covered with a silver patina. Vibrant violet blue flowers bloom late spring then transition to purple-pink. Zone 3.
-
- Pulsatilla vulgaris 'Blue Bells' (Pasque Flower)** h 8-10" ○
Selection of the native pasque flower. Deep violet purple blossoms above finely divided pinnate foliage covered with soft hairs. Earliest to bloom in April and May. Zone 4.
-
- Pulsatilla vulgaris 'Red Bells' (Pasque Flower)** h 8-10" ○
Selection of the native pasque flower. Bright red blossoms top finely divided pinnate foliage covered in soft hairs. Blooms in April and May. Zone 4.
-
- Rodgersia henrici (Rodger's Shield)** h 36-48" w36-48" ○●
Large purple palmate leaves when young. Blooms with tall reddish purple spires. A dramatic specimen in the shade garden once established. Zone 4.

Perennials

Rodgersia pinnata 'Elegans' (Rodger's Shield) h 35-47" w35" ●○

An elegant large-leafed perennial for moist shade. Adds dramatic form to the garden throughout the season with a mid-summer show of elegant airy soft pink to ivory plumes. Needs consistent moisture to thrive. Zone 4.

Rudbeckia fulgida 'Goldsturm' h 24" w18" ○●

Dozens of 3-4" flowers equal long bloom time. Branching bush always looks neat and tidy. Bred from prairie natives. Golden yellow slightly drooping daisy-like bloom with black cone on short stalks above slightly fuzzy foliage. Longer-lived than R. hirta selections. There's a reason, it's a classic! Zone 3.

Rudbeckia laciniatum 'Goldquelle' h 30" ○●

A double Rudbeckia! Double yellow pom-pom flowers with attractively cut foliage. A tall plant with great late summer appeal. Zone 4.

Natives

Perennial & Native Grasses—4½" Deep Pots

Rudbeckia triloba 'Prairie Glow' h 5' w3' ○●

Strong, upright garnet stems hold a profusion of 2 1/2" gold and burgundy flowers. The plants we trialed this summer sold like hotcakes. Easy to grow, long blooming with deadheading. Zone 4.

Rumex sanguineus ssp. sanguineus (Bloody Sorrel) h 12-18" w12" ○●

Eye-catching ornamental sorrel with large pointed foliage and striking purple-red venation. Stays in a neat clump. An eye catching variety. Young leaves are tender and can be used like spinach. Use as a foliage accent in mixed containers, too. Zone 4.

Salvia nemorosa 'Caradonna' h 24-30" w12-18" ○

Our favorite! Rich violet blue flowers with very dark purplish black stem. Great in bouquets. Blooms June-July. Reblooms with deadheading. Zone 3.

Salvia nemorosa 'May Night' h 18" w24-36" ○

Dark violet-blue spikes over gray-green foliage. Rebloom all summer with deadheading. Very easy to grow. Works well as a cut flower. Attracts butterflies and hummingbirds. Blooms May-June. Zone 3.

Salvia verticillata 'Purple Rain' h 18-24" w16" ○●

Bushy, carefree plants with long arching stems of smoky purple flower spikes. Will flower July through frost with deadheading. Zone 4.

Sedum

A large genus of over 400 species which vary wildly in habit and habitat. Most are from mountain ranges in the northern hemisphere and are tough succulents. Our collection includes groundcovers, upright types and mounding selections.

Sedum 'Autumn Fire' h 18-24" ○●

Improved 'Autumn Joy' with thicker stems and more consistent, longer holding blooms. Easy to grow and drought tolerant. Blooms Aug-Sept. Good upright habit. Zone 3.

Sedum 'Matrona' h 18-24" ○●

Shiny red stems with pale pink flowers that turn chocolate-brown in winter with deep grey leaves. A sturdy, upright habit. Blooms August. Zone 3.

Sedum 'Mr. Goodbud' h 17" ○

A wonderful upright, compact sedum. Beautiful contrasting colors between light buds and dark mauve flowers. Preferred plant by our local high flying honey bees. Zone 4.

Sedum 'Novum' h 12-15" w12-15" ○

A cross of the popular 'Autumn Joy' and the rich colored 'Purple Emperor' produced this compact dark leaved variety. Rich rosy purple blossoms in late summer. Great for bees, butterflies and cutting. Zone 4.

Sedum 'Red Cauli' h 14-18" ○

Upright arching mound of gray-green leaves become tinged with red as season progresses. Deep red stems are topped with clusters of pale pink buds opening to bright pink then aging to deep red. Zone 3.

Sedum 'Sunset Cloud' () h 12" ○●

Arching, steel blue foliage with clusters of wine red flowers. Slightly sprawling habit makes it ideal for the edge of border or rock gardens. Blooms Aug and Sept. Zone 4.

Sedum 'Thundercloud' h 8-10" w10" ○

Chosen for our list because of the attractive and unusual light green, highly dissected foliage and charming white stars floating above. Blooms in late summer. Adorable rock garden plant. Zone 4.

Sedum 'Xenox' h 15-18" ○

Gorgeous foliage is purplish-green in the spring turning to a rich reddish-purple in the summer with rosy-pink flowers in August. The color is more intense when grown in hot and dry conditions. Zone 3.

Sedum 'Hab Gray' h 20" w18" ○●

An unusual upright form with rigidly arching bluish foliage, graced with clusters of pink flowers starting in late July. Zone 4.

Sedum 'Mediovariegatum' h 12" w18" ○●

An extremely attractive variegated upright with green leaves splashed with creamy yellow markings and topped with pale pink flowers. Zone 3.

Perennials

Semiaquilegia ecalcarata	h 12-16"	w8"	●
Defines the word "cute." It's a tiny columbine, complete with dainty, airy foliage and adorable, spurless, nodding ½" blooms in burgundy-violet. From Western China. Zone 5.			
Sempervivum 'Cobwebs Buttons' (Hens & Chicks)	h 4"	w6"	○
Gray threads weave over the tips of pale green mounded rosettes giving it a cobwebbed appearance. Use in containers and rock gardens. Zone 3.			
Sempervivum 'Sanford Highbreds' (Hens and Chicks)	h 12"	w12"	☺
Emerges deep red in spring and turns dark green with red tips as the season progresses. Foliage turns red again in the fall for an added bonus. Pink star shaped flowers with red bracts appear on tall red stems in mid summer. Zone 2.			
Sempervivum 'Twilight Blues' (Hens & Chicks)	h 2-4"	w4-8"	○
Large rosettes of dusty green with lavender tips that change to a rose purple in the summer. Loves it hot, dry and sunny. Zone 3.			
Sempervivum arachnoidium 'Kalinda' (Hens & Chicks)	h 2-8"	w4-8"	○
Large succulent leaves in tight green heads with blood red tips. Zone 5.			
Sempervivum species 'Royal Ruby' (Hens & Chicks)	h 3-4"	w4-8"	○
Dark burgundy-red pointed leaves form a dense mat. Use in mixed succulent containers as well as the garden. Zone 3.			
Sempervivum species 'Silverene' (Hens & Chicks)	h 3-4"	w12"	○
Rosettes of sharply pointed, silvery green leaves that are reddish-purple at the base. Very unique deep pink flowers in midsummer. Zone 4.			
Solidago 'Fireworks' (Goldenrod)	h 36"	w24"	○
The fall garden sparkles with these long blazing yellow flower panicles arching over attractive green foliage. Zone 4.			
Stachys 'Helene Von Stein' (Lamb's Ear)	h 8-10"	w24"	○●
Large silvery, woolly foliage with lavender spikes. Vigorous and great looking. Tolerant of heat and humidity. Prefers well drained soil. Zone 4.			
Stachys monnierei 'Hummelo'	h 18-24"	w18-24"	○●
Basal rosettes of textured, somewhat glossy scalloped foliage with rosy lavender spikes. Easy to grow in containers or the garden. Blooms mid summer. Zone 4.			
Stachys officinalis 'Pink Cotton Candy' (Betony)	h 12-14"	w21"	○●
This cultivar resembles 'Hummelo' with its attractive scalloped green foliage but with plump wands of pink flowers. Very drought tolerant and easy to grow. Blooms mid summer. Great for bees and butterflies. Zone 4.			
Syneilesis aconitifolia NEW! (Shredded Umbrella Plant)	h 18-24"	w12-24"	●
Woodland garden. In early spring white woolly leaves emerge from the ground and unfold like an umbrella. By midspring the leaves have a brilliant texture and serrated margins. Then in the summer 3' pink flower stalks appear. Zone 4.			

Thalictrum petaloideum NEW! h 12" ●
Clean white umbels atop blue-green pinnate foliage. Zone 4.

Tiarellas (Foamflower)

Long blooming with cheery pink, white or coral foamy spires in spring, these cultivars brighten shady spots throughout the summer. The variations in foliage make them fun collector plants - some are clumpers, some runners. They are versatile and easy to grow.

Tiarella 'Delaware' (Foamflower) h 6" w18-24" ●●
Running form of tiarella with superior vigor. Largest leaves with subtle purple markings darkening in cool weather. Prolific deep pink blooms will last for weeks. Zone 4.

Tiarella 'Spring Symphony' (Foamflower) h 7" w10" ●●
This charming woodland plant is noted for its clump forming habit, long lasting soft pink blossoms and red central markings on lovely cut leaves. We especially enjoy the extremely long bloom time of this shade-loving beauty. Grow in moderately moist soil. Zone 4.

Tiarella cordifolia 'Running Tapestry' (Foamflower) h 10-12" w24" ●●
Vigorous groundcover with deeply cut red-speckled foliage and long lasting white flowers. Blooms in early summer. Zone 3.

Tiarella polyphylla 'Filigran' (Foamflower) h 6-12" w12" ●●
Very delicate appearance with mounds of charming puckered foliage, reblooming habit with sprays of tiny pinkish white blossoms on reddish stems. Airy presence brightens shade planting. Clump forming, spreads by stolons, not invasive. From the Himalayas. Zone 5.

Tiarella x 'Pink Skyrocket' (Foamflower) h 6" w12" ●●
One of the longest blooming varieties that we have grown. Beautiful pink plumes cover clumps of attractive foliage. Clump forming. Zone 4.

Tricyrtis (Toad Lily)

Toad lilies are one of last treasures of our gardening season with their small orchid-like blooms illuminating the fall shade garden. Some upright, some arching. Plant them close to where you walk to appreciate their delicate appearance.

Tricyrtis 'Samurai' (Toad Lily) h 18" ●●
Green leaves with creamy, almost gold edges. The flowers are in clusters and purple, with dark purple spotting and yellow throats. Zone 4.

Tricyrtis 'Tojen' (Toad Lily) h 24" w36" ●
Fall blooming beauty with unspotted orchid lavender and white flowers. A Japanese hybrid with larger glossy green foliage than other toad lilies. Vigorous growth habit. Zone 5.

Natives

Trollius

Globe flowers shine in part sun to shade. Blooms of orange to golden to bright yellow draw your eye into the shade garden. Buttery blooms are interesting in shape. Can't wait to see them blooming next spring. They love a moist, rich soil.

Trollius cultorum 'Lemon New Moon' (Jellito) NEW!

(Globehflower)

h 24"

w18"

Unique creamy yellow globe shaped blossoms top strong stems. Lovely deep green foliage. Absolutely charming appearance. This variety is vigorous and will grow in some shade. Zone 3.

Trollius x cultorum 'Earliest of All' (Globe Flower)

h 24-36"

Golden orange flower globes, nice foliage, blooms earlier than other varieties in May and June. Zone 3.

Vernonia glauca 'Iron Butterfly' (Ironweed)

h 36"

w36"

A beauty from the University of Georgia. Lovely fine textured foliage resembles Amsonia hubrectii but covered in true purple flowers late in summer. Great for butterflies. Very tolerant of hot dry locations but will withstand periods of inundation. Zone 4.

Veronica 'Christy'

h 6-9"

A small border plant with short spikes of violet blooms and a white eye provides an endless supply of color. Fernlike foliage in neat tight mounds. Zone 5.

Veronica 'Eveline' (Speedwell)

h 20"

w12-16"

A taller speedwell with gorgeous dense purplish red flower spikes, a superb cut flower. Foliage turns red in cool temperatures. Likes evenly moist conditions and average soil. One of our staff favorites. Zone 4.

Veronica 'Fairytale'

h 16"

Pale pink flowers with protruding rich rose stamens that give a bicolored appearance. Great for attracting bees and butterflies. Foliage on this cultivar looks great from top to bottom. Zone 4.

Amorpha canescens (Lead Plant)

h 30-36"

w60"

Slow growing woody shrub with long interesting leaflets and spiky clusters of tiny pea-like purple blooms with contrasting bright orange anthers. Dry to mesic prairie. Zone 2.

Andropogon gerardii (Big Bluestem)

h 4-8'

Impressive native of the tall grass prairies. Tolerant of a wide variety of conditions. Seed heads resemble the three toes of turkeys' feet. Stems have great red fall color. Zone 3.

- Aquilegia canadensis (Canada columbine)** h 24-36" w12" ●●
WOODLAND. The familiar woodland columbine seen around the upper Midwest. Red blooms with soft yellow corollas dancing on delicate stems above three-lobed foliage. Zone 3.
- Arisaema triphylum (Jack in the Pulpit)** h 12-30" w12-20" ●●
Prairie plant with sword shaped, blue-grey leaves and spiny margins. Many white spiky blooms in midsummer. Adds a unique textural element. A must-have for any backyard prairie. Zone 4.
- Asarum canadensis (Wild Ginger)** h 4-8" w10" ●
WOODLAND. Upward facing lilac to bright pink 1¼" blossoms with white at the center. Bushy plant with deeply cut foliage. A shower of pink in the late May woodlands. Zone 4.
- Asclepias incarnata (Marsh Milkweed)** h 36-60" w12-24" ○
Beautiful umbels of rose mauve flowers in mid-summer. Willow-like foliage. Great cut. Tall presence for the back of the border. Damp prairie. Zone 3.
- Asclepias tuberosa (Butterfly Weed)** h 12-24" w12-24" ○
Our most popular native. Bright orange-red flowers will attract butterflies in mid-late summer. Prefers sandy, dry soil. Huge roots help it survive droughts. Butterfly garden must-have. Zone 3.
- Bouteloua curtipendula (Side Oats Grama)** h 36" w12-16" ○
Tough native that tolerates sandy or gravely dry sites or heavy soils and low fertility. It is clump forming, useful in mass or meadow, with flowers that are nice enough to cut. Zone 4.
- Caltha palustris (Marsh Marigold)** h 12" w12" ○
WOODLAND. Brilliant yellow blooms with heart-shaped glossy foliage. Found along stream edges and boggy areas in the early spring. Best in very shallow water or moist area. A harbinger of spring. Zone 3.
- Carex pensylvanica (Pennsylvania Sedge)** h 8" ●●
This native is shade tolerant and resilient. A good lawn substitute and semi-evergreen with narrow blades. Loves oak woods. Zone 4.
- Carex plantaginea (Seersucker Sedge)** h 12" ●●
Shiny broad leaves with accordion-fold veins. Slowly spreading, good evergreen ground cover that tolerates moist conditions. Zone 4.
- Cassia hebecarpa (Wild Senna)** h 60-72" w36" ○
Tall prairie shrub topped with clusters of yellow pea-like blooms in mid-summer. Lovely pinnately compound leaves turn golden in autumn. A legume family member that fixes nitrogen in soil. Zone 4.
- Chelone glabra (White Turtlehead)** h 24-36" w24" ○●
Double-lipped white blooms do look like a turtle's head. Likes boggy soil in sun or part shade in a less damp spot. Nice color in late summer. Zone 3.

Natives

<i>Dalea purpurea</i> (Purple Prairie Clover)	h 12-36" w12-18"	○●
Broad corymb-like panicles of pinkish-purple blooms above whorled lance shaped foliage in late summer. Very tall and showy in the back of the border. Found in damp meadows and along streams in the Midwest. Zone 4.		
<i>Dodecatheon meadia</i> (Shooting Star)	h 8-16"	●●
Graceful, showy spring bloomer of magenta or white star shaped flowers held above large basal leaves. Plant in lightly shaded woodland or open woods. Zone 4.		
<i>Echinacea paradoxa</i> (Bush's Coneflower)	h 24-30" w18"	○
Golden yellow reflexed petals around rich brown cones. Narrow foliage. Blooms early summer. Zone 4.		
<i>Eryngium yuccifolium</i> (Rattlesnake Master)	h 36-48" w24"	○
Prairie plant with sword-shaped, spiny-margined, blue-grey leaves and many spherical white spiky blooms in mid-summer. Adds a unique textural element. A must-have for any backyard prairie. Zone 5.		
<i>Eupatorium maculatum</i> (Joe Pye Weed)	h 60-84" w36"	○●
Broad corymb-like panicles of pinkish-purple blooms above whorled lance-shaped foliage in late summer. Very tall and showy in the back of the border, found in damp meadows and along streams in the Midwest. Zone 3.		
<i>Geranium maculatum</i> (Wild Geranium)	h 20"	○●
WOODLAND. Upward facing lilac to bright pink 1½" blossoms with white at the center on a bushy plant with deeply cut foliage. A shower of pink in the late May woodlands. Zone 4.		
<i>Geum triflorum</i> (Prairie Smoke)	h 9-12"	○●
Many nodding rosy-pink flowers with feathery reddish seed heads above fuzzy pinnate basal leaves. Earliest spring color on the prairie and one of the most charming varieties. Zone 2.		
<i>Hepatica acutiloba</i> (Sharp Leafed Hepatica)	h 24-48" w6"	●
WOODLAND. Large leaves to 5" with sharp three pointed lobes. Blooms of white, blue or lavender. Prefers neutral to alkaline soil. Blooms in very early spring. Zone 3.		
<i>Lobelia cardinalis</i> (Cardinal Flower)	h 36"	○●
Blood-red blooms like tiny birds along long upright stems. Attracts hummingbirds. Grows in moist soil along creeks and ponds. Zone 4.		
<i>Lobelia syphilitica</i> (Blue Cardinal Flower)	h 36-48"	○●
Two-lipped irregularly tubular bright blue flowers in late summer. Grows in damp areas of native prairies. Zone 4.		
<i>Mertensia virginica</i> (Virginia Bluebells)	h 12-24"	●
Hundreds of 1-2" yellow blooms with brown, button-like centers. Bushy habit. Short-lived perennial will gladly self-sow. Very eye-catching in late summer. Zone 3.		

Mitella diphylla (Bishop's Cap)	h 6-16" w6-8"	●○
WOODLAND. Wonderful delicate spring bloomer of the northern woodlands. Mounds of spring-green, rounded foliage below upright stalks of tiny five-petaled, fringed, creamy white flowers. Airy "see-through" effect. Zone 4.		
Monarda fistulosa (Wild Bergamot)	h 24-60"	○●
Showy fragrant lavender blooms in mid-summer. Easy to grow. Attracts bees, and deer resistant. Zone 3.		
Penstemon grandiflorus (Large Flowered Beardtongue)	h 40"	○
Prairie plant with upright stems of tubular pinkish-blue blooms and stiff waxy bluish foliage. Tough as nails in a dry location. Hummingbird magnet. Zone 4.		
Podophyllum peltatum (May Apple)	h 18"	●
WOODLAND. Large umbrella-like glossy green leaves with down-turned white blooms. Grow in wet to dry soils. Works well as a groundcover for large areas and tough locations. Fruits make a tasty jelly. Blooms in spring. Zone 4.		
Ratibida pinnata (Grey Head Coneflower)	h 36-60"	○
Pinnate, toothed, bluish foliage. Bright golden rays twist around a darker disk that elongates to become a prominent cone through late summer. Drought resistant and good for naturalized plantings. From the central Great Plains. Zone 3.		
Rudbeckia triloba (Brown-eyed Susan)	h 48-60" w36"	○●
Hundreds of 1-2" yellow blooms with brown, button-like centers. Bushy habit. Short-lived perennial will gladly self-sow. Very eye-catching in late summer. Zone 3.		
Sanguinaria canadensis (Bloodroot)	h 8"	●
WOODLAND. Red stems with large translucent white blooms in earliest spring. Blue-gray leaves form clumps. Prefers moist, well-drained soil. A post winter joy! Zone 3.		
Schizachyrium scoparium (Little Bluestem)	h 2-4'	○
Tough prairie native with lovely blue tones. Incomparable winter beauty that thrives in poor, dry soils. Beautiful in a prairie or formal garden. Zone 3.		
Scrophularia lanceolata (Lanceleaf Figwort)	h 36-96"	○●
Local native with architectural silhouette and interesting buds. Petite pitcher-shaped blooms are a unique shade of coral pink. Zone 4.		
Spartina pectinata (Cordgrass)	h 5-7'	○
A tall, unbranched, sturdy, near-succulent looking grass. Prefers moist to wet conditions. Native to North America. Zone 4.		
Sporobolus heterolepsis (Prairie Dropseed)	h 36"	○
Native Americans believe this was the first plant to cover Mother Earth. Used by them for food, crafts and spiritual practices. Vanilla scent when dried. Zone 4.		
Trillium erectum red (Red Trillium)	h 24-48"	●●
Tough prairie native with lovely blue tones. This incomparable winter beauty thrives in poor, dry soils. Beautiful in a prairie or formal garden. Zone 4.		

Natives

-
- Trillium grandiflorum (White Trillium)** h 60-84" ●●
WOODLAND. What we endure the winters to see! Large white 3-petaled blooms that fade to a pink. One of the earliest to bloom in mid May. Zone 4.
-
- Trillium luteum (Yellow Trillium)** h 16" ●●
WOODLAND. Large, sweetly fragrant, 3-petaled yellow blooms which sit upon beautiful mottled leaves. Blooms in spring. Native to the southeastern US. Zone 4.
-
- Vernonia fasciculata (Common Ironweed)** h 36" ○
Great hot color for the back of the border in late summer when everything else blooms yellow. Dense rounded clusters of vivid magenta blooms atop erect stalks with pointed, finely toothed leaves to 6" long. Native habitat is damp prairies. Zone 4.
-
- Veronicastrum virginicum (Culver's Root)** h 48-72" w18-24" ○●
Outstanding vertical presence in the back of the border. Dramatic spikes of clean white flowers with showy gold stamens in a candelabra form, above whorled, pointed foliage. Blooms in July-August. Tough as nails and long-lived. From our Great Plains. Zone 3.
-

Ferns

Ferns—4½" Extra-Deep Pots

Adiantum pedatum (Five Fingered Maidenhair Fern) h 18" w30" ●●

A North American native which forms lovely clumps of graceful arching foliage with delicate segments on wiry stems. Deciduous foliage. Likes moist shade. Zone 2.

Athyrium angustum forma rubellum 'Lady in Red' h 24" w30" ●●

Vibrant bright red stems contrast with lacy green fronds. Stems become darker in the 2nd year and on. Very hardy and easy to grow. Zone 2.

Athyrium f. femina (Lady Fern) h 24" ●●

Graceful bright green fronds from 24-60" long. Prefers moist, rich soil. Zone 4.

Athyrium f. femina 'Dre's Dagger' (Lady Fern) h 18" w18" ●●

A different form of Lady Fern with thin deep green fronds, which are often criss-crossed, terminating with a small crest. Great for pots or woodland. Zone 4.

Athyrium f. femina 'Frizelliae' (Tatting Fern) h 12" w18" ●●

A delicate deciduous fern from Europe with unique narrow fronds and pinnae reduced to bead-like balls. An extremely fascinating texture. Zone 4.

Athyrium f. femina 'Lady in Lace' h 12" w12" ●●

Unique lacy fronds with a shape similar to parsley. Easy to grow. Grown for its unusual texture. Keep moist. Zone 4.

Athyrium f. femina 'Vernoniae cristatum' (Crested Lady Fern) h 18" w12" ●●

A selected crested fern form of the European Lady Fern. Noted for its elegant appearance and apple green foliage. Zone 4.

Athyrium niponicum 'Burgundy Lace' (Japanese Painted Fern) h 15" w12" ●●

A gorgeous painted fern with metallic burgundy leaves which will light up the woodland or shade garden. Zone 4.

Athyrium niponicum 'Pictum' (Japanese Painted Fern) h 8-20" w12" ●●

A deciduous spreading fern with beautiful triangular blades in shades of burgundy, red gray, and dark green. The best color is developed in cool light shade. Perennial Plant of the Year in 2004. Zone 4.

Ferns

Athyrium x 'Ghost' h 30-38" w30" ●●

A cross between the American Lady Fern and the Japanese Painted Fern. A strong tall-growing fern with ghostly gray-green foliage. Forms lovely clumps. A beautiful contrast with dark-foliage plants. Zone 3.

Dryopteris affinis 'Crispa gracilis'
(Golden-Scaled Male Fern) h 15" w15" ●●

A dwarf selection with an attractive congested form. Adaptable and will tolerate some sun. Zone 4.

Dryopteris erythrosora (Autumn Fern) h 18-24" w15" ●●

An Asian fern with arching evergreen foliage. The young fronds are glossy coppery pink. They become darker green as they mature. The triangular bipinnate fronds will hold their color all winter. Zone 4.

Dryopteris goldiana (Goldies Giant Fern) h 36-48" w24" ●●

The largest of our native *Dryopteris* from the cool moist woods of the Northeast. Makes an attractive stand of archy fronds that taper abruptly at the tip with shaggy brownish fiddleheads in the spring. Zone 3.

Matteuccia struthiopteris (True Ostrich Fern) h 36" w36" ●●

A vigorous tall vase-shaped fern from grandmother's garden. A native of northern North America. It appreciates constant moisture on the north side of the house but will grow easily in the woodland garden. Zone 2.

Onoclea sensibilis (Sensitive Fern) h 12-36" w24" ●●

A pale green fern with wide net-veined pinnulae. Erect with a creeping habit making it a good ground cover in moist areas. A native of North America, it is called sensitive because it will go dormant with the first frost. Zone 2.

Osmunda regalis reg. 'Purpurascens'
(Purple Royal Fern) h 24-60" w18" ●●

A stout erect fern from the swamps of Europe. This variety has purple stems with wide green pinnae. An attractive specimen in moist shade. Zone 2.

Polystichum acrostichoides (Christmas Fern) h 12-24" w36" ●●

A slender arching fern with evergreen foliage. A native of eastern North America used by early settlers for Christmas decorations, hence its common name. An easy-to-grow attractive fern. It will tolerate drier conditions than most ferns. Zone 3.

Thelypteris decursive-pinnata (Japanese Beach Fern) h 32" w16" ●●

A lush green fern from Japan. Attractive form with good vigorous growth habit. Forms large clumps in moist or dry shade. Zone 4.

Perennial Grasses

Perennial Grasses—4½" color-coded pots, 12 per flat

For Native Grasses - see Natives section, in previous pages

Calamagrostis arundinacea 'Eldorado' (Korean Reed Grass) h 48" ○●

Newer addition to the line of wonderful feather reed grass cultivars. Gold central variegation added to the leaves of C. 'Karl Foerster'. Upright clumps topped in late summer with narrow vertical plumes. Zone 4.

Calamagrostis x acutiflora 'Avalanche' (Feather Reed Grass) h 36" ●

This selection is an improvement on 'Overdam' with a cleaner variegation. A little shade from the hot afternoon sun is ideal. Zone 4.

Calamagrostis x acutiflora 'Karl Foerster' (Feather Reed Grass) h 3-4' ○

Strictly upright narrow clumps with narrow cinnamon colored blooms. A carefree and very popular selection as a screen, in masses or as an upright accent. Nice movement in a breeze. Even tolerates clay soils. Zone 4.

Carex morrowii 'Ice Dance' (Variegated Sedge) h 12" ●●

An extremely attractive ornamental for the shade garden. Wide, waxy cream and green variegated blades. Pleasing clumping habit. Tuck in among hostas or use as a border. Mulch for winter hardiness. Zone 3.

Carex muskingamensis 'Oehme'
(Golden Variegated Palm Sedge) h 20" ●●

Golden variegated leaves radiate like palm fronds that flop over and creep onward. This is a great dishevelled look with an overall upright form. Grows well in the shade garden. I'm sure Wolfgang Oehme is proud to have his name attached to this plant. Zone 4.

Chasmanthium 'River Mist' (Variegated Northern Sea Oats) h 24-36" ○●●

Stunning green and white variegated foliage makes a great specimen plant. Lovely dangling seed heads appear in late summer and last through the winter. Zone 5.

Deschampsia caespitosa 'Northern Lights' (Tufted Hair Grass) h 12" ●

A short and very pretty variegated grass. Fine blades are variegated with green and cream adding a pink tone in cool temps. No blooms. A cool season grass that has growth spurts spring and fall. Zone 4.

Perennial Grasses

Hakonechloa macra 'Aureola'**(Golden Variegated Japanese Forest Grass)****h 12-36"**

Graceful arching stems look great cascading out of pots or over walls. A large specimen will take your breath away. Its home area is cool and moist so it shade is required to make it through our heat. Zone 4.

Luzula sylvatica 'Auslese' (Greater Wood Rush)**h 8-12"**

Soft evergreen tufts are endearing with small hairs protruding from wide green blades. This plant thrives in moist shade. Useful under trees. Forms lush mounds. Zone 4.

Miscanthus sinensis 'Goldbar' (Porcupine Grass)**h 3-5'**

A dramatic upright tuft of green leaves banded horizontally with creamy yellow from bottom to top. Bands are closer together than other Miscanthus creating a very unique look. I always feel as if a tiny tiger could camouflage itself in this grass. Elegant burgundy blooms top the foliage in mid-fall. Slow growth initially. Works well in containers. Zone 5.

Miscanthus sinensis 'Purpureus'**h 5'**

Compact and very upright. Does require stable moisture conditions in the hottest part of the summer. Brilliant red-orange fall foliage. Spreads nicely. Zone 4.

Panicum virgatum 'Shenandoah' (Switch Grass)**h 2-3'**

Beautiful red tips in summer turning purple black in fall with red plumes. Slow growing but worth the wait. Zone 2.

Schizachyrium scoparium 'Blaze' (Little Bluestem)**h 2-4'**

Provides a stunning vertical effect when mass planted as well as beautiful fall shades of russets, reds and deep oranges. Zone 3.

Schizachyrium scoparium 'Blue Heaven' (Little Bluestem)**h 3-4'**

This cultivar is taller and more upright than typical Little Bluestem grasses. Foliage is dark blue to burgundy during the summer turning purple violet and then red in the fall. Delicate fluffy white seed heads appear in the fall. Zone 3.

Tree Peonies

Tree Peonies—Trade Gallons

We adore the fragrant large blossomed Japanese tree peonies and so must have them in our plant list. Quantities are limited so be sure to preorder.

Tree Peonies

Hardy, woody shrub with huge colorful blossoms, sturdy stem that need no staking, spectacular.

<i>Paeonia suffruticosa</i> 'Dark Red' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●
<i>Paeonia suffruticosa</i> 'Lavendar' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●
<i>Paeonia suffruticosa</i> 'Orange Kinkaku' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●
<i>Paeonia suffruticosa</i> 'Salmon Pink' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●
<i>Paeonia suffruticosa</i> 'Yellow' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●
<i>Paeonia suffruticosa</i> 'Maroon' Two-year-old grafted plants. Zone 4	h 5'	w4'	○●

Perennial Groundcovers

Perennial Groundcovers—Jumbo 6-packs

Affordable and delightful, our perennial ground covers offer your customers an attractive alternative for planting around pavers and borders or for erosion control. The long list of charming sedums work well planted in succulent containers or troughs, too, and have low water needs. Varieties for sun or shade applications are available.

Ajuga 'Black Scallop' (Bugleweed)	h 4"	○●
The blackest in color with uniform, ruffled leaves. Dark violet flower spikes. Zone 4		
Ajuga 'Burgundy Glow' (Bugleweed)	h 4"	●●
Foliage in shades of pink, silver & purple with blue flowers. Vivid pink foliage in spring. Zone 4		
Ajuga 'Chocolate Chip' (Bugleweed)	h 6"	●●
Sweet miniature. Dark chocolate elongated leaves. Blue blooms with low spreading habit. Spring blooming. Zone 4		
Campanula 'Bavaria Blue'	h 6"	○●
Blue bell-shaped blossoms cascade from delicate foliage. It's beautiful spilling over a pathway or in the rock garden. Zone 3		
Galium odoratum (Sweet Woodruff)	h 6-12"	●●
Sweetly fragrant with tiny white star-shaped flowers. Lovely fragrant green foliage. Blooms in May-June. Zone 4		
Lamiatrum galeobdolon 'Herman's Pride' (Yellow Archangel)	h 8-12"	●●
Foliage is green with a silver spotted overlay. Grows in difficult spots. Flowers sit above foliage and are a cheery yellow in late spring. Zone 4		
Lamium 'Ghost' NEW!	h 10-12"	●●
This tall variety has a mounding silver cloud appearance. The leaves are twice as long as most other lamiums making this a good cover to mask drying bulb foliage. Zone 4		
Lamium 'Purple Dragon' (Dead Nettle)	h 4-8"	●●
Silvery-white foliage with purple flowers. Zone 3		
Lamium 'Sensation' NEW!	h 8-12"	●●
Dark green leaves with narrow silver-white lance-shaped stripe running the length of the leaf. Fuschia blossoms. Zone 3		
Lamium 'White Nancy' (Dead Nettle)	h 6-8"	●●
Silver leaves with a narrow green edge. Charming white flowers. Blooms May-July. Zone 4		

Perennial Groundcovers

Lysimachia nummularia 'Goldilocks' (Moneywort)	h 4"	○●
Shiny round greenish gold leaves with bright lemon yellow blooms. Great for containers as a foliage accent or as a fast spreading ground cover. Zone 4		
Pachysandra terminalis 'Green Sheen' (Japanese Spurge)	h 8"	●●
Rich glossy compact evergreen foliage, white flowers appear in spring, quick spreading, deer resistant. Zone 4		
Phlox subulata 'Appleblossom' (Creeping Phlox)	h 4-6"	○●
Soft pink blossoms with darker pink centers. Needle-like foliage that persists through the summer. Zone 2		
Phlox subulata 'Millstream Daphne' (Creeping Phlox)	h 6"	○
Deep rosy pink flowers with a darker pink eye on dense needle-like foliage. Zone 4		
Phlox subulata 'Oakington Blue Eyes' (Creeping Phlox)	h 6"	○
Sky blue flowers in mid to late spring. Needle-like foliage of low spreading mats. Zone 4		
Phlox subulata 'Scarlet Flame' (Creeping Phlox)	h 6"	○
Beautiful glowing cerise blossoms in spring. Dense mat of foliage. Zone 4		
Phlox subulata 'White Delight' (Creeping Phlox)	h 4-6"	○●
Clear white blossoms in early spring. Zone 2		
Sagina subulata (Irish Moss)	h 3"	●
Charming rich green moss covered in tiny white blossoms. Use in containers or the shade garden, Zone 4		
Sagina subulata aurea (Scotch Moss)	h 1-3"	●
Chartreuse moss with small white blossoms. Use in containers or the shade garden. Zone 5		
Sedum 'Cape Blanco'	h 3-6"	○●
Mounding silvery gray foliage forms charming rosettes topped with yellow flowers. Blooms in mid- summer. Zone 5		
Sedum 'Ruby Mantle'	h 2-6"	○●
Eye-catching burgundy red foliage in a dense mat. Star-shaped blooms appear in mid summer. Zone 4		
Sedum album 'Coral Carpet' (Creeping Sedum)	h 1-3"	○
Tiny pinkish green foliage turns green in the summer. Forms a dense mat. Blooms with pale pink star-shaped flowers. Zone 4		
Sedum album 'Orange Ice' NEW!	h 1-2"	○
Well loved for its orange fall color this smooth bright-green sedum is one of the lowest growing. Fits well into cracks and crannies. White flowers appear midsummer. Zone 4		
Sedum dasyphyllum 'Major' (Creeping Sedum)	h 4"	○
Prostrate mats of tight blue foliage. Small white flowers. Zone 4		

Perennial Groundcovers

Sedum forsterianum 'Oracle'	h 4-8"	○
Attractive needle-like grayish blue foliage with large golden flower clusters in early to mid summer. Zone 3		
Sedum globosum 'Old Man's Bones' NEW!	h 3"	○●●
Short, chubby leaves stack on top of one another like an old man's vertebrae. Green leaves turn to red in the sun and intensify in color as the weather cools. Zone 4		
Sedum hakonense 'Chocolate Ball' (Creeping Sedum)	h 4-6"	○●
Steel gray to chocolate brown needle-like foliage highlighted with burgundy red in cool temps. Outstanding deep color. Zone 4		
Sedum humusifusum (Creeping Sedum)	h 1"	○●
Creeping stems bearing rosettes of tightly overlapped mid green leaves, aging to red. Bright yellow flowers as large as leaf rosettes. From Mexico. Very sweet! Zone 4		
Sedum kamtschaticum 'Weihenstephaner Gold' (Creeping Sedum)	h 4-9"	○●
Tight mats of serrated flat green rosettes which turn red in cool temps. Golden yellow flowers. An extremely reliable and fast spreading variety. Zone 3		
Sedum middendorffianum 'Striatum' NEW!	h 4"	○●
Slender 1" leaves quietly cover the ground with soft green needle-like leaves tinged in red. As the fall deepens the red color deepens. Yellow flowers in the summer. Zone 4		
Sedum reflexum 'Blue Spruce' (Creeping Sedum)	h 4-8"	○●
Dense mats of blue green pine-like foliage & yellow blooms. Nice textural element for mixed succulent containers, too. Zone 4		
Sedum requieni (Creeping Sedum)	h 1"	●○
Mats of ground hugging tiny green leaves are covered with yellow-white flowers in the summer. Zone 3		
Sedum rubens 'Lizard' NEW!	h 4-6"	○●
Trailing habit with bright chartreuse to yellow needle-like foliage similar in form to 'Blue Spruce'. Color changes to orange in fall. Zone 5		
Sedum rupestre 'Angelina' (Creeping Sedum)	h 3-6"	○●
Trailing habit with bright chartreuse to yellow needle-like foliage similar in form to 'Blue Spruce'. Color changes to orange in fall. Zone 4		
Sedum species 'Baby Tears' (Creeping Sedum)	h 1-2"	○●
Flat rosettes of the tiniest green teardrop shaped leaves & tiny white flowers. Zone 4		
Sedum spurium 'Fulda Glow' (Creeping Sedum)	h 4"	○
Lovely bronzey red foliage with rose-red flowers in summer. A reliable and fast spreading ground cover Zone 3		

Perennial Groundcovers

Sedum spurium 'Tricolor' (Creeping Sedum)	h 3-6"	○●
Softly variegated foliage is green edged with pink and cream. Pink flowers. Zone 4		
Sempervivum 'Cobweb Buttons' (Hens and Chicks)	h 4"	○
Gray threads weave over the tips of pale green rosettes. Charming and unique. Zone 3		
Sempervivum 'Silver King' NEW!	h 4-8"	○
Symmetrical rosettes of silvery-tinged green leaves, with a blush of red at the center intensifying as weather cools. Plant in sandy well drained soil. Loves a hot dry location. Zone 3		
Sempervivum 'Silverene' (Hens and Chicks)	h 4"	○
Silver blue rosettes with red overtones. Zone 3		
Thymus praecox 'Highland Cream'	h 2-4"	○
Adorable variegated cream and green small leaved variety. Blooms with soft pink flowers. Zone 4		
Thymus praecox coccineus (Red Creeping Thyme)	h 2-4"	○
Dense flat mat of dark green leaves with bright magenta-red flowers in midsummer. Zone 3		
Thymus praecox pseudolanguosus (Woolly Thyme)	h 1-3"	○●
Charming woolly grey foliage. Delicate looking, yet tough as nails. Zone 4		
Thymus serpyllum 'Elfin'	h 1-3"	○●
Mat-forming very tiny foliage forms a dense mat with whorls of purple blooms. Zone 4		
Thymus x 'Spicy Orange' NEW!	h 2-4"	○●
Prostrate needle-like foliage forms a carpet covered in soft pink flowers early summer. Gives off a fragrant scent of orange when touched. Can be used as a culinary herb with hints of allspice and orange flavor. Great for borders and rock gardens. Will take moderate foot traffic. Zone 4		
Veronica repens 'Waterperry Blue' (Creeping Speedwell)	h 3-6"	○●
Charming tiny light lavender flowers in early summer. Foliage takes on a lovely deep purple color when temperatures cool. Zone 5		
Vinca 'Illumination'	h 4-6"	●●
Striking golden yellow lance shaped leaves edged with green. Ground hugging mat brightens any shady spot. A classic as a container trailing accent plant. Zone 5		
Vinca m. 'Bowles Cunningham' (Periwinkle)	h 4"	●
Dazzling periwinkle blue flowers bloom spring to fall. Larger flowers than 'Bowles' Zone 5		
Vinca minor atropurpurea RENEW!	h 6-10"	●●
Large wine-purple flowers make a vivid contrast to mats of low growing dark green foliage. Longer bloom period than other vincas. Zone		

Vines

Annual Vines

Annual Vines—5½" Jumbo Squares

Annual vines are easy to grow and reward your customer with beautiful color all summer long. Give them a jump on the growing season with our large 5½" pots, staked and filled with vigorous plants.

Asarina 'Joan Lorraine' (Climbing Snapdragon) h 8-10' ○●

Small purple-blue tubular snap-like blooms cover this vine June through the summer. Attractive vigorous ivy-like foliage. Twining climber.

Asarina antirrhiniflora 'Red' NEW! (Climbing Snapdragon) h 3-6' ○

Dainty trumpet-shaped bright red blooms with yellow throats cover the twining ivy-like foliage with masses of flowers. Blooms summer through fall.

Asarina purpusii 'Victoria Falls' (Climbing Snapdragon) h 8-10' ○●

Vibrant 2" cerise trumpets with lime bracts and lovely grey green foliage. Works on a trellis or in a mixed container. Blooms mid-June to frost. Twining climber.

Cardiospermum halicacabum (Love in a Puff) h 10-12' ○●

Small white flowers followed by 1" light green balloon-like pods which age to light brown papery orbs in the fall. The seed pods and glossy deeply cut foliage are the highlights of this vigorous climber. Common name comes from the tiny white heart that appears on the black seed.

Clitoria 'Azul Petite' NEW! h 10-12' ○

Brilliant cobalt blue and white double flowers with a uniquely shaped blossom and large glossy dark green leaves.

Cobaea scandens 'Cathedral Bells' (Cup-and-Saucer Vine) h 15-20' ○●

Large 2" green cups changing to a lovely violet as they age. Late blooming but worth the wait! Loves the heat and is very fast growing. Works well for covering chain link or large fence. Native to Mexico. Tendril climber.

Dolichos lablab 'Ruby Moon' (Purple Hyacinth Bean) h 15-20' ○

Fragrant pink sweet pea shaped flowers. Large shiny, dark beet purple seed pods with purplish green leaves. A fast growing, very dense twining climber. We grew one on a pole in the greenhouse this year and it finished above the 14' gutter with a multitude of colorful pods. Thrives on heat and humidity.

Ipomoea noctiflora alba (Moonflower)	h 10-30'	○
Very fragrant, large waxy white flowers that open with a swirl in late afternoon. A classic for the white garden. Twining.		
Ipomoea purpurea 'Heavenly Blue' (Blue Morning Glory)	h 10-15'	○
Sky blue blossoms with heart shaped leaves. Truly a classic! Get a head start on blooming by planting these large, well-developed morning glories but watch out as they might climb in the kitchen window. Great vigor and beauty.		
Ipomoea purpurea 'Kniola Purple-black' (Purple Morning Glory)	h 8'	○
Heirloom variety. Rich, royal purple with a rose throat. The earliest to bloom and our best seller. Will be blooming before June 1 for a full summer of joyful color. Twining.		
Ipomoea purpurea 'Scarlet O'Hara' (Red Morning Glory)	h 8-10'	○
Rich deep red blooms with great climbing vigor. Good for trellis or fence. Twining.		
Ipomoea purpurea 'Sunrise Serenade' (Morning Glory)	h 10'	○
Very unusual, small, fully double ruby red flowers that resemble a small butterfly or bird. Heirloom variety. Twining.		
Ipomoea x multifida (Cardinal Climber)	h 10'	○
Scarlet red mini morning glory that has a deeper red throat. Small dark green deeply cut leaves. An absolute favorite for hummingbirds. Clings tightly to its support. More delicate appearance. Twining.		
Manettia bicolor (Candy Corn Vine)	h 3-4'	●○
Blossoms that resemble tubular candy corn in shades of orange and yellow. A fun novelty for small trellises, baskets or pots. More vigorous in shade.		
Mina lobata (Firecracker Vine)	h 10-15'	○
Easy to grow, arching sprays of 1" tubular flowers from yellow to orange. Large trilobed leaves quickly cover their support. Fast growth makes this an ideal choice for covering large trellis or fence. Native to Mexico. Twining habit.		
Phaseolus coccineus 'Scarlet Emperor' (Scarlet Runner Bean)	h 10-20'	○
Fast climbing bean with scarlet-orange blooms followed by glossy green pods. Blossoms profusely and vigorously all summer. Likes moist and fertile soil. Easy to grow.		
Rhodochiton astrosanguineum (Purple Bell Vine)	h 10'	●
Dusky pinkish maroon bell-shaped flowers with black clappers slightly resemble a fuchsia. Slower growing vine works well on smaller trellis. The blossoms are very unusual. Lovely draped over a wall or spilling over a deck.		
Senecio confusus (Mexican Flame Vine)	h 8'	○
Large glossy green leaves with fragrant orange-red daisy-like blooms with reflexed petals. Charming & long blooming. Loves the sunniest, warmest spot in the garden. A tender perennial in our northern climes.		

Annual Vines

-
- Thunbergia alata 'African Sunset' (Black-eyed Susan Vine)** h 10' ●●
Unique sunset shades of red, apricot & buff with dark eyes. Don't plant this too early 'cuz she doesn't like cool temps. Vigorous. Twining. Will grow in some shade.
-
- Thunbergia alata 'Alba Oculata'** h 8-10' ○●
Lovely clear white with a dark center. Very floriferous in full sun. Twining. Will grow in some shade.
-
- Thunbergia alata 'Arizona'® Dark Red' NEW!**
(Black-eyed Susan Vine) h 12' ○●
Flashy new color in Thunbergia- dark red with a dark center. Wow! Tongues will wag. Prefers warm nights to grow well.
-
- Thunbergia alata 'Sunny Lemon Star' (Black-eyed Susan Vine)** h 10' ●●
Lemony yellow single-petaled variety with a dark eye and a showy large flower size. Blooms all season. Twining.
-
- Thunbergia alata 'Sunny Susy Red Orange' NEW!**
(Black-eyed Susan Vine) h 12' ○●
Vivid orange single-petaled blossoms with red throats. No trouble with vigor here but wait to plant until night temps are over 50. Blooms all season. Twining.
-
- Thunbergia alata 'Superstar Orange' (Black-eyed Susan Vine)** h 6-7' ○●
Sassy intense orange with a rich brown eye. Extra large 1 1/2" flowers. Blooms June to frost. Ideal for containers or hanging baskets.
-
- Tropaeolum majus 'Jewel of Africa'**
(Variegated Climbing Nasturtium) h 8' ○
Nasturtiums in red, yellow, peach, cream with gorgeous variegated round foliage. Works well trailing over rocks or a wall, in a windowbox or as a ground cover. Leaves are large and luscious so give it some room to ramble. Likes poor soil and dry weather. Too rich a soil reduces flowering. Needs tying to climb up.
-
- Tropaeolum majus 'Cobra' NEW!**
(Climbing Nasturtium) h 3' ○
A dark leaved variety with brilliant red blossoms. This plant does not have tendrils so if grown as a climbing vine it will need to be tied periodically. It looks lovely rambling over a bed of rocks or a wall or spilling from a windowbox.
-
- Tropaeolum peregrinum RENEW! (Canary Bird Vine)** h 8-12' C
Bright 1" yellow flowers with fringed petals and light green spurs appear to be small birds from a distance. Lettuce green leaves are five lobed, glossy large and lovely. Prefers fertile evenly moist soil.
-
- Vigna unguiculata 'Red Noodle'**
(Yardlong Bean or Asparagus Bean) h 30' ○
Vigorous bean vine with 2" violet blossoms that become fascinating 18-40" pendant pods that are inflated when green and shrivel to cranberry red when ripe. Fast cover for chain link fence. A fun novelty in a children's garden. From SE Asia.

Index

Plants to Category

We've included this index for your quick reference when you are unsure where in our catalog to look for a particular plant. The category codes are as follows:

- AnGr = Annual grasses in 4" pots
- Vine = Annual vines in 5½" pots
- Gal T = Big Tomatoes in gallon pots
- FERN = Perennial ferns in quarts
- GrCov = Perennial ground covers in jumbo 6 packs
- BGems= Border Gems in jumbo 6 packs
- HERB = Herbs
- Lg A = Large Annuals in 1 or 2 gallon pots
- ED3 = Edibles in 3½" pots
- ED6 = Edibles in jumbo 6 packs
- P Gr = Perennial grasses in quarts
- P Nat = Perennial natives in quarts
- PER = Perennials in quarts
- SA = Specialty annuals in 4" pots
- SF = Specialty foliage in 4" pots
- BASK = Hanging Baskets
- EARLY=Early Spring Program (Pansies/Violas)

The table of contents lists where to find each of the categories listed above, and plants are listed alphabetically within that category.
